PREPARE FOR THE WEDDING OF THE PRINCESS ROYAL

Marriage of Duchess of Fife and Prince Arthur of Connaught, will Take Place this Month.

London, Oct. 2.—Although the royal wedding between the Duchess of Fife and Prince Arthur of Connaught will not take place until late this month, preparations are already under way for the event. The Queen, who is always closed at this season, while the royal family is in the North, is undergoing the necessary alterations for the ceremony. Before leaving London the Princess Royal and the Duchess of Fife planned the outlines for the trousseau, which will be all-British in material, although French models and modistes will be employed in its preparation.

Like the Queen, the Princess Royal and her daughter are not ardent admirers of prevailing styles and a somewhat modified form of the present rather scanty skirt will prevail in the bride's dressing. Ireland will have the honor of providing most of the linen both for the trousseau and household of the bride.

Plate will not be lacking in the new household, the regiments with which the bridegroom is connected and the tenants of the royal estates contributing generously to this department of the entourage. To prevent embarrassing duplication, the royal couple will be allowed some choice in family gifts. When the present king married, the royal couple received nineteen pianos. Royal relatives will confine their presents largely to rare and virtually priceless jewels. Some of the members of the royal family are said to have combined on a gift which will consist of a crown of diamonds in dual strawberry leaves.

The ceremony will be a semi-state affair, the invitations being sent out by the Lord Chamberlain in the name of the Princess Royal. It is expected that the German Emperor, the German Crown Prince and Princess, the King and Queen of Norway, the Crown Prince and Princess of Sweden, the King and Queen of Spain and all the members of the English royal family will be present. The wedding breakfast will be served in St. James palace. Accommodations being so limited, the guests will probably be confined almost entirely to royalty, but a great reception may be given the night before at Clarence House to the friends of the couple.

It is not expected that the Duke and Duchess of Kent, which will undoubtedly be the new title of the pair, will remain long in England, as it is anticipated that Prince Arthur will succeed his father as Governor General of Canada.

J. L. MADE DIES IN WEST

Well Known Newspaper Man Passes Away in Edmonton—Was a Native of Woodstock.

Special to The Standard. Woodstock, Oct. 2.—A telegram was received today from Edmonton, Alberta, announcing the death of J. L. Milmore, deceased was the son of J. C. Milmore, of Woodstock, and received his education in this town. After graduating he studied law with Hon. F. Jones for a couple of years. Preferring newspaper work, he did some special writing for the local papers and finally went to Boston where for a few years he was employed on the Boston Post. Returning home he played ball one summer with the local team after which he accepted a position of editor and manager of the Victoria County News.

About a year ago his health began to fail he left for the milder climate in the Canadian West. He was employed as clerk in railway construction work, but not feeling well he entered the hospital in Edmonton a few months ago where he remained until his death. He was an all-round athlete and was the best baseball pitcher turned out by the town. As a newspaper man when in the employ of the Boston Post he was considered one of its best reporters.

The deceased, who was 28 years of age, is survived by his father, two brothers, T. Emmett Milmore, editor of a paper in Murray County, Georgia, and Augustus of Boston, and two sisters, Misses Mary and Frances Milmore, of the teaching staff of the town schools. The remains will probably arrive here next Thursday for interment.

Another Index.

The finance committee of the County Council which met yesterday received communication from the Barristers Society asking that steps be taken to consolidate the index in the registry office. This will involve the making up of another volume, as enough loose leaves have collected since the last index was made up. The committee decided to recommend compliance with the request.

VERY HEAVY DAMAGE RESULT OF COLLISION.

Quebec, Oct. 2.—According to the Harbor Commission, the damage done to its property at the Gilmour wharf by the running in of the steamer Wakatane will amount to some \$35,000. The Wakatane herself sustained about \$20,000 damages.

An arrangement has been made between the interested parties for a settlement out of court.

FINANCE COMMITTEE OF COUNTY COUNCIL BELIEVES EXPENSES SHOULD BE BORNE BY SUNBURY COUNTY.

By over Valuation of Property Citizens Can Save a Considerable Amount—Is Criminal Offence.

An interesting discussion took place at the meeting of the Finance Committee of the County Council yesterday afternoon when a bill of several hundred dollars was presented on account of the Viola Reid trial. Members of the committee objected to the principle of having the expenses of the trial imposed upon the county of St. John, as the case originated in the county of Sunbury, and it was argued that the case should have been tried in Sunbury, and that the expense should be charged to that county. The fact that witnesses were brought here from Toronto and Halifax at considerable expense also caused some criticism, it being claimed that the deposition of the witnesses might have been taken at much less expense.

The committee decided to recommend the council to refuse payment of the bill, and see if it can be arranged to have it charged against the county of Sunbury.

It was said that the County Council would also probably be asked to pay at least a portion of the Isaacs' case, though the complainants were the Alberta government, and it was considered advisable to have a definite understanding of the principle involved.

A number of other bills were passed.

THEATRE GOERS ALSO HAVE THEIR PARTS TO PLAY

A Few Words as to How Attitude of an Audience to Actors Can Make or Mar Performance.

You have often heard that colored folks will dance 'till they drop for a few rounds of applause. This is just as true of all actors. The best that is in them will be given to an appreciative audience, and so it is well to show that appreciation. Don't hesitate to applaud the work of an actor which appeals to you and which you know deserves praise; in fact, it is almost the duty of an audience to show their appreciation, in order to afford the player a chance to give a satisfactory performance. Get away from the old fashioned idea that applause is vulgar. It isn't. It just shows that you are alive and interested. If you are pleased, let the actors know it and you will be more than pleased by the result. Remember that a good audience is not always the largest, but a small appreciative audience is often more inspiring to an actor, than a packed house composed of people afraid to give vent to their feelings.

Plays that are good are constructed for educational purposes as well as amusement, therefore, it is well to focus the play while it is fresh in your mind. You will be sure to find that it forms a topic far more interesting than the weather, politics or newspaper scandal. The theatre has done more to broaden the minds of the people than any other entertainment known. It not only gives them different types of people to study, but the different conditions and customs throughout the world, all of which naturally tend toward education and an understanding of life in general.

To "show" your appreciation is one of the things that Messrs. Thompson and Woods mean when they ask for the co-operation of the people of St. John. If you are satisfied with the actors and their work, let them know it; if you are not satisfied, let the managers know it. The slogan of Messrs. Thompson and Woods has always been to give the people more than their money's worth, and if there is anything which they attempt which does not bear this out, let them know before you tell your neighbors, as it is their earnest desire to please the public and to give them good value.

Another thing which they wish to call to the attention of the theatre-goers, and that is, to become a regular subscriber. Procure the same seats at the theatre regularly. Any inquiries in regard to this matter will be cheerfully answered at the box office.

Show your inclination to boost this new venture for the good of St. John by attending the opening bill, "Alias Jimmy Valentine," starting October 6th at the Opera House. If you are pleased you will come again; if you are not, let Messrs. Thompson and Woods know why.

CONSECRATION AT FERNHILL.

At 3 o'clock this afternoon the Right Rev. Bishop Richardson will consecrate a plot of ground in Fernhill cemetery comprising about twelve new lots recently completed on their path, and which make a very beautiful spot being bordered with beds of flowers. These lots will supply a demand which has been made for some time by persons wanting consecrated ground as the only other portion consecrated, the Church of England plot, has been sold out for some time, and while some lot owners have had their lots consecrated by former bishops it will no doubt be an advantage to have the one plot of lots which has been duly set apart and blessed for burial purposes.

DISCOVER A LOOPHOLE IN THE GERMAN TAX LAWS

Turnkey Clifford and Prisoners in County Jail Think they Recognize Description of Dead Man.

Berlin, Oct. 2.—A German tax expert has found a curious and amusing loophole in the new armament taxation bills by which a taxpayer, by reporting a greater amount of property for taxation than he possesses may pay less taxes than if assessed on the correct amount. The paradox is due to the fact that the new measures combine a direct property tax with a higher increment tax and can be taken advantage of only by a taxpayer who has ready money to invest in an increase in the value of his property. If he discounts this and returns his property next January at the figure which he expects it will reach in 1917, when the increment tax becomes effective, he will, it is true, pay a higher direct tax, but save the amount of the increment tax, which on moderate properties is 75 per cent. of the increase as against the direct tax rate of from 15 to 25 per cent.

The government, faced with the possibility of this curious form of tax dodging, has been forced to announce semi-officially that persons returning their property for assessment at an excessive figure will be subjected to the same penalties of imprisonment and fine as those returning too little.

Dr. Helms Postel, a physician who found this important loophole in the law, illustrates it with the following example: A has property valued at \$7,500, which he increases each year through savings and labor by \$1,250. If he is assessed in 1914 for \$7,500 and in 1917 for \$11,250, his taxes will amount to 15 per cent. of \$7,500 and 75 per cent. of the increase of \$3,750, amounting together to \$39.37. If, however, A gives his property valuation in 1914 as \$11,250, he will have to pay only 15 per cent. of this during the next three years, amounting to \$14.37, and no tax for the succeeding period, since there is no increment. He therefore saves \$25 by giving the higher valuation.

The saving is relatively smaller in the case of large properties. If A has property worth \$37,500, which he increases each year by \$2,500, his taxes for the six years under a proper valuation would amount to \$181.25. If he has his property valued in the beginning at \$42,500, his taxes will amount to only \$150, showing a saving of \$31.25.

FEAR IS FELT FOR STEAMERS IN THE NORTH

Further Details of Wreck of S.S. Cernous Received by Department—Apprehension Felt for others.

Special to The Standard. Ottawa, Oct. 2.—Further details of the wreck of the steamer Cernous, when conveying supplies to the Hudson Bay Railway terminal at Port Nelson, were not received at the railway department this afternoon, and it is doubted if any more is heard until the Alcazar, which brought out the news of the disaster, reaches port. She is supposed to be heading for Sydney.

Both the ship and cargo were fully insured, the saving of which minimizes the disaster. The loss of the equipment for the wireless telegraphic station at Port Nelson, however, is particularly regretted, as it had been hoped to have the service in operation between Le Pas and Nelson by Christmas. As such means of communication is urgent, especially in view of the number of men who will remain in the north this winter, it is possible that equipment may be sent in overland.

The department is endeavoring to get in touch with the Alcazar to learn further particulars. There is considerable apprehension at the department as to the whereabouts of the steamers Bonaventure and Bellavente, the new dredge Nelson, and an ocean-going tug to be used at the terminal. However, they were barely overdue when the Alcazar left. The difficulty at present is that with no wireless station this side of Battle Harbor there is no means of obtaining information.

MURDER HAVE PASSES OVER GERMAN CITY

Berlin Newspapers Compare Deeds to Darkest New York Crimes—Hot Season Believed Cause.

Berlin, Oct. 2.—A remarkable wave of crime has swept over Berlin in the past fortnight, causing one of the newspapers to comment that "Berlin is now complete as the seat of bloody crimes with darkest New York." There has been a murder for nearly every day during that period, in addition to several unsuccessful attempts to commit murder.

The crimes took various forms. A house owner shot a tenant who was on horse back. A seamstress was killed by a man who was with her as she slept. An employee of a bathing establishment killed the owner, a woman, after a quarrel about losses in horse races. A seamstress was entered into the woods by a bogus matrimonial agent and murdered. Still another man tried to end the lives of himself, a wife and grown daughter by turning on the gas at night.

Murders have become so frequent that the theory of the periodicity of crime has been advanced to account for them. A Berlin newspaper editorially questions whether the periodicity of the working classes were killed by their passions. It suggests that the hot wave that passed over Berlin the end of August and the early part of September, caused this remarkable increase in crime, and that men give way to their passions more readily in hot weather than in days of moderate temperature.

BELLEISLE NOTES.

Belleisle Station, Oct. 3.—The marriage of Miss Amanda P. Long and Russell M. Locke took place in the Methodist church here on Wednesday afternoon, Rev. Mr. Young officiating. Miss Long has been a very successful nurse, taking up her duties for the past few years in the States. Mr. Locke is an expert electrician. They leave for Boston next week.

Miss Downey, of Curville, Albert Co., is the guest of her aunt, Mrs. Edna Gillies and Mr. Sherwood at the Fredericton exhibition last week.

IS SERIOUSLY ILL.

San Francisco, Oct. 2.—Ralph Rose, world's champion shot-putter, is critically ill with typhoid fever at the home of a relative here. Rose was stricken suddenly last night.

Na-Dru-Co Laxatives

are especially good for children because they are pleasant to take, gentle in action, do not irritate the bowels, and develop a need for continual or increased doses. 25c a box, at your Druggist's.
