

Every Person Welcomes the Approach of Spring

But every person does not care for that dull, tired, listless, all-down-and-out, don't-care-to-do-any-work feeling that overcomes one at this time of the year.

This feeling is caused by the eating of rich and heavy foods during the winter months, which, along with the indoor life, causes an accumulation of undigested and refuse matter in the system.

What is really needed at this time of the year is

A Good Spring Medicine

One that will clean out all these impurities. One that will cleanse the blood and get it into shape to withstand the heat of the summer months.

For This Purpose There is Nothing to Equal

BURDOCK BLOOD BITTERS

This grand old remedy has been on the market for nearly forty years and is, without a doubt, the best Spring Medicine.

INFORMATION WANTED.

To the Editor of The Standard.
Sir,—Commissioner McEldan has made many statements concerning his own value and the money he has saved the city and generally the good work that he has done. I have received a circular letter from the Mayor and see that he is Commissioner of Finance. Will Mayor Prink tell the public the amount of money paid by the

city to the detective from the States?

I am informed that the name given at the trial was McGregor. This man insulted the people of St. John. The story was that the insurance people were helping to pay. This is public business without the open door, as I am informed that the city paid a large sum for his work. How much of the taxpayers' money was paid to this person?
Yours truly,
AN EX-POLICE MAN.

THE CITY OF VERA CRUZ IS UNDER MARTIAL LAW

Continued from page 1.
The Mexican federal officer who had come to demand the arms then retired with the two hundred men he had brought with him to enforce the demand.
Washington, April 26.—Spanish ambassador Riano announced late tonight that he received private advices from Mexico City stating that General Huerta has accepted the offer of Argentina, Brazil and Chile to use their good offices to bring about a settlement of the difficulty between the United States and Mexico.
This information, though unofficial, was accepted as authentic by the ambassador, who expects to be prepared to place General Huerta's formal acceptance before the representatives of the three South American countries tomorrow. Tension over the one phase of the situation which may at any moment upset peace plans—the safety of Americans in Vera Cruz and other interior points—was partially relieved by the announcement of Secretary Bryan that through the British embassy there the Huerta officials and Admiral Fisher had arranged for the safe departure of Americans from the Mexican capital and the free exodus of Mexicans from Vera Cruz.
The United States consul at Nuevo Laredo reported officially that the constitutionalists had captured the city of Monterey, one of the Huerta strongholds, in northeastern Mexico, and a point of strategic importance.

PURITY AND CLEANLINESS.
Purity is the first consideration in "SALADA" Ceylon Tea. Only the rich and fragrant buds and leaves of the tea plant are used. "SALADA" contains no stems, bark, twigs or coarse leaves.
Cleanliness is assured by the use of special machinery which takes the place of human hands at every stage, from picking to packing.
The purity and cleanliness of "SALADA" are assured from plantation to purchaser by the air-tight lead package which preserves its delicate fragrance and flavour. Beware of substitutes leaving the dealer a larger profit at the expense of quality.
Ask for "SALADA" and see that you get it.

LAND TAX IN ST.

To the Editor of The Standard.
The land taxes fell to me. And as he passed He shouted to his All right so far. One would suppose late papers respecting lands here were mostly vacant, and both highly in the city proper but a large number of owners anxious to sell or lease with any demand at rates according to times.

Where has real estate investment in the past From, say 1873, until three years ago—owing to the great fire, the stopping building and ship owning, and sealing of the lumber trade would properly bring any season's value, and except favored localities, property five to six the small rental. Vacant lands have assessed here and are valued more than market value, holds are very heavily taxed at \$60 capitalised at one \$1,000. Tax \$19.50 or one-tenth.

And where are all the vacant lands? And except the west side and some in the city, and many are too far as the street railway is extended a demand. No law can force one to there is a present demand. There is about \$700,000 annually by taxation. Total value estate \$18,000,000, personal \$60,000,000, income \$5,000,000, total \$83,000,000. Suppose land alone valued at \$56,000,000 pay the \$700,000, that would be fourteen per cent on the property valued at \$3,000, or \$1,000—\$4,000 would be as to \$140 a year. If a vacant lot at \$1,000 or a leasehold same tax, \$120 to \$140. rental of the leasehold is one half or less than that would pay the tax? And if leaseholds and are to be taxed annually fourteen per cent, what the market value? They sell for, and who The tax would make the less. And as to leasehold incomes are exempt go way up.

The land taxers will say detail and can all be free and to many tax payers to free them from taxes, a vote of course, and all it comes from ever increases. "When demagogues with their crude, Debauch the phrase-led Let us mistrust the functions of amateur politicians it is to come later, an airy case which later labor must be undone.

HOW \$10,000 DECREASED AND HOW \$10,000 INCREASED

There are ten vacant 10,000 building is erected or next a \$7,500 building until the tenth which erected. This happened under system of taxation when rents are taxed, and the tax in that block would be \$7,500. Now reverse it and building on the corner of building next, and at the block a \$40,000 building that cost \$10,000 in a kind would have a market value of \$15,000. This is what happens take the tax off of improved Better buildings; better for everything. This is POTTS' policy on April 23rd will be applied.
