BEN PORTER BENEFIT MEET AT GALT ON NOV. 8

Owing to the heavy rain of last Saturday the race meeting which was to have been held at Galt as a benefit for Ben Porter had to be called off, but a meeting of business was held at the Hotel Stroud in Hamilton Tuesday, when it was decided to hold the meet at Galt on Saturday, November 8. Four races will be run off, including a 2:30 trot or pace, 2:17 trot or pace, free-for-all, and a running race. The harness events will be half-mile heats, best three in five, and the running race will be half-mile heats, best two in three. For the harness events purses of \$150 will be given, while the purse for the running race will be \$100. Some of the horsemen have their horses at races in Western Ontario this week and for that reason it was deemed advisable to hold the meeting next week. The program is an attractive one and as it is for a good cause there is no doubt about a large crowd being on hand if the weather is favorable.

Harrison will again have a hockey team in the field.

The annual meeting of the Ontario Hospital Curling Club, Hamilton, was held on Monday evening, with a large number of members in attendance.

FITZSIMMONS TO MEET TENDLER

Milwaukee, Wis., Oct. 30.—Boxing fans hereabouts are manifesting a lively interest in the 10-round contest between Eddie Fitzsimmons and Lew Tandler, which is to furnish the stellar attraction at the boxing show to be given here to-morrow night under the auspices of the Cream City A.C. Fitzsimmons has many admirers who believe he will be able to give the crack Philadelphia lightweight a hard fight for the decision. In his last ten battles the New Yorker has scored eight victories with knockouts. The interest in the coming bout is increased by the fact that a victory for Fitzsimmons would put the skids under Tandler's aspirations for the lightweight championship.

ALL-STAR SHOW IN JERSEY

New York, Oct. 30.—The all-star boxing show to be pulled off to-morrow night by the Arena Club of Jersey City is expected to attract a small army of pugilistic followers from this city. Matchmaker Dave Driscoll has prepared for an all-star show that promises to be one of the best seen in this vicinity in some time. The program provides for four eight-round bouts between the following fighters: Johnny Griffiths and Ted "Kid" Lewis, Mel Coogan and Brooklyn and Charley White of Chicago, Pal Moore of Memphis and Paddy Johnson of Trenton, and Angie Rastner of the Bronx and Marty Cross of the East Side.

Charles H. Ebbetts one of the owners of the Brooklyn Baseball Club, and his wife appeared before Justice Benedict in the Brooklyn Supreme Court for examination to satisfy the court there was no collusion in connection with Mrs. Ebbetts' suit for divorce. Mr. Ebbetts said he had not submitted a defence because he had none. He also stated that he had agreed to pay his wife \$78,000 in twelve annual payments in addition to paying her counsel fee of \$1,500.

PETERBORO HOCKEY.

Peterboro will enter a team in the Ontario H.A., but will not have a junior team.

BOND INTEREST.

IS \$18,000,000

ENORMOUS SUM WILL BE DISTRIBUTED IN CANADA ON FIRST OF NOVEMBER.

On November 1, \$18,000,000 will be distributed as interest among those who have subscribed to the 1918 Victory Loan. A large portion of the amount will go to the holders of small bonds.

Small bonds bring small amounts of interest, individually, but taken in the aggregate the interest assumes imposing proportions.

The people who will receive the interest in November will have in their hands a potential Niagara, a Niagara that will help materially in sweeping the Victory Loan, 1919, on to victory. Interest drawn from previous issues of Victory Bonds should be re-invested. Because Canada needs the money. She needs it to clean up the war bill, to see that the soldiers who have come back in their thousands are fairly dealt with, that the wounded and crippled and the dependents of the fallen do not want, and that the large capital expenditures that are a part of the enormous work of reconstruction that has been undertaken are taken care of. Put your Victory Bond interest back into more Victory Bonds.

CONSIDER IT

A GOOD THING

FIRESTONE BY-LAW BEFORE BARTON TOWNSHIP.
Will Relieve Taxation on Smaller Payers.

From the Hamilton Herald:—Never in the history of Canada has there been keener competition in the direction of attracting industrial concerns to locate in this country than at present. Hamilton has been particularly successful in this respect in spite of the fact that it has been so seriously handicapped in the matter of having at its disposal no vacant land to offer as free sites, and this is a very serious handicap in so far as influencing certain industries.

For several months negotiations have been carried on with the heads of the Firestone Tire and Rubber company. This company has been in business for about twenty years, and its prosperity and development can be compared only with those of such industries as the Ford company. It has established a reputation in the United States for enterprise, integrity and advanced commercial methods that has stamped it as a most desirable concern to have in any community.

In a survey of the various cities in Canada, and a comparison of their advantages as manufacturing centers, the shrewd heads of this mammoth plant finally selected a site of about 15 acres owned by Sir Henry Pellatt and facing the shores of Hamilton bay. Hamilton's distinct advantages as a manufacturing center were recognized and admitted, but their most formidable competitors, the Goodyear people, had received such outstanding concessions from New York City in the way of assessment, and tax exemptions for a long term of years that the Firestone managers were compelled to seek consideration in a modified way from the municipality of Barton, in which the proposed site is located.

On Monday next the electors have an opportunity of recording their approval of the proposed agreement. No man in the municipality is better posted to offer opinions on its merits than Benjamin Hunt an ex-reeve, who for many years has been identified with the affairs of the township. "I have looked at this proposal," said he this morning, "from every angle, and I am quite in sympathy with the views expressed by Adam Inch yesterday in the references that appeared in the local newspapers. The Firestone company will be a distinct acquisition. The tax burdens of the township are being relieved. The company under one proposal will pay taxes on an assessment of \$100,000, and under the second arrangement on about \$50,000.

"In either case the assessment agreement applies to that portion of the company's holdings which is to be used only for industrial purposes. Another important point, and one which has a direct effect upon the tax problems of the municipality, is that the company pays its full share of the school rates, business and income tax, among the small property owners particularly, of the excessive burden in the way of school taxation there, and the locating of a huge industry of this character will most appreciably ease the financial obligations of the township."

"It will also be a great impetus in the development of real estate and in bringing Barton and its values where they properly belong. It is an opportunity not to be overlooked."

THE MAJORITY RULE

If this theory is put into practical effect in all matters how and where will it end? The majority may be utterly wrong, it is simple ridiculous to think that a majority is always right and never wrong. A minority of people who believe in justice and tolerance should never submit to a majority of intolerant fanatics. Democracy of which we hear so much, was never intended by its first advocates as a means of trampling on people. Under democracy all people should have scope for individual development without the interference of others. If democracy means that every act of our lives and all things that we may do or have to do, are to be regulated by law, then we are no better than under a despotism.

A majority of intolerant people may be more despotic than any Czar or Kaiser. If 75 per cent of the people in any community belong to some particular so-called religious body, are they to trample on the 25 per cent who may belong to an other religious or perhaps to no religious body at all? This is the logical end of majority rule and yet it is advocated by many people in this alleged free enlightened 20th Century. The doctrine and preaching of Christ and set up statute law and orders in Council in opposition to true Christian City.

John McLaughlin, aged thirty-five, was lost when Government dredge No. 114 founded near Hamilton Beach.

Geo. Dickenson, Bidolph township, has issued a writ for \$358.75 against J. W. Hodgins for unpaid wages.

The Victory Loan campaign in many cities and towns were given a noisy start.

Why the great popularity of the AutoStop Razor? Mainly, because the AutoStop Razor sharpens its own blades and doesn't need to be taken apart for cleaning.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.

Frederick S. Kolbe, M. D., Editor of New York Physicians' "Who's Who," says that weak, nervous people who want increased weight, strength and nerve-force, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal.

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two weeks' supply—it costs only fifty cents a week.

Eat less; chew your food thoroughly, and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing.

A 45-pound maskinonge was caught by Stephen Dorey of Ganacque, near that town, one of the largest caught in that part of the St. Lawrence, in 1918.

G.T.R. Conductor Edward Armstrong of Bridgeburg died of pneumonia, following the amputation of a leg on account of being accidentally shot in the knee by a small boy.

Toll Dyspepsia

What To Eat

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and suffers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them; that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bismarck form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

Irrigation and Land Settlement Scheme Among F Soldiers Re-Establishment Commission, E Hamilton District.

GRAND RIVER CONSERVATION

The realization of another practical scheme, originated in this city, may not be far off. It is the Grand River waters and the development of a in connection with it.

It is noted that the Soldiers Re-Establishment adopted the recommendation made by an engineer Cauchon of Ottawa, who urges the investigation small land holding scheme for the benefit of returned soldiers. The number of twenty-five million will submit to the House of Commons.

Mr. Cauchon in appearing before the Commission recommended the Hamilton district for such a small. The land in that district is suitable for the purpose.

The local interest in the matter centres not only will have on the Grand River waters, but also on a local man who first suggested the idea of conserving the Grand River during the period of the spring flows along the river banks will not be damaged and even flow all the year round. This gentleman is Haupt.

In conversation with Mr. Breithaupt this morning by him that the proposed scheme suggested a practical and as has been frequently remarked by the erection of a dam in Pilkington Township, with a storage capacity of 25,000,000 cubic feet under a flow ten times as big as the present summer seen such a scheme this year, the crops in the Grand would have been three times as big as they were said.

The informant said that the proposed scheme in the Hamilton district would necessitate the construction below Galt to the Niagara peninsula. This canal the means of irrigation would also give 25,000 hours power.

While only the lands in the Hamilton district the bottom lands all along the Grand River would be added to be developed along the river.

In addition to the main reservoir in Pilkington would be additional reservoirs on the Conestoga which would bring the total storage up to about 100,000,000 feet of storage.

While the Re-Establishment Commission's recommendation was not yet acted on in the House of Commons, in the near future, it is expected, it will not be surprised to investigate the scheme as recommended by the Commission.

STRIKE INJUNCTION GRANTED

INDIANAPOLIS, Oct. 31.—An application of United States Government for a temporary injunction, restraining all strike activities of United Mine Workers, was issued by the Federal district court to-day on the ground that a national disaster was impending and the Government has the right to enforce the laws and protect people from calamity.

KINGSTON GIRL BADLY BURNED.

Kingston, Oct. 31.—Annie McEwen, maid in the home of James Surft, was badly burned when her clothes caught fire from a gas stove. She ran, screaming, from the house and tumbled over the fence on the ground to extinguish the flames.

THE MAKING OF A NEW HOUSE A HOME

Detroit Specialist, Miss Marie Stemm, in the City E per Housing Accommodation

DEVELOPMENTS IN HOUSING.

The advantages and the necessity of plenty of good houses is being impressed upon one these days when facts are gleaned from what has been done in other towns. Waterville, the city beautiful, affords the opportunity to get this knowledge.

The prosperity and the contentment of the people due to this is leaving a large measure are revealed in the facts that are connected with the operations of the Wm. McEachern and Sons, Ltd., community builders in Ontario and across the border, which show what can be accomplished by united effort to get more houses in these days when so many industries are handicapped in their efforts to bring in help from the outside and when new industries which might locate here are also under a disadvantage owing to lack of ample accommodation here for the employees that would have to be brought in.

There is in the city Miss Marie Stemm of Detroit, the interior decorator for the McEachern company. McEachern and Sons' men under the direction of specialists in designing the workmanship make the houses not only substantial all the way through but beautiful from top to bottom both outside and inside. But it is left to Miss Stemm to put on the finishing touches. Her good judgment, her appreciation of the beautiful and artistic combined with the practical, and the economical are responsible for making every one of these houses a real home. The empty rooms of a completed house soon changes from barren compartments to surroundings which make the visitor to them feel at home.

Miss Stemm yesterday afternoon addressed the ladies of the Daughters of the Empire on the necessity and advantages of proper housing. Good homes for working men and women which make an inspiration for the work.
