[We apologize for the error in layout of last week's Viewpoint, and any inconvenience the mistakes may have caused.]

Mike MacKinnon

She represents the good time that we want to have but can't cause we're too busy studying.

EE1 Steve Floyd

It satisfies a craving for female engineers. It brings fort all our latent fantasies.

EE 1 Karen Campbell

All engineers are sexually deprived.

BBA 4 Dave MacEacheron

It points out the shortcomings of the average engineering student.

CE 4 Mike O'Brien

She helps me keep abreast of the female situation. Hi Sandra!

Bruce Morris

There are two very impressive points to be considered.

CE 4 Tom Wright

I think it's the best thing since the SRC Elections .. er .. elections.

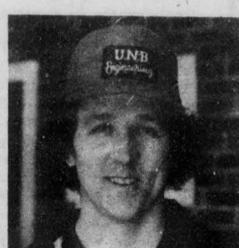

CE Special Eugene Hill

It gives the students a chance to get together, with a common purpose.

Chairman EEng. Steve Marr

She gives me a chance to see someone besides myself make a spectacle of herself.

CE 4 Mitch Smith

It gives the foresters a chance to see something they've never seen before.

and ophthalmologists.

## Inside by All

### UPDATER ON RAILRO

Last month, I wrote about my discontent with the streets in particular the streets in particular the streets. I also wrote about Elbridge Wilkins, and have listened, and act the letter the Asst. C wrote to me:

At a meeting of Fredericton City Council consideration was given to a 1977 addressed to relevant to railway cr. You will be interested in the Committee passed a resolution to the Administrator write to the Pacific and Canadian National requesting action be taken particularly at the crossing. Thank you for your letter. This is encouraging, this from time to time to their sincerity.

### ULTRA SECRET

A few years back the long last what was to secret of World War II, now are the British re ULTRA and I was amazed who are WW II buffs.

It so happens that in code machine so complex impossible for anyone. They calculated that the code would be 4 x 10 effort at concealing the with this code machine. revolving drums such punched the ENTIRE code receiving end merely machine at the same st out a decoded message.

But the crunch came without the Germans kidnapping one of these British then literally kidnapped and kept them in a hole being the use of the enemy messages.

From there on all his After awhile the British able to know EVERYTHING or thinking of doing. A the effectiveness of was substantially improved where their subs were.

The British knew when attack each time, how n going to use, and even seems Churchill's biggest the Germans from machines.

For one, was astounding changed the entire course noone but the British knew they released the first in are only now prepared to said that machines like countries until very recently.

There will now be talk about ULTRA. At any changed, and a lot of

## Archaeology

Dr. Brigitta Wallace, Atlantic Provinces Staff Archaeologist with the National Historic Sites Service in Ottawa, will present an illustrated lecture on The Norse North America with special reference to their settlement at L'Anse aux Meadows, Newfoundland.

Monday, November 7, 1977, 8:00 p.m. in Carleton Hall, Room 139.
