Earning the CA designation is a beginning, an open door to numerous opportunities. As a CA you can choose to work in industry, government, education, for a CA firm, or for yourself in public practice.

You can work anywhere in Canada or almost anywhere in the world, if you wish.

Whatever avenue you pursue you'll be working with people, helping people, encountering new situations and continuously facing new challenges.

A career as a CA is open to students from a wide range of disciplines, not just to those with a commerce or business degree. Many students from backgrounds such as the humanities, mathematics, science and engineering have found rewarding careers as Chartered Accountants.

Consider the career with opportunities . . . start accounting for your future!

HISTORICAL FOOTNOTE:

credentials count

In the over 71 years of the profession's history in New Brunswick, its most far reaching decision was to require every student considering a career as a CA to have a university degree.

If Chartered Accountants were to take their rightful place in the business world and if they were to become problem solvers, then - the Education Committee decided in 1970 - they needed the benefit of a broadly based university education.

Today, that standard of excellence continues.
