* See foot-note, Table 15. † Since 1899, exports by provinces have not been published in Trade and Navigation report.

The imports of coal into Canada are shown in Table 6. Anthracite dust is included with the anthracite coal, but bituminous dust is classified as 'bituminous slack such as will pass through a $\frac{1}{2}$ " screen.' The imports of anthracite and bituminous were both less in 1909 than in 1908, but there was a slight increase in the imports of bituminous dust.
