

like that of Fred Gee's and the others that I have described; and then to that will be added the utmost certainty of losing the tooth unless you go to some very skilful dentist.

This cut shows how this young woman's features have been disfigured, her parents having neglected her teeth in childhood, allowing them to come in all jumbled up every way. The first teeth not being removed at the right time crowded the permanent teeth out of place. To regulate them now at her age means not only a much greater expense, but also a lot of her valuable time. Yet it is better to be done than go through life thus disfigured.

Facial Neuralgia and Its Cause.

Many persons suffer for weeks with neuralgia or ear-ache, spending large sums of money for medical treatment, never suspecting that their trouble is caused by a dead tooth or root. If I had time to write and you had time to read, I could give very
