# THE DUTY OF LIBERALS

It is generally conceded that, whatever the actual administrative record of the Ross Government may have been during the past few years, it has clung to office helped by electoral methods that have been worse than corrupt. Ballot burning, switching and stealing, wholesale impersonation of the "Minnie M" variety, and bribery within the precincts of Parliament itself, have so disgraced the Province of Ontario under the Ross Government that many men who would otherwise be proud to still call themselves Liberals, will, in justice to their own self-respect, be reluctantly compelled to vote against the Government on Wednesday next.

It is no argument to say that the Opposition is just as bad. The responsibility is with the Government chaich is in power, and the Government chaich is in power, and the Government except of the sins of others, who, while in Opposition is just as bad. The responsibility is with the Government chaich is in power, and the Government hand of the sins of others, who, while in Opposition is just as bad. The responsibility is with the Government chaich is in power, and the Government hand the Government alone is directly responsible to the people, and when the Government talone is directly responsible to the people, and when the Government that stands for scandal and shame in matters political, there is only one choice for a decent citizen, be he Liberal or Conservative, and shame in matters political, there is only one choice for a decent citizen, be the Liberal power, and the flavor of the province in the content of the province in the constituency in which he has the right to exercise his franchise. #### Mr. Whitney and Mr. Ross.

Mr. Whitney stands for clean Government; Mr. Ross stands for Government at any cost.

Mr. Whitney desires clean elections; Mr. Ross has accepted the fruits of stolen elections.

Mr. Ross has broken no pledge; Mr. Ross has broken no pledge; Mr. Ross has broken the record as a pledge breaker and, as he himself put it, "he was delighted" when the Liberal Convention helped him to crawl out of his prohibition obligations.

Mr. Whitney is personally honest; Mr. Ross has never explained how the Gamey letter reached his private desk.

Mr. Whitney is straightforward and above-board; Mr. Ross is a specious pleader and deceitful in his utterances.

Mr. Whitney has a sufficient number of good men around him to form a clean and honest Cabinet; Mr. Ross has had, and has to-day, as members of his Cabinet men whose administration of office has become a scandal.

Mr. Whitney stands before the public as a man who will punish crime whether it be committed by Liberals attend to the business of the Province attend to the business of the Province in Ontario. These men have been appointed sometimes for fitness but more often because of prolitical word despite unfitness.

Some of these public officers attend to their dutics conscientiously and carn the salary the Province respectively in the record as a province in doing political work for political friends—and are unjust autocrats who in the administration of their public office deal unfairly against their political or of their public office deal unfairly against their political friends—and are unjust autocrats who in the administration of their public office deal unfairly against their political friends—and are unjust autocrats who in the administration of their public office deal unfairly against their political friends—and are unjust autocrats who in the administration of their public office deal unfairly against their political friends—and are unjust autocrats who in the ad

Which will you vote for?

Vote to abolish the "Barnacles."
Vote to make your office holders attend to the business of the Province and give an honest day's work for an honest day's pay.
Vote for Mr. Whitney.

### Where Is the Timber Surplus?

Without doubt the greatest and most valuable of Ontario's assets has been her timber wealth. From year to year we hear of large timber areas being sold by public auction and millions of dollars realized from their sale. These millions of dollars realized from their sale and an account of policy.

No great public issue divides the two parties in Ontario; there is no prominent question before the public such as is now agitating the people of Great Britain. Mr. Ross and the such as is now agitating the people of Great Britain. Mr. Ross and the Liberal Government do not stand at this moment for any particular line of policy.

Mr. Ross and his Government may be swept from power on the 25th January and no important public question can suffer thereby. His defeat would mean the defeat of Ross not the defeat of any policy. Inder these circumstances surely it is time derived each year from the sale of timber form part of Ontario's capital the moneys derived from its sale has been paid over to the Provincial Treasure. If the millions derived each year from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived them the sale should be represented either in an immense cash surplus of the sale of timber form part of Ontario's capital the moneys derived the sale of timber form part of Ontario's capital the moneys derived the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived from the sale of timber form part of Ontario's capital the moneys derived the sale of timber form part of Ontario's capital the moneys derived the sale of timber form part of Ontario's capita You surely won't stop at a dollar bill to ourse that horrid, saiffeling cold? Go to any druggist and get "Catarrhozone" and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhozone kills colds. But when you consider the experising healing and anzone kills colds. But when you consider the penetrating, healing and antiseptic qualities of Catarrhozone perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhozone. Refuse a substitute and insist on having only "Catarrhozone."

Vigo, the Spanish seaport, is an old time scene of war. It was to Vigo that Drake and Norcis satied in 1588 to place Don Antonio on the throne of Portugal. They burned Vigo, but failed to capture Lisbon and went away cursing mach other. So little plunder was there that the common sallors received but 5 shillings a man in wages and took to robbery, for which many of them were hanged in and near London. When the English under Rooke put into Vigo harbor again there was treasure in sight. A fleet of Spanish galleons, of which Benbow had been in pursuit, was in the bay, protected by a French fleet. Several galleons were eaptured by the English, but more went to the bottom and there remain to this day. Nowadays Vigo is a commonplace little town. By means of their gills fish breathe the air dissolved in water. The oxygen consumed by them is not that which forms the chemical constituent of the water, but that contained in the air which is dissolved in the water. Fishes transferred to water from which the air has been driven out by a high temperature or in which the air absorbed by them is not replaced are soon suffocated. They require aerated water to maintain life, and they take it in constantly through their mouths and expel it through their gills, retaining the air. It follows that if the water in a lake should be completely cut off from contact with the air long enough to exhaust the supply of air the fish in the lake would die. It would take a severe and pretty long continued freeze to accomplish this, but it might happen and doubtless has frequently happened with a small heave of water.

Nothing can make a man truly great but being truly good, and partaking of God's holiness. A woman will be sure to keep a secret if she knows doing so will worry another woman.

Prof. Shortt on Democracy.

Prof. Shortt ea Democracy.

Prof. Shortt, in a recent lecture at Queen's, said democracy was not so and a system of Government as an attitude of mind expressed in the claim for individual freedom of thought and, if necessary, of action, open alike to all in the community. It was the ineyitable outcome of that diffusion of knowledge and spirit It was the inevitable outcome of that diffusion of knowledge and spiritual awakening which expressed itself in the Remaissance, and which of mecessity ultimately penetrated to all aspects of life, intellectual, religious, social and economic. Great Britain was to-day more absolutely democratic, in her large sense of realizing individual freedom of the country.

realizing individual freedom of thought, than any other country. Her self-governing colonies and the United States were all considerably behind her in this respect.

IT WAS NOT A FAITH CURE

The popular view of the relation of the blood to human character and conduct is marked in many a familiar expression. We speak of there being "bad blood" between people at enmity, of "blue blood" as describing a treurcherous nature, and in many another phrase mark our belief that in the mental, moral and physical man, "the blood is the life." The one basis of a healthful, happy and useful life is pure blood. With the blood pure, disease has no permanent lodging place in the system. For this reason the use of Dr. Pierce's Golden Medical Discovery rids the body of diseases which have their origin in impurity of the blood. It absolutely purifies the blood, carrying off the waste and poisonous matter, increasing the action of the blood making glands, and building up the body by supplying the blood in quanity such as is essential to a condition of health. It sures ninety-eight people out of every hundred who give it a fair trial.

Of almsgiving, as of giving advice, it may be said its value depends on the way i nwhich it is done.
