

the Resolvent; these pimples will soon pass off, and then you will have a pure, clear, SWEET, and healthy skin, and a

BEAUTIFUL COMPLEXION!

CERTIFICATE OF BEAUTY.

The following letter is from a highly gifted lady, well known in the "circles" of our best society:

"LAFAYETTE, February 29, 1869.

"I had not much confidence in your SARSAPARILLIAN RESOLVENT. Having been disfigured for the last four months with *BLOTCHES* and *PIMPLES*, I resolved, at all events, to try it, and took *TWO TEASPOONFULS* three times a day as directed. It is not quite *ONE MONTH* since I commenced its use. To day there is not a *BLOTCH*, spot, blemish, or defection of any kind on my person.

"SARAH H. TREMONT,

"Jersey City P. O."

Weak and Low-spirited—Blotches on the Face—The Cause of Melancholy—Black Spots, Worms, etc.

FIFTH AVENUE HOTEL, April 10, 1868.

DR. RADWAY:—In the middle of March I was suffering with a disagreeable skin disease, pimples, blotches, spots on my face, and small pustules on my scalp. Three bottles of your Sarsaparillian cured all traces of disfigurement, and gave me what ladies so much prize, a clear and beautiful skin.

Miss M. H.—TT.

NEWTON, SUSSEX CO., N. J., April 3, 1869.

DR. RADWAY:— . . . I am very weak and low-spirited, have quite a number of blotches on my face, but not so many as I had before I commenced using your SARSAPARILLIAN RESOLVENT. I have used three bottles, and I am very much better. I have used Buchu and several other remedies, but have found nothing that has done me so much good as the Sarsaparillian Resolvent. . . .

Yours, etc.,

JOHN D. S.—NS

DROPSY

makes itself known by swelling, resulting from an infiltration of the watery parts of the blood into the flesh and tissues. The swelling is only the symptom the disease may be trouble in the Heart, in the Liver, or in the Kidney obstructing the circulation, causing the water of the blood to exude the coats of the blood-vessels. The Sarsaparillian and the Pills, in large doses, should be taken by dropsical persons. They will not only reduce the swellings but remove the cause of the swelling, which is the disease of the liver, kidney, or heart, as the case may be. In this disease the Resolvent shows its great power over the absorbent system. Dropsical swelling frequently results from cases of Fevers, Measles, Consumption, and Scrofula.

ELIZABETH LOSTER, A GERMAN LADY, WIFE OF FRANZ LOSTER,

WRITES US:

"EATON, PREBLE COUNTY, OHIO, Nov. 4, 1869.

"I have been suffering from Dropsy for many years; also Hemorrhage from the Womb. I was so full, bloated, swollen, and inflated that it was impossible for me to put on or take off my shoes or stockings. By accident, I obtained one of Dr. Radway's Almanacs for 1870, and
