

We will give absolutely free for the asking to any farmer, stock or poultry raiser one of our new, revised books. This book tells how to feed all kinds of farm stock and poultry, and gives the common diseases with symptoms, what treatment to be given, etc. Tells how to build poultry houses; how to avoid all manner of diseases of both stock and poultry; tells how to raise calves without using milk; explains fully all the high-class stock and poultry remedies and foods we manufacture. **FREE**

Royal Purple Stock Specific

What we claim for our Royal Purple Stock Specific, the great farm animal conditioner and fattener—

In conditioning and fattening horses you can do more in four weeks by using our Royal Purple Stock Specific than you could do in two months without it. You can fatten horses with this Stock Specific, you have never been able to fatten before. Try it on the worst animal you have on your place.

A cow will gain from two to five lbs. of milk per day while in the stable by using our Stock Specific.

You can fatten steers a month earlier on the same feed by using this specific.

You can market pigs one month earlier and have larger and better pigs, thereby saving a month's labor and feed. One \$1.50 tin will be sufficient to develop six to eight pigs for market.

Many farmers have said to themselves: "I cannot understand why the amount of grain we are feeding our animals does not give better results." The reason is lack of exercise and constant stuffing with food has "stuffed nature." Four animals require our Royal Purple Stock Specific to make their organs. Your Royal Purple Stock Specific to make their organs become active. You will see immediate results as soon as you commence using it. After you have used this Stock Specific a short time you can keep your animals in just as good condition by using two-thirds the ordinary amount of fodder you would have to give them without it. A small quantity of this will keep your horses in first-class condition all during the winter season and bring them out fat and sleek for the farm work in the spring.

Mr. Geo. Mapee, of Bondhead, says: "After experimenting with a great many stock foods I was convinced there was very little virtue in any of them but your dealer insisted on my trying Royal Purple Stock Specific, saying it was different from the others. I kept ten to twenty horses and about the same of cattle. This specific, in my opinion, is certainly in a class by itself as a conditioner and is the best I have ever used."

Mr. Norman C. Charlton, Scott, Sask., says: "I am from Ontario. I have fed your Stock Specific in Brownville. My cows, while using it, made the largest average and tested five points over average at C. M. P., at Brownville. I know you make the highest class conditioner on the market."

Dan McEwan, the veteran trainer of fast horses, says: "I have used your Royal Purple Stock Specific continually for five years and in all that time I have never had a horse in my stable off his feed. I consider it the greatest conditioner on the market."

Malcolm Grey, of Komoka, says: "In regard to the feeding of Royal Purple, I had two lots of hogs. To the first lot I fed Royal Purple Stock Specific as directed, and sold them when six months, seven days old. They averaged 156 pounds. On the second lot I did not use any Royal Purple and when the same age they averaged only 150 pounds. They were the same breed and one lot had as good a chance as the other."

"We have fed Royal Purple Poultry Specific also with excellent results. I would not like to be without Royal Purple in the stable."

Put up in 50c packages and \$1.50 tins. These tins contain four 50c packages.

Royal Purple Poultry Specific

"It's a Hen's Business to Lay—It's our Business to Make Her Lay"

This Specific is entirely different from the Stock Specific. There are several ingredients used in this that could not be fed to a horse. There is a vast difference between the digestive conditions said the same material for some manufacturers of horses. Our Royal Purple Poultry Specific will keep your birds young, fat and vigorous, will make them lay as well in winter as in summer. It is a grand tonic to be used in the feed given your young fowl growing up and the feed for older fowl. Use it in the mash as well in the small chicks, turkeys, etc., and mix it in the mash as they grow older and in the mash you feed your laying hens.

A 50c package will last twenty-five hens thirty days, a 50c package will last them seventy days. If you have a large number of poultry buy it in \$1.50 air tight tins. These contain four 50c packages.

J. C. McKinley of Kent Bridge, Ont., writes: "Since using your Poultry Specific my birds lay all winter and in the spring are in the best condition. We are now fattening a bunch of chickens. They look much bigger, fatter and stronger than those I tried to fatten without it. I cannot recommend it too highly."

Mr. Faulls of London, Ont., one of the largest breeders of show birds in Canada, says: "While using Royal Purple Poultry Specific I have never had a disease in my stock. I have had wonderful results in using your Roup Cure."
