No man should allow himself to become less a man than Nature intended him; no man should suffer for the sins of his youth when there is here at hand a certain cure for his weakness, a check to his waste of strength.

Most of the pains, most of the weakness of stomach, heart, brain and nerves from which men suffer are due to an early loss of Nature's reserve power through mistakes of youth. GOSSIP

WHY THE GRAIN GROWERS ARE UP AGAINST.

The following is from the editorial columns of the *Livestock World*, Chicago:

A gigantic struggle between the 10,000,000 farmers and grain producers of the United States on one hand and the National Grain Dealers' Association on the other, is disclosed in the numerous farmers' organizations which are being rapidly formed in all grain-producing States for the purpose of fighting the merciless extortions of the trust.

Many of the elevators of the United States are railroad property, and a combination of the railroads and trust has placed the farmers of the whole country wholly at the mercy of the combine, which extorts from 4 to 10 cents on every bushel of grain raised by the producer.

Illinois has about 2,000 grain buyers, who are exacting enormous toll from the 200,000 grain producers of the State, and it is the same in every grain-producing State in the Union, many farmers receiving 10 to 12 cents less than the actual market prices of their grain per bushel. The following is an extract from a statement compiled by President W. H. Lotspeich, of the farmers' organization lately formed at Somers, Ia.:

"Nearly every business enterprise is supported by agriculturists. If each one of these agriculturists will join together in his home neighborhood, forming a shipping association, and markets his grain direct to the primary markets, securing \$100 more annually for each man than he does when selling to representatives of line elevator companies with headquarters in big cities, the producer keeps his profit at home. The saving would be \$20,000 annually to that local neighborhood, which would aggregate \$200,000,000 annually to the 2,000,000 farmers embraced in that territory commonly known as the 'granary of the world.'"

"This would give a great impetus to all mercantile business depending upon farmers for their support. When farmers succeed, times are good throughout the length and breadth of the land. If farmers are hard up, every business begins to feel its effects, and ultimately hard times ensue."

HOW TO LIVE LONG.

"If we must die, let old age claim each of us as its natural trophy."

It has been said that it is better to be born lucky than rich, but it is, in fact, better to be born tough than either lucky or rich.

After 40, eat less and eliminate more. Drink more pure water and keep the peristaltic wave of prosperity constantly moving down the alimentary canal.

Many people suffer from too much business and not enough health. When such is the case they had better cut out business and society for a time, and come down to muck and milk and first principles.

Don't be foolish. Eat less and play more. Indulge in less fret and fume and more fruit and fun.

There are people too indolent to be healthy; literally, too lazy to live.

Work your brains and keep in touch with people. Do something for others and forget yourselves.

There is nothing so insane and detrimental to mind and health as the conversation of people on their aches, and pains, and troubles. The froth of whipped eggs is a tonic compared to it.

All our appetites are conditional. Enjoyment depends upon the scarcity.

A worker in any field, whose age is near either the shady or sunny side of 50, should consider himself in his prime, good for another half century of temperate, judicious work.

Let grandma wear bright ribbons and gaudy gowns if the colors become her, and let grandpa be as duds as he pleases with flashy neckties and cheerful garb. Both will be younger for it, and, besides, it is in harmony with nature.

Gray hair is honorable; that which is dyed is an abomination before the Lord.

Cultivate thankfulness and cheerfulness. An ounce of good cheer is worth a ton of melancholy. DR. G. F. BUTLER.
