Vanco Did it

When the Buds on your fruit trees are swelling, spray the trees from the top to bottom with

"Vanco" Lime Sulphur Solution

Clean trees mean sound fruit. Spring spraying means fall profits. San Jose Scale, Apple and Pear Scab, Aphid, Fire Blight, Mildew and other Fungi attack fruit trees before the leaves come out.

The time to attack them is before they can damage the tender buds. One spraying before the leaf buds burst, and another just before the blossoms come out—with perhaps a third when most of the blossoms have fallen—will mean hundreds of dollars profit when the fruit is ready for packing.

"VANCO" LIME SULPHUR SOLUTION is a true chemical solution of uniform strength and efficiency. It is prepared by scientific men in a scientific way—with the specific gravity on every barrel.

It does away with all guess-work—saves the trouble of home-boiling. It is ready for use after mixing with water—has no sediment—sprays easily—and does not clog the nozzle.

You get results when you spray with "VANCO" LIME SULPHUR SOLUTION—because it is strong, uniform, clear, efficient.

FERTILIZERS—We are the only house in Canada selling only the straight Fertilizing Chemicals—Nitrate of Soda, Murate of Potash, Sulphate of Potash and Acid Phosphate. YOU CAN SAVE FREIGHT by buying your Fertilizers and Spray Chemicals together, and have all come in one shipment.

WRITE FOR THE "VANCO" BOOK, and turn the information it will give you into dollars. We'll gladly send you a copy, free.
