UNITED STATES.

Adrian, Mich., Oct. 2.—At the County Fair ground this afternoon 2,000 people assembled on the grand stand to witness the faces. The centre of the stand gave way with a crash. The front part fell outward and the back fell into the river, precipitating the mass of people among the ruins. The work was at once commenced to extricate the dead and wounded.

Adrian, Mich., Oct. 2.—The total number of deaths from the accident at the Fair Grounds yesterday is thus far sixteen. The following have died from injuries since last night's report: Henry Hart, secretary of the Michigan State Insurance Company; A. Henderson, Willie Hall, a Chinese washerman; Daniel Johnson, Peter Egan, Mr. Hume and Eva Sherrard. The seriously injured number seventy-five, some of whom the physicians say cannot live.

Chicago, October 3.—General Sheridan says that if the Utes do not immediately surrender they will be exterminated. The attack on Thornburg was the latest treachery, which the military officers will resent if in their power. Thornburg refused to fire first, and was only following orders, for the troops are not permitted to arrest Indians on suspicion or fire on them until the hostiles have fired. This is in strict accordance with the peace policy of the Interior Department.

Leadville, Colorado, October 3.—The excitement here over the Indian trouble is very great. The Leadville militia are preparing to take the field.

AFGHANISTAN.

Simla, October 3.—Authentic information has been received here that communication with the British troops was cut off to-day on both sides of Shatargarden Pass by the tribes. Reinforcements are being sent up Kurum Valley. London, Oct. 3.—A dispatch from the Zargun Shah says the preponderance of native opinion is that the Afghans will make a stand this side of Cabul. The Ameer is anxious to return to Cabul. The general opinion is that he was allowed to leave on his engagement to arrest the British advance, and he fears that the troops will avenge themselves by attacking his palace.

Simla, October 5.—The report that the garrison of Shatargarden was entirely cut off from Ali Kheyl and Kushi is false. The forces were detained by difficulties in transportation, but will arrive at Cabul to-day. The Afghan artillery did not join the mutineers, but at present protect the Ameer's property and family. They now threaten to sack the city and disperse the mutineers. The Ameer has issued orders to shoot the marauders in Afghanistan wherever seen.

CANADIAN NEWS.

Wednesday evening, about seven o'clock, Mitchell McIntosh was killed by falling between the cars on the evening train which left Peterboro' at 6:25. He was intoxicated at the time of his death. It happened about one mile east of the town.

A young man named Lewis, whose parents live in Toronto, and who was on a visit to Widder, went out Friday evening to an adjoining bush to shoot, and while drawing the gun towards him, having laid it down on a log, it accidentally went off. She contents struck him about the ear, and the shot penetrating his brain caused instant death.

It was currently reported in Metcalfe on Thursday that the mother of the murderer Clark Brown had attempted to take her own life at West Winchester. Much indignation is undoubtedly manifested against this woman in connection with the recent horrible murder, many residing in the locality openly expressing their belief that the worst has not been the light of day. If all they say be true, a chapter in crime is soon likely to be written that will be without a parallel in Canadian criminal history.

As the excursion train was nearing Newbury Thursday evening, it struck a man named John Johnston, and injured him so severely that he died early the next morning. He leaves a wife and five children. He lived about a mile and a half from the village.

While a vessel was being loaded with barley at the wharf at Bowmanville on Saturday, some boys went up to the third story of the elevator and amused themselves by jumping into a bin from which the grain was rushing by means of a spout down to the ground floor. One boy about eleven years of age, named Terry, jumped into the hollow funnel over the hole of the spout, and being unable to climb out, was drawn under the grain and smothered. Attempts were made to dig him out, but this was found to be impossible, and several hundred buckets had to be run out on the floor before he could be got out, taking about two hours and a half. The boy is twenty-five feet deep, and the boy was about ten feet under the grain, and standing straight up, when found. Life was quite extinct.

A LOSS THAT CAN BE REPAIRED.—It is a well-ascertained fact, proven in numberless instances, that the weak and nervous can repair the loss of vitality which they have experienced with Northrop & Lyman's Quinine Wine, a medicine specially adapted to invigorate those in delicate health, overcome dyspepsia and fortify the system against disease. It has a high reputation as a remedy for bilious, remittent and intermittent fever. A pleasant taste is another of its recommendations. Sherry Wine, of the first quality and other ingredients of an aromatic nature, being mingled with the renowned drug from which it takes its name. It contains nothing of a deleterious nature, acts with promptitude—one or two bottles generally producing the desired effect and stands pre-eminent among articles of its class. It healthfully stimulates the appetite, induces sound repose, promotes a regular habit of body, banishes every trace of indigestion, and relieves the feeling of depression with which nervous dyspeptic persons are usually troubled, in addition to the purely physical symptoms which harass them. It should be a remedy in cases where it is used to remedy fever and ague and bilious remittent fever, the doses should be taken in the periodic absence of the fever. The statements made herein in regard to the medicinal properties of the Quinine Wine are not random allegations, but facts which close observation of its effects for years past fully verify. Of course it will not cure diseases to which it is not specially adapted, but that is a medicine of surpassing efficacy in the particular line we have indicated is beyond all reasonable doubt. A wine-glass full, three or four times a day, about half an hour before meals, is the usual dose. Purchase only the Quinine Wine prepared by Northrop & Lyman, Toronto. Sold by druggists everywhere.

Consumption and General Debility. From J. JARVIS, Westminister, London, Sept. 2, 1879.

For nearly six years I had been suffering with severe nervous and general exhaustion of the nervous system, which was thought to be a fatal case of consumption. My flesh wasted, and I was constantly losing weight, and night sweats; expectation of death was constant, and I had tried several doctors of this city without receiving any benefit. With these symptoms I consulted Dr. Wilson, Electro-Pathic and Hygienic Physician, who, upon careful examination of my chest, both by percussion and auscultation, and also by the new method of Electrical Diagnosis of the system, assured me that my case was not a case of consumption, but a case of general debility, and that I could be cured by the use of his system of Electro-Pathic Treatment. I put myself under his care, and received the electrical applications at first daily, and afterwards twice weekly, and I am pleased to state that in one month I was able to resume my business duties. The effects upon my system were very marked, and I can confidently speak in favor of Electro-Pathic Treatment as a cure for Debility, and in all complaints of the chest, where the lung tissue is not too far disorganized. Mr. Jarvis is in good health at the present time.

The Fire Office, now in the 21st year of its existence, is doing a larger, safer and better business than ever, having in the month of June issued 1,200 policies and during July 2,202 policies—a number never before exceeded except by itself.

Intending Insurers Will Note.—That the "London Mutual" was the pioneer of fire insurance in Canada, and that its rates have always been placed that, being the lowest, it has no stockholders, and all profits are added to its members.

2nd. That it is the only Company that has always strictly adhered to one class of business, and now has more property at risk in the Province of Ontario than any other Company—stock or mutual—English, Canadian, or American, (vide Government Reports).

3rd. That it has paid nearly a million dollars in compensation for losses, having distributed the same in nearly every township in the Province.

4th. That its books and affairs are always open to the inspection of the members, and the Directors are desirous that the public should be so advised.

FARMERS: Patronize your own old, sound, safe, economical Company, and be not led away by the delusions of new ventures and the theories of speculators in the insurance business.
