A letter from Vienna of the 5th, in the Conitutionnel, says: - "The most complete accord appy to be able to announce to you that the ith basis, which, according to some superficial ninds, threatened to become the stumbling-block t the approaching conference at Paris, only serves as a stronger proof of the perfect understanding which prevails between Austria and the Western Powers on all points involving a casus elli. As a conclusive proof of this, I may menion that the Court of Vienna has admited, without dispute, that in the interpretation of the fifth pasis is comprised the obligation of not rebuilding the fortifications of Bomarsund, as it was for the interest of the balance of the power in Europe that the Colossus of the North should not Coffee, Laguyra, " e able to exercise a too great pressure on Sweden by means of the Aland Islands."

The Archbishop of Paris has issued a curious proclamation to the faithful of his diocese concer ning their duties during the ensuing Lent. He gives them carte blanche not to fast more than hey like, for this very cogent reason, that he knows it would be useless to exhort them to the contrary. In these degenerate times, he says, abstinence is a mere barren tradition in almost every house. The church, therefore, has infinite indulgence for its babes, and treats them as mothers treat sick children. If they pray and give alms in proportion to the bodily gratification they may think fit to allow themselves, he promises that they shall thus amass treasure in heaven, and that the multitude of their charities shall cover the multitude of their sins.

The present Income of the Company is about saxly by Division of Profits.

The first Division of the Company's Fronts took places at May 25th 1854, when a Bonus at the rate of Lippoent per annum on all Polices effected in the Participation Scheme was declared, as shown in the following Lable, the examples being Policies of £19.9.

The additions to Policies of larger or smaller amount are in the same proportion.

Those who do not wish to add the amount of the Bones to the sum assured, are permitted to take the value of the addition in a present sum.

The next Investigation and Division of Profits will be made in 1859, and quinquennially thereafter. From the wide basis on which the Company has been

its operations, the Directors look forward to large future profits available to their Policy holders; and they do not think they over estimate the advantages of the Company, in stating that no Office has extended its business to the Colonies of Great Britain, affording so many first, and at the same time holding out the prospect of so much advantage to Assurers. The Rates of the Company.

These will be found moderate, and looking to the facilities and advantages afforded by the Company, they if my be considered more advantageous, and writinity less examples are than those of any other Office doing business in he British Colonies.
