# Stephens PAINT= The Paint With The Long Life

Practical painters all agree that the life of the paint depends upon the life of the oil.

For *Stephens* Paint we select properly aged, pure Manitoba Linseed Oil—the toughest, most durable in the world.

To incorporate a greater quantity of this oil in our Paint we use pure Oxide of Zinc in addition to pure White Lead. While White Lead has many excellent qualities, which it is impossible to do without, it does not possess an oil carrying capacity equal to Oxide of Zinc.

Furthermore, the Oxide of Zinc preserves the oil—gives it longer life—because it resists chemical action between the pigments and oil. This chemical action, if permitted, destroys the oil. Makes the paint chalky. Is the reason why White Lead Paints haven't the wear resistance of *Stephens* which contains the proper proportion of Oxide of Zinc.

It will certainly pay you to buy the Paint which possesses the means for retaining this oil for the greatest length of time. Write for our interesting **Free Booklet No. 12** and color cards. Sold by hardware dealers.
