Out They Go

Some farmers and dairymen first buy disk filled or other common cream separators—use them a while—discover they are not modern—then out they go for Sharples Dairy Tubulars.

That is paying dear for experience—but is better than continuing to use common separators. This is proved by the fact that Tubulars probably replace more common separators every year than any maker of such machines sells.

Other farmers and dairymen look more carefully into the subject. They talk with Tubular users. They convince themselves that Tubulars are the only modern separators—The World's Best—and buy Tubulars in the first place.

The manufacture of Tubulars is one of Canada's leading industries. Oldest separator concern in America. Sales easily exceed most, if not all, others combined.

she said this, for she felt herself to be anything but a humble paysanne. She nourished a secret pride in her heart over the perfect success of her devilish skill in poisoning.

"I give you whatever praise you desire," replied Angelique, mechanically. "But you have not told me how it was done. Sit down again," continued she, with a touch of her imperative manner, "and tell me all and every incident of what you have done."

"You will not like to hear it. Better be content with the knowledge that your rival was a dangerous and a beautiful one," Angelique looked up at this. "Better be content to know that she is dead, without asking any more."

"No, you shall tell me everything. I cannot rest until I know all!"

"Nor after you do know all will you rest!" replied La Corriveau slightly, for she despised the evident trepidation of Angelique.

"No matter! you shall tell me. I am calm now," Angelique made a great effort to appear calm while she listened to the tale of tragedy in which she had played so deep a part.

La Corriveau, observing that the gust of passion was blown over, sat down in a chair opposite Angelique, and placing one hand on the knee of her listener, as if to hold her fast, began the terrible recital.

LIVESTOCK SHOW

In a recent interview Dean Curtiss of the Iowa State College, expressed himself as follows on the subject of the International Livestock Exposition which is to be held this year from Nov. 27 to Dec. 15:

"The educational influence of a great livestock show such as the International cannot be fully estimated. The success of the International has been phenomenal. Each year it appeals to a wider constituency. It is truly international in its scope. The magnitude and excellence of its exhibits has been a marvel to foreign visitors. No other show on either continent brings together such an array of superior breeding stock and prime animals fit for the block as may be seen at this show. This feature is particularly interesting and instructive. The block test furnishes the final proof of excellence and affords a standard to measure the value

The Razor Steel, Secret Temper, Cross-Cut Saw.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge, and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge." This secret process of temper is known and used only by ourselves. These saws are elliptic ground thin back, requiring less set than saws now made perfect taper from tooth to back. Now, we ask you, when you go to buy a saw to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best. Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand. It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work. Thousands of these saws are shipped to the United States and sold at a higher price than the best American saws. Manuf'd only by 1

JOHN GRAHAM

THE OLDEST IMPORTER IN MANITOBA AND THE LARGEST IN CANADA

Three (3) importations made since January, 1909, and the last to hand on November 1st, totalling 23 head of stallions and mares.

If you are in the market to buy, don't miss seeing my stock before closing any deal; can give you the best Scotland produces or an equally well-bred horse at a small price. Have a selection to suit all buyers.

I have such crack show horses on hand as the following: Arnot's Heir, by Hiawatha that stood reserve for the Bridon Shield in 1907, besides winning many other first prizes; Lord Guthrie that as a 3 year-old was first in his class, and champion at the Royal Northern Aberdeen, besides other winnings to his credit; Silver King that was 1st as a yearling, 2, 3, and 4-year-old at Dublin and Belfast.

Will be pleased to have you inspect my stock whether you buy or not.
