## Trade Notes

### GOURLAY PIANO OWNERS

Messrs. Gourlay, Winter & Leeming,  
of Toronto, request us to announce that  
they have completed arrangements  
with the Winnipeg Piano Company,  
295 Portage Avenue, for the sale of the  
Gourlay piano and Gourlay-Angelus  
piano in the city of Winnipeg and  
vicinity. In this connection they also  
announce that the Winnipeg Piano  
Company will be pleased to show  
friends of Gourlay piano purchasers  
every courtesy and to supply all their  
friends with specially selected Gourlay  
pianos.

At the present time the Winnipeg  
Piano Company are displaying in their  
warehouses a very choice assortment  
of Gourlay pianos, and they in common  
with the manufacturers would ask in-  
tending buyers to inspect these in-  
struments, together with the rest of  
their stock, before determining upon  
the purchase of any other piano or  
player piano.

### SCARCITY OF FARM LABOR

In recent years the glamor of the city  
has lured so many young men away  
from the farms that the question of se-  
curing sufficient capable help in the  
field has become a serious problem.

But thousands of industrious farmers  
who were handicapped by this condition  
have not only overcome the obstacle  
but actually turned it to their own ad-  
vantage. Realizing that something had  
to be done they abandoned their old  
style of farming and took to Planet  
Jr. farm and garden implements. The  
practical efficiency and the labor saving  
results from their use were a revelation  
to thousands of farmers all over the  
country. The outcome has been that  
many farmers who depended alto-  
gether on help have been able to work  
their farms alone, do quicker work and  
realize larger profits. Other farmers  
have extended their operations over  
acres that before the use of Planet Jr.  
implements seemed impossible. Planet  
Jr. tools are light, strong and lasting  
and are fully guaranteed. A farmer  
can actually save two-thirds of his  
time, prepare the ground far better and  
get greater results from their use.

Every farmer should have in his pos-  
session one of the Planet Jr. illustrated  
catalogues. It is as essential as an al-  
manac and will be sent on request by  
S. L. Allen & Company, Box 1109B,  
Philadelphia, Pa., makers.

## Questions & Answers

General  
Questions of general interest to farmers are  
answered through our columns without charge  
to bona-fide subscribers. Details must be clearly  
stated as briefly as possible, only one side of  
the paper being written on. Full name and ad-  
dress of the enquirer must accompany each query  
as an evidence of good faith but not necessarily  
or publication. When a reply is required by  
mail one dollar (\$1.00) must be enclosed.

### MAMMOTH RED CLOVER

I have grown Mammoth Red Clover  
in the Old Country. Is it likely to  
succeed here, and how had I better  
sow it?—R. H., Stonewall, Man.

Ans.—Mammoth Red Clover, or cow  
grass, is a larger and coarser plant than  
the Common Red variety and is more  
perennial in its habit, but it does not  
usually yield as much aftermath or  
second cutting. There are some good  
fields of it near Selkirk, and it should  
succeed with you, if properly handled.  
My usual practice has been to plow  
stubble in late May, harrow once and  
sow the clover seed broadcast by hand,  
at the rate of about twelve or fifteen  
pounds of seed per acre. Then harrow  
a second time and cut all weeds and  
volunteer crop the first summer. This  
plan gives a very strong stand by fall  
and there is no danger whatever from  
winter killing if cattle are kept off it  
late in fall. Another plan is to sow  
with a very light crop of grain, say  
half a bushel of barley per acre, and  
cut and remove the grain as soon as it  
comes to head.

With this plan the clover is not so  
well rooted and sometimes kills out,  
but of course a crop of barley is secured.

M.A.C. S. A. BEDFORD.
