LONDON, Dec. 23.—Wm. Hohenzollern has arranged for himself a Christmas celebration after the traditional German style as far as circumstances will permit, according to a despatch to The Daily Express from Amsterdam today, the arrangements by the emperor will include elaborate religious ceremonies on Christmas eve. The idea of using the village chapel for these however has proved impractical, for various reasons, one being fear of popular hostile demonstrations. The services accordingly will be held in the drawing room of Amerongen Castle. The emperor desired to have his court chaplain, Dr. Ernest Von Dreyer, come from Berlin to preach the sermon at the Christmas eve ceremony, but the Berlin Government, says the despatch, has refused permission for the chaplain to go to Holland. The service consequently will be conducted by a German missionary from Zelstner, Amerongen, but Herr Hohenzollern himself will deliver sermon.

Dr. J. F. Dolan Passes Away

Well Known Physician Answers the Last Call After Illness of Two Days

Regret was expressed on all sides when it was known that Dr. James Francis Dolan had passed away early last evening at his Victoria Avenue residence after an illness of two days from uremia. Only on Friday last was he taken ill. Soon it was realized that his case was a very serious one. On Saturday evening after a consultation of doctors, it was decided that he was not to be worked like all doctors during the past three months and was himself ill for a time with influenza. As soon as he was able to get up, his practice and helped in the great work of attending the sick.

The late Dr. Dolan was one of the most popular physicians and surgeons Belleville has ever known. He enjoyed a very large practice among all classes and creeds, and he was eminently successful.

James Francis Dolan, M.D., was the eldest son of Mr. and Mrs. Francis Dolan in 1843, being 50 years of age. He was educated in the separate school here and passed his entrance at the age of eleven years. After he had completed his high school career, he was not old enough to enter college, he spent a year as bookkeeper for his father in the contracting business. He entered Trinity College, Toronto, at the age of 21 years. He was too young to take his Medical Council Examinations, he spent a year in Bay City, Michigan, studying. During his school he practiced for six months in Trenton and then came to Belleville. For nearly thirty years he practiced here. His career in the medical school was a very brilliant one and this was followed by success as a medical practitioner.

Dr. Dolan was a member of St. Michael's Roman Catholic Church, was Past Grand, Knight of Belleville Council, Knights of Columbus, a Past District Knight of the K. of C. and a member of the Order of Foresters.

The surviving members of the family are his widow, his parents, his brothers, Dr. J. F. Dolan and three sisters, Mrs. E. J. Dolan, Mrs. J. C. Dolan, Mrs. M. Dolan and Miss Elizabeth of this city. To them will be extended the sympathy of all classes in their bereavement.

The late doctor will be missed by his medical associates in Belleville and by his large clientele. He was the type of the successful physician, general, courteous, painstaking, self-sacrificing and intuitive in his diagnosis of maladies. As a citizen, he fulfilled his duty in serving the public and will long be remembered for his gentlemanly qualities.

Liquor Concealed in Barrels of Tar

Wholesale Bootlegging Plan Between Ohio and Georgia

Cincinnati, Dec. 23.—According to Government agents, who sealed up a cellar here, which they claimed contains a large amount of contraband liquor, a wholesale bootlegging establishment, has been revealed. With the arrest of David Shaw of Macon, Ga., the Government also claim that they have put a stop to the shipping of \$20,000 worth of whiskey a month into Georgia.

The manner in which the liquor was shipped, according to the Government men, was in the form of barrels of tar. A three-inch layer of tar was put in the bottom of the barrel, upon a quantity of bottled whiskey was put, the bottles wrapped in wax paper to prevent sticking.

The tar was poured in on these and the process repeated. The barrel was filled with the three inches of tar on the top.

Then the barrel was sealed and shipped to destination, where the whiskey was removed.

Have Merry Holiday on-English Leave

Eight Days For Our Troops Still Over There.

London, Dec. 23.—Christmas amongst the Canadians in England will be a happy time all round and eight days leave with free railway warrant being granted the troops in camps here, only this arrangement is not allowed to interfere with the return of any man to Canada. A good many who have been longing to get back sometimes show now an unwillingness to undertake the journey, complaining they have not had the chance of seeing England or their relatives here. However, those whose passage is arranged already must sail forthwith.

Sixteen hundred Canadian prisoners have now reached England and have been dealt with at Dover and Rippon. This makes about half the total number of Canadians awaiting repatriation.

Three shiploads of Canadians will spend Christmas day on the water returning home. These vessels leave Monday.

London is terribly overcrowded, but it is unlikely there will be any Canadians, either officers or men, unable to find proper accommodation. During the last few weeks better facilities have been inaugurated for dealing with soldiers on leave.

The American societies, for instance, have put all their hotels at the disposal of the Canadians. The Beyond Seas Association is giving a mammoth entertainment and dance at Albert Hall on Christmas day for overseas officers, the guests numbering two thousand.

Leave Shortly to Take up the Wheat Question

In an endeavor to ascertain what steps will be taken to protect the interests of the Canadian wheat-raising industry, a deputation of prominent representatives of this important business will leave in a few days for the Old Country, where they will confer with members of the Cabinet now overseas and with the Imperial authorities. The members of the deputation are: Dr. R. Magill, chairman of the Board of Grain Supervisors; George Fisher, member of the Winnipeg Grain Exchange; J. A. McEwen, M.P., president of the Saskatchewan Elevator Company, and Norman Lambert, secretary of the Council of Agriculture.

Dr. Magill and Fisher are now in the city, stopping at the Chateau Laurier, and will be joined here by the other two members of the deputation, then proceeding overseas. They expect to leave in the course of a few days.

The price of Canadian wheat is now fixed on the basis of \$2.24 1/2

Certainly! Quite Correct!

MANY PEOPLE ARE OF THE SAME OPINION

"Well! Sir! you certainly hit the nail on the head when you call this 'The Busy Boot Shop'—thus spoke a gentleman in Gorman's Boot Shop on Saturday. And it was busy very—very busy—records were broken. More people than ever before will be wearing Gorman's Boots and Slippers this Christmas. Thank you.

All Overseas Premiers Can't be at Conference

Toronto, Dec. 23.—In a special cable to the Globe from London, Wm. Bennett, Jr., says: "The Paris session of all the Dominion Premiers will sit in the main conference is regarded here as the merest speculation. It is generally held in diplomatic circles here that this is impossible, and there is reason to believe that the British Empire and the United States will each four, or at the most five representatives.

As Premier Lloyd George, Mr. Balfour, and Lord Robert Cecil or Mr. Barnes are regarded as fixtures in the British delegation. It is believed that the Dominion can be represented by only one overseas statesman at the most. He will probably be in constant consultation with the outside council of overseas representatives.

"It is even conceivable that the overseas representatives might be changed from time to time as the problems of each Dominion arise for adjustment."

For a period of four months this man averaged \$220 every working day, Mr. Cram said. The die cutter, according to Mr. Cram, was given a new machine to work with which it made him possible to increase his output greatly, while the piece-work basis upon which he was paid remained unchanged for the period of his record wages.
