BOYS' CLOTHING.

We're in the Boys' Clothing business and hope to get a share of your custom. Many people think that all boys are alike, that all the clothing is alike—but they don't buy diamonds that way, nor even eye-glasses or celery.

Those who know our clothing know we've got what's right—right in style, right in price.

The clothing is for sale. We want your money—you want clothing—a mutually profitable agreement.

LYN WOOLEN MILLS

The cut at the head of this article was made specially for the Reporter, from a photo taken by our special artist.

goods from pure wool, not a particle of shoddy or waste being used since he commenced to run the woolen mill.

As the shoddy goods feel softer and look nicer than cloth from pure Canadian wool, Mr. Walker has had an uphill job, but the tide is turning and the people are beginning to look for such goods.

Mr. Walker is in better shape than ever this season to give the public good yarn and cloth, as he has overhauled all the machinery during the past winter and is now running in fine style.

The woolen trade has been very much depressed for some years, although highly protected. In the old times of 15 per cent tariff all the local woolen mills were making money, but under 35 per cent to 50 per cent protection scarcely a manufacturer in this country had had to fall or cut down his production.

When our Canadian demand was filled under a highly protected tariff the surplus wool was sent to any other country except at a loss.

We expect to have a fine two column out of the Lyn Roller Mills for the Reporter in a couple of weeks, and possibly of some other of the manufacturers and business places in that has been somewhat scarce of late.

THE IDLE WHILE

The above cut is a fair representation of the new steamer Idle White, purchased last winter by H. C. Phillips and A. Armstrong, from C. Haskins, Phillipsville.

The Idle White arrived on Friday afternoon and workmen were soon engaged placing it in position and making the connections with the engine, which has been thoroughly overhauled and placed in first-class condition.

The boiler, which is 10 inches longer than the old one, was tested to 800 lb. cold water pressure before leaving the shops, and is made of the best rolled steel, half-inch thick.

Nothing that fine and modern could accomplish has been omitted to make the Idle White one of the safest, fastest and most comfortable steam yachts on our rivers and lakes.

This afternoon as we go to press the steamer is being drawn down to Kingston and will be launched and made ready to convey excursion parties from Charleston, and Cedar Park to any part of the lake to-morrow (24th).

At once, as he sees more county news in it than in all the other papers combined.

The fox mare made a through trip on Sunday night. That was all (Wright).

The ex-barber has been dealing very extensively in first-class horses and good cattle.

Bert Bullard is recovering from a severe attack of sore throat. Charley is carefully looking after the welfare of the widows.

Moses is still fighting the spirits, and everybody in this section is now willing to take 16 ounces to the lb.

There was plenty of why now so that the widows can raise their hogs without cows.

Sam is feasting on suckers, so they say, and he has no time to look after the bass. He need not be afraid to fish the creek now. The suckers season is over.

The Rev. R. C. Horner delivered one of his characteristic sermons in the Methodist church on Monday evening, 16th inst.

He dealt chiefly with the literature and other reading matter of the day. He gave some well-deserved criticisms on some of the trashy novels, etc., scattered throughout the country.

He also, unnecessarily, found great fault with the newspapers in general, and especially the address part of them.

At the close of the meeting he introduced a paper of which he is one of the two editors. He guaranteed that those who subscribed for it would not be paying their money for advertisements.

It is reported that the bass down the lake have already commenced biting, and we suppose this will be one of the many attractions to take a large number out to spend the 24th.

FRONT OF YONGE. MONDAY, May 16.—We are glad to see that our old friend, Mr. Hillis, of Athens, has again moved to Caintown at which place he will occupy his time as a gentleman farmer.

Arbor Day was observed in the Caintown school grounds by your humble servant, but instead of planting trees in the yard, a large one was removed, which had laid there for over a year. Who was to blame for this state of affairs?

The farmers in this locality have nearly all done seeding and the grain is well above ground, and in a healthy condition.

A large area for fodder corn will be sown this season.

The Rev. Mr. Service filled the pulpit in the Methodist church on last Sabbath, while 200 of the Presbyterian church was filled by the Rev. J. J. Wright. Both were held at the same hour and same place, namely: Caintown.
