### A POPULAR BILL.

There has been possibly no legislation brought in by the Provincial Parliament which has met with such hearty and universal favor and approval as the Educational Bill. At the recent meeting of the Ontario Educational Association this fact was clearly demonstrated.

There are possibly no men who understand the needs of the rural schools as do the Inspectors. They, of necessity, know the conditions thoroughly and when these men join in the general voice of approval, it would seem that Hon. Mr. Pyne has struck the right chord. In addressing the Inspectors Hon. Mr. Pyne was given a hearty and welcome reception. In his address he declared that the Government is anxious to view the Inspectors as the watchmen on the tower of Provincial education. Shortly thereafter it became Dr. Pyne's turn to doff his bonnet and bow.

"What can the Ontario Government do for rural schools?" was the problem up for discussion. "They have already done it all," declared Inspector W. H. Stevens, of Lindsay.

"The new bill fills the bill exactly," observed Inspector Campbell, of South Grey.

"Such unanimity of commendation is so unique," remarked Inspector Smith, of Wentworth, "that we should put ourselves upon record." "The best piece of educational legislation ever produced," was the comment of Chairman W. H. G. Cies, of East Kent.

A resolution was thereupon unanimously passed expressing the pleasure and congratulations of the association of the earnest and successful efforts of the Government to elevate the status of the rural schools. The resolution was handed to the Minister, who said he would take pleasure in placing it before his colleagues.

### "A REMARKABLE SESSION."

The Toronto News (Independent) in a recent editorial gives a very fair and comprehensive summing up of the work of the present session of the Ontario Legislature. The article deals with the excellent character of the various bills which have been passed, and speaks in glowing terms of the principles by which the Whitney Government is guided. The following is quoted as a portion of the article:

"In the amount and quality of the legislation which is now before the Provincial Parliament we have no parallel since Confederation. It seems certain that when the session is over the Government will have placed upon the Provincial statute books more sound, useful, and progressive legislation than has marked any session for a third of a century. Indeed, the work in this session will bulk almost equal to that of any previous Parliament. Nor has there been any particular hibernation of the Government's performances. It has proceeded upon the conviction that conditions in the Province required the adoption of certain great measures of reform, and it has not stopped to calculate the political results of a simple performance of duty.

"There has been no such fruitful session since Confederation, and surely the notion that the administration of Provincial affairs could not be safely entrusted to the Conservative party has been forever dispelled. The truth is that the Liberal politicians had bargained away their freedom to various entrenched partisan and corporate interests and had exhausted their capacity to give popular and progressive legislation. It was a pity that the change of Government was so long delayed, and a blessing to the Province that at last there was a change, and a change emphasized by a decisive popular majority. Surely in this country we have never heard the last of the wretched argument that it is necessary to the country's moral and material interests that some particular party should hold office forever and that men are guilty of a sort of blasphemous treason when they dare to make the public interest

the prime consideration, and to vote out of office politicians who have surrendered their liberty of action and exhausted their power to serve the country."

### SAME FLAVOR.

How much are strawberries? One dollar a box. Then give me some good sour pickles—they cost less and taste about the same.

### A DIFFERENCE IN LUNGS.

In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white. In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate gray, as are the lungs of most city residents. That's why consumption thrives in cities.

One reason why Scott's Emulsion does so much to keep down consumption is because it helps to keep the lungs clean and supplies them with rich, red blood. It makes the lungs germ-resisting. If the body is run down and health is at a low ebb Scott's Emulsion will build it up quickly and permanently.

SCOTT &amp; BOWNE, Toronto, Ont.

## THE STAGE

### ANNOUNCEMENTS.

At the Grand—  
Joseph Murphy in Kerry Gow—April 23.

Way Down East—May 2.  
Richard & Pringle's Minstrels—May 8.  
The Holy City—May 14.  
The Tenderfoot—May 16.

(Supplied to The Planet by Press Agents.)

### JOSEPH MURPHY'S

Famous Play "Kerry Gow" With Allen Doone and a Strong Cast! Joseph Murphy, the famous Irish comedian, presents Allen Doone as his successor in his famous Irish play "Kerry Gow," at the Grand to-night.

Allen Doone's portrayal of Dan O'Hara, in "Kerry Gow," is an artistic creation, and one that this accomplished comedian has built up little to the point of perfect symmetry. Mr. Doone is the central figure in "Kerry Gow." He has a fine appearance, a sweet tenor voice and sings with a richness in a manner that delights his hearers. He impersonates the true Irishman, using the Celtic wit to perfection.

Mr. Allen Doone will be seen here to-night in the role of Dan O'Hara, warm-hearted, kindly, blacksmith, and we are told that he gives to the part an artistic and truthful conception.

### ADELAIDE THURSTON IN "THE TRIUMPH OF BETTY."

To-morrow night that sweet little actress, Adelaide Thurston, with a most creditable company of supporting players, will be received into the midst of the lovers of the drama in Chatham.

The name of Adelaide Thurston is as well known to the theatre-goers of Canada as the name of Richard Mansfield and Sarah Bernhardt, and it is doubtful if the Chatham theatre-goers would be more anxious to see the two last named stars than the dainty little actress mentioned. It is true that the name of Adelaide Thurston had scarcely been heard of in Canada until her appearance here four seasons ago in "The Little Minister." On that occasion a small audience greeted her, but so finished was the work of this young woman that the small audience grew more enthusiastic over the performance than in the case of many more pretentious organizations and when this dainty comedienne returned to Canada for another engagement she was greeted with an ovation and social reception held in her honor.

Miss Thurston is said to be delighted with her new role, which is said to be better suited to her manner and capabilities than any she has ever appeared in. The petite "star" is provided with a very elaborate production and a company of the first class order of excellence.

### THE YANKEE CONSUL.

John P. Stocum, manager of "The Yankee Consul" Company, has not, like some impressarios, permitted his cast to deteriorate merely because he is taking the famous organization on a transcontinental tour. The company which will be seen here on Saturday, April 28th, contains such names as Vera Michelena, Harry Short, Alice Hosmer, Miss Botti, Bonnie Weiden, James E. Ratiff, Geo. Shields, Harry Davies, L. R. Lefebvre, Margaret Flavin, James Templeton and Olga Kalng, a list that gives an absolute guarantee of a splendid performance. Regarding the merits of the piece itself, there can be no doubt, for it has been passed upon by the critics and public of New York, Chicago, Philadelphia, Boston and San Francisco and voted the best musical comedy of the past decade.

## DISTRICT

### DRESDEN

Ed. H. Brennan, formerly foreman of the Times, leaves to-day for a visit to Montreal and Eastern Ontario towns.

### BLENHEIM

April 21.—On Thursday evening William, son of Daniel Fraser, met with a bad accident whilst driving home. His spirited team became frightened at some object in the road and got beyond his control. He managed to run them in to the office of the Canada Flour Mill. The tongue was driven into the wall and smashed, William was thrown between the horses and under their feet. He was badly trampled on and kicked. Assistance was soon at hand and the insensible lad was carried home, medical aid being procured. The latest reports are that he is progressing as favorably as could be expected.

Mrs. F. W. Davidson and daughter, of Sarnia, who have been visiting Mrs. T. W. Pearson, returned home on Thursday.

Misses Marion Steward and Mildred Beemer spent Thursday at Taylor. On Wednesday last at the residence of the bride's parents, Mr. and Mrs. Sturk, their daughter, Rose, was united in marriage to Mr. Fred Toie, son of E. B. Toie, Communication Road South.

The front street is being put into good shape, the town scraper leveling the road.

The funeral of John Watlin took place at the residence of Mr. Wm. Watlin, his brother, with whom the deceased has been living for some time. Heart failure was the cause of death. The service was conducted by Mr. T. B. Shillington.

Mrs. E. Hagerman, of Detroit, is visiting relatives in town.

The last of the series of assemblies given by the Terpiashore Club was like the former dances—a decided success. The crowd was not quite as large as usual. Finney's orchestra, of Detroit, was in attendance.

Miss Maude Henderson, who has been attending Westminster College, Toronto, is at home for the present.

Orlow Coburn has returned from Independence, Miss., where he was present at the L. D. S. convention.

Mrs. Peter Early has received word of the serious illness of her sister, Mrs. T. Roden, Toronto.

### TILBURY

April 23.—Carlyle Wellwood, of Detroit, spent Sunday with his parents here.

Public and Separate schools reopened to-day.

Mrs. Hugh Johnston returned yesterday from Toronto, where she has been attending the funeral of her sister, Miss Frank Kelly.

H. S. Shaw, of Detroit, spent Sunday at his home here.

Born, on Saturday, 21st inst., to the wife of John Jones, a son.

Theodore George, of Detroit, was the guest of Mr. and Mrs. S. Mather, a few days last week.

Miss Helen Young, of the Public school staff, returned on Saturday from her home in Sarnia, where she spent the Easter vacation.

Miss Georgia Marshall, of Merlin, was the guest of her aunt, Mrs. W. A. Shaw, on Sunday.

Miss Hobson, of Comber, is the guest of the Misses Stewart, Carlyle avenue.

## Ulcer of the Stomach

Insidious Nature of the Disease—How to Recognize and Cure It.

Ulcer of the stomach may exist for years without very marked symptoms, excepting those caused by indigestion.

In good health, the stomach resists the action of the gastric juices, but when weakened, the membrane is badly nourished and the digestive fluids act upon it as well as upon the food, keeping up until perforation of the stomach occurs. In advanced cases of ulcer of the stomach there is much discomfort after eating, with a constant gnawing sensation between meals, pain from the pit of the stomach back to the shoulder blade.

At the first symptoms of indigestion, treatment should at once be accorded with Mi-on-a. This is a scientific remedy adapted specifically to one purpose, the cure of stomach troubles.

Mi-on-a is not a patent or secret remedy, but is a combination of the purest and most reliable of remedies for strengthening the digestive organs and building up the whole system. It costs but 50c a box. Use it for a few days and there is no reason why you should not be able to eat any food you like at any time without fear or distress.

If you cannot get Mi-on-a of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

Wit that wounds is the cruel surgery of speech.

W. E. Rispin, general ticket agent, 115 King street, is selling cheap tickets to all points in the West and Northwest. Intending passengers should call and get full information and rates before purchasing tickets. Also special excursion tickets to California.

## The Best Dress Goods Stock We Have Ever Shown...

That tells the story in a nutshell. It means that you may select the material for that new suit or gown and get the correct thing in any one of a hundred different weaves and materials.

It's a stock that you will rarely find equalled in a city of this size, but the size and growth of our Dress Goods Business warrants unusual efforts.

And the prices, too, are pleasing, our seven-store buying direct from the largest makers brings the prices down to the lowest possible point—much lower than is possible for ordinary stores to quote. For instance:—

New Tweed Suiting at a yard from 50c. to \$1.50.  
New Plain Mohairs, black and colors, at a yard 25c. to \$1.00.  
New Fancy Mohairs, very pretty effects in all colors at a yard 25c. to \$1.00.  
New Granite Suitings, 46 in. wide, pure wool, 8 colorings, at a yard 60c.  
New Wool Taffetas, 42 to 46 in. wide, 8 colors, at a yard 50c and 75c.  
New Fancy Armures, fine pure wool, 44 in. wide, special a yard, 60c.  
Melange Suitings, rich mohair effects, plain and fancy weaves, 44 to 52 in. wide, at a yard 50c. to 75c.  
New Pleated Dress Goods, 42 in. wide, full range colors, steam pleated, at a yard, 50c.  
Biaritz Suitings, fine reversible pure wools, 44 in. wide, black and colors, at a yard, \$1.25.  
French Venetians, fine pure wool, chiffon finish, black and colors, at a yard, 50c., 75c., and \$1.00.

Shepherd Checks in pure wools and mohairs, 42 to 56 in. wide, at a yard 25c, 50c, 75c. and \$1.00.  
Shower-Proof Cravenettes, 60 in. wide, in wide range of colors, warranted pure wool and shower-proof, at a yard \$1 up to \$2.00.  
Broadcloths—French and English makes, 52 to 56 in. wide, superior finish, black and colors, at a yard \$1.25 to \$2.00.  
Nun's Cloth, fine pure wool, 42 in. to 44 in. wide, in range of colors, at a yard, 30c, 40c, 50c.  
Serges, fine pure wools, assorted twills, in black, cream, navy, etc., at a yard 25c. to \$1.00.  
FREE OF CHARGE—We shrink all Dress Goods we sell at 50c. a yard and upwards, free of charge.  
DRESS MAKING—If you want your new dress correctly and satisfactorily made, consult Miss Leak at our Dress Making Parlors, 2nd Floor.

British Admiralty to Spend Large Sum For Purpose of Experiments.

An insurance policy which is likely to amount to £10,000,000 will be taken out by the Admiralty in connection with the forthcoming world-wide naval maneuvers, to cover the risk involved in the co-operation of merchant ships with the navy.

The exact amount to be covered will not be definitely fixed until it is known how many merchant ships are to take part, says the "Evening Standard and St. James' Gazette," but it will be between £7,000,000 and £12,000,000.

It is at present estimated that about 250 ships will co-operate, and on that basis the policy will be for £10,000,000. Inquiries are now being made in connection with the premium.

The Admiralty has undertaken to make good any losses the merchant ships may incur, and to pay compensation for delay at the rate of 1d. a ton per day.

Papers which shipowners whose vessels are likely to be in the vicinity of the scene of operations during the test are to be invited to fill up will be issued shortly.

The Admiralty has been greatly assisted in making the arrangements by a small committee composed of shipowners and representatives of marine insurance companies.

Worm Fishing For Brook Trout. Have small hooks, and have the barb sharp as a needle; fine tackle without badly tied knots; the worms carefully placed around the hook, always alive and kicking; and, most important of all, constant watchfulness and alertness at the half second a fish takes the bait, and then firm, delicate handling to guide him to the net. Keep out of sight as much as possible; wade along without splashing and floundering about.

Worm fishing is the simplest, most primitive method of trout fishing; anybody can fill his creel with nice fish if he uses a little thought and care. Trout are so timid, yet such bold biters and brave fighters, that many fish are lost through bungling methods and poor tackle. Many more fish are not taken because the angler shows too much of his many form.

Personally, in these later years, I rarely use the worm, finding much greater pleasure in casting the fly, and it is certainly just as effective. But there are times when worms are absolutely necessary—Outing.

INSURE MERCHANT SHIPS.
