**Brookville Council Will Submit By-** law to Ratepayers.

**Brookville, Ont., Oct. 20.—** License reduction will be the paramount question at the next municipal election in Brookville. The Town Council has acceded to the wish of the Ministerial Association, supported by a largely signed petition, to submit a by-law to the ratepayers, providing for the abolition of three hotel licenses, making six instead of nine. If the by-law is carried the town stands to lose \$850 in fees, and to meet this deficiency it is proposed to impose a higher license on the remaining six, sufficient to make up that amount. The matter rests in the hands of a committee to report at the next meeting. It is more than likely that reduction and higher license will be embodied in one by-law.

**How a Moose Eats.**

Of all peculiar sights I think that that of a moose eating grass is the most extraordinary. The neck is so short and the legs are so long that the animal usually kneels in eating grass. True, they do not attempt it very often, for grass is by no means a staple with them; but even a moose likes a change of diet. The appearance of these huge and awkward creatures in this devotional attitude is not only interesting, but laughable.—From "Nature and Science" in November St. Nicholas.

## ARMS SEALED UP.

Canadian Schooners Held Up in Behring Sea.

Victoria, B. C., Oct. 20.—The sealing schooner Pescawha, second of this year's northern fleet to return is back from the other grounds off Alaska, Behring Sea and Copper Island sealing grounds with 878 sealskins for the season and two sea otter.

Capt. Balcom and the crew are preparing a claim to be made to Washington for alleged illegal sealing-up of the firearms of the vessel by the United States protective steamer Bear, which ended the sea otter hunting. It is pointed out that there is nothing in the regulations following the Paris award of 1893 in respect to sealing up firearms, the agreement between Great Britain and America in 1894 in this regard being for one year only.

The Bear sealed the arms of the Pescawha, Jessie and Thomas F. Bayard under threat of seizure if the seals were broken. The Pescawha was 133 miles from Chelikoff when overhauled, searched thoroughly for sealskins, without result, and her arms sealed up.

The Eva Marie is following with 403 skins and two otters; Thomas F. Bayard, 871 skins and eight sea otter, and Vera R., 680 skins. This comprises all the fleet other than the Jessie, previously returned.
