

ALL OVER BOUNDARY

No. 7 Has Tapped a Good Ore Body
130 Feet Down.

CROWN SILVER SUNSET

Reported Sold to a Montreal Syndicate
For \$16,000—Handy Smelter For
the Winnipeg Mine—Boundary Falls
Placers—Ore Assays Well.BOUNDARY FALLS, B. C., October 27.—
(Special Correspondence).—At Central
camp the crosscut in the drift at the
130-foot level on Number Seven has dis-
closed a fine looking body of ore which
has all the appearance of being a per-
manent vein. The assays of the ore,
though not definitely known are gener-
ally supposed to indicate that an ore
body has been struck of such value as to
make it one of the leading mines of the
district.Rumor has it that the Crown Silver
and Sunset claims in Deadwood camp
are to be sold to a Montreal company
for \$16,000 and work is shortly to be
begun on them. The claims lie alongside
of the Mother Lode which was bonded
last spring by Col. John Weir and on
which work has been rapidly progress-
ing, and the promising prospect of this
claim undoubtedly enhanced the value
of Deadwood property in the eyes of
capitalists.Messrs. McFlynn and Schofield have
just completed assessment work on the
Primrose Fraction lying to the south of
the Mother Lode and now they think
they are mine owners. Fine looking
specimens have been taken from the
open crosscuts and at depth will probab-
ly bear out the owners' wishes in assay
values and smelter returns.A one ton "Handy smelter" has arrived
at Marcus destined to the Winnipeg in
Wellington camp. Mr. W. W. Gibbs,
assayer of Anacostia is to take charge of
this plant while on trial and the result
of the experiment is looked forward to
with great interest by prospectors and
citizens of Boundary Creek.Mr. Hanrahan's placer claim on
Boundary creek near Boundary Falls
has proven so satisfactory that now that
stake boxes are in place, work has begun
on cabins for winter quarters. Work
will begin shortly clearing for bedrock.
Mr. Hanrahan is the fortunate man to
discover the location of the placer gold
of Boundary creek which has been
prospected for many times in the past
six years.The Oro claim in Central camp has a
shaft recently sunk upon it to a depth of
12 feet. At the bottom of the shaft a
fine body of ore was disclosed and two
feet of the ledge gives an average assay
of \$10 gold and 18 per cent. copper. The
owner, Mr. John Douglas, intends short-
ly to put on a force of men to work this
claim during the winter and we prophe-
sies the development of an immensely
rich mine, as the characteristic of this
country is to increase rapidly as depth is
attained.Mr. Douglas located the Crown Point
on the west fork of Kettle river in June
this year. It looked on top to be a
strictly silver proposition running as
high as \$5 ounces to the ton. As depth
is attained the silver is decreasing and
in its place comes in \$10 gold, 8 per
cent copper, with about one half of the
original amount of silver.Messrs. Atwood and Waite, partners
of Mr. Douglas have two extensions of
this property having the same vein and
character of ore with similar value.

BOUNDARY DISTRICT NEWS.

Midway Advance: The Knob Hill
claim in Greenwood camp has been
bonded to P. P. Buck and others of
Sherbrooke, P. Q. for \$30,000, 10 per
cent. cash and the balance in two equal
instalments in six and nine months.
The owners of the claim are Henry
White, J. O. Lundy, John Stevens and
M. W. Palmerston. The Knob Hill ad-
joins the Old Ironsides, and was located
in July, 1891 by Henry White.The owners of the Lincoln and City of
Paris in White's camp have bonded the
claims to California capitalists for \$35,000.
They are adjoining claims. The Lincoln
was located in August, 1891, by Henry
White and the City of Paris by Mat
Hotter in the same month and year.Grand Forks Miner: During the past
week several Grand Forks business men
who are in a position to know state that
the Spokane & Northern company is
making preparations to start at once on
the branch from Marcus to Grand Forks.
For the past season a force of men has
been employed on the wagon road be-
tween here and Marcus, grading it down
to about a four per cent. grade in several
of the most difficult places. Upon this
right of way D. C. Corbin proposes to
build a narrow gauge route, and we are
informed that he already has the rolling
stock in his possession to put on the line
as soon as the road-bed is completed to
the boundary line.The grade is an easy one, with the
exception of a few hills, and the expense
is nominal outside of one or two bridges
and the span across the Columbia river
at Marcus. The work of grading is
practically done and there is an endless
supply of timber along the route for ties,
thus placing them in a position to build
the road, a distance of 45 miles, in less
than six months and take their time to
the work.When completed to Grand Forks this
will remain the terminus for some time
to come, or until necessity demands its
extension up the North Fork into the
Boundary Creek country.

LETTERS TO THE EDITOR.

Treasury Stock.
POSTORIA, Ohio, October 21.—
Editor ROSSLAND MINER: Sir:—Please
answer in the columns of THE MINER
the following questions:Is treasury stock the same as regular
stock and is it part of the capital stock?
Do treasury stockholders have the
same privileges as regular stockholders?
To your knowledge has there been any
work done lately on the Consolation
mine situated near the Deer Park
mine?I have not seen any articles in THE
MINER during the short time I have been

a subscriber regarding this mine.

Yours respectfully,
W. L. SAUS.Treasury stock is usually ordinary
capital stock donated by the shareholders
to provide a fund with which to de-
velop the company's property. In some
corporations there is a portion of the
capital stock held in reserve. This is
treasury stock proper. In all but one or
two companies operating in Trail Creek
there is none of this kind of treasury
stock. The whole capital stock is sub-
scribed and issued at the time of organ-
ization and afterwards an agreed per-
centage of it is donated by each sub-
scriber to the company's treasury to ob-
viate the necessity of shareholders as-
sessing themselves for funds to develop
the property. It is usually non-assess-
able. Its holders have the same privi-
leges as owners of any other stock in the
company. As far as we know work has
been suspended for a month on the Con-
solation. A letter to W. A. Ritchie,
manager of the company, would obtain
for our correspondent full information
respecting this claim.

The Little Bess.

BROCKVILLE, Ont., Oct. 21.
EDITOR MINER:—Sir: In an issue of
an eastern paper I notice the prospectus
of the Little Bess Gold Mining company,
capital \$2,000,000. Will you kindly give
me your candid opinion of it in THE
MINER and oblige. Sincerely,
[We have never heard of it.]

Co., Limited.Incorporated Under the Laws of the Province of
British Columbia.

OFFICERS.

E. H. WEDEKIND, Trail, B. C., President.
J. W. HASKINS, Revelstoke, Vice-President and Manager.
F. C. WHITNEY, Revelstoke, Secretary-Treasurer.
H. C. BELLINGER, Trail, Director.Capital Stock 700,000 Shares. Par Value, \$1 each.
FULLY PAID AND NON-ASSESSABLE.Treasury Stock 200,000 Shares.
TO BE SOLD FOR DEVELOPMENT PURPOSES ONLY.The Orphan Boy mineral claim is situated about five miles from Gold Stream
up McQuiloch Creek on the West Fork, or commonly known as Barrett Creek,
and about 65 miles north from Revelstoke, B. C., in the country known as the
Big Bend of the Columbia River.The company will push the development of the Orphan Boy with all possible
dispatch. The Orphan Boy being a free milling and Cyanide property it does
away with all expense of shipping ore to be treated or smelted outside. The sur-
face showings being of such a high grade, guarantee excellent results and steadily
increasing stock values as development progresses.Four assays from surface returns were respectively \$6.50, \$10.00, \$72.00 and
\$140.00. A mill test recently made shows \$39.20.A limited number of Treasury Shares will be disposed of at 10 cents per share
for first cash requirements, subject to advance without notice.For Prospectus and Engineer's Report apply to Secretary-Treasurer or Manager
at Revelstoke or

Barrett, Newell & McDonald, Rossland, B. C.
