### Japanese War Statistics Published

Suppressed Statistics Come to Public Knowledge via Berlin.

Berlin, August 24.—Surgeon General Dr. Aklyama, a professor at the Army Medical Academy in Tokio, who is now in Berlin, has given to the Militar Wochenblatt the tables of Japanese casualties in the Russo-Japanese War, which were drawn up by Dr. Mori, but suppressed by the Government.

The first table gives the number of killed and wounded in the seven important engagements and battles of the war. In the battle of Kintechu, which lasted two days, there were killed 35 officers and 663 men, and wounded 111 officers and 3,550 men. In the battle of Wafanku, which lasted two days, there were killed 8 officers and 292 men, and wounded 44 officers and 892 men. In the battle of Toshi-kiu, which lasted three days, there were killed 13 officers and 182 men, and wounded 51 officers and 913 men. The names of the remaining

four battles are not given. In battle No. 4, which lasted twelve days, there were killed 222 officers and 3,355 men, and wounded 608 officers and 17,529 men. In battle No. 5, which lasted thirteen days, there were killed 179 officers and 3,917 men, and wounded 605 officers and 15,873 men. In battle No. 6, which lasted 5 days, there were killed 80 officers and 1,754 men, and wounded 249 officers and 7,023 men. In battle No. 7 there were killed 554 officers and 15,850 men, and wounded 1,799 officers and 51,856 men. A second table gives the number of killed and drowned in the most important engagements before Port Arthur. In the engagement of July 26 to July 31, there were killed 24 officers and 667 men, and wounded 119 officers and 3,278 men. In the engagement of August 19 to August 24 there were killed 186 officers and 3,800 men and wounded 386 officers and 11,404 men. In the engagement of September 19 to September 22 there were killed 49 officers and 874 men, and wounded 130 officers and 3,780 men. In the engagement of November 26 to December 6 there were killed 294 officers and 4,834 men, and wounded 430 officers and 11,299 men.

### Blown Up and Killed by Dynamite.

QUEBEC, Sept. 13.—Dr. Dube, a young physician from L'Islet county, is dead at the Hotel Dieu Hospital as a result of having been blown up in a dynamite explosion at his home yesterday. There were several sticks of dynamite in a barrel at the rear of his home, and a servant girl emptied some hot ashes on them not knowing what they were. Dr. Dube happened by when the explosion occurred. He was horribly mutilated.

VAGRANTS ARRESTED.—Two prisoners were arrested for vagrancy last night and taken to the lock up.

### Bonaventure Here.

The s.s. Bonaventure, Capt. C. Cross, arrived here from Port Elizabeth, N.J., at 2.30 p.m. yesterday with a full cargo of anthracite coal for A. J. Harvey & Co. The ship left there on Wednesday afternoon last and for three days had comparatively fine weather, but after that and until port was reached she had thick fog and a heavy sea with strong head winds until Cape Spear was passed and she got a glimpse of the land coming down the shore. The ship has been running since May month between Port Antonio, Jamaica, and New York in the fruit trade, carrying bananas mostly, her round trips being 14 days duration. On several occasions she carried passengers, who were delighted with the ship. She did good work all through the summer and was on schedule time every voyage. All the Newfoundland sailors remained on the ship but most of the crewmen quit a couple of months ago. The ship had mostly fine weather, except on her third last voyage, when she was two days caught in a hurricane, but proved herself to be a fine seaboat and came through without damage. Her charter would not expire until October 25th, but the fruit market being congested from shipments of new goods coming from the South and Western States, it was decided to abandon the trade earlier than usual. The captain and crew are well and are glad to be home once more.

### Harbor Grace Notes.

Much sympathy is expressed for Mr. and Mrs. Buckingham in the death of their son, Frederick, which took place here on Monday. Fred was a very bright little fellow and by his many ways he had endeared himself to all his acquaintances.

The hull of the wrecked schooner Rose May was sold yesterday for the benefit of the Insurance Co., and fetched the sum of \$9.00.

Miss Flossie Dwyer, eldest daughter of Constable Dwyer, leaves by tomorrow's train for St. John's where she enters the C. of E. College to train for a teacher. We wish her much success.

Partridge shooting commenced today and all our local sports are on the war path. The morning was very disagreeable, but the day later turned out fine.

On Friday last the 15th inst., we were shown some very fine specimens of native trout caught by Mr. W. Ward, Collector of Customs, in one of the ponds on the Heart's Content Road. One very pretty fish weighed 2½ lbs.

Mr. John G. Munn left by train and Ethie yesterday for the North. His mission is to appoint agents to purchase all the fish possible, for the Gorton Fish Co. We trust the enterprise will be profitable for all concerned, particularly our hardy fishermen, without whom there would be no fish merchants or agents.

A daughter was born to Mr. and Mrs. Jeremiah Hare on Wednesday last and another to Mr. and Mrs. P. Madigan on Sunday.

It is rumored we are soon to have another Wood Factory started here. Let us hope that such is the case, as the more factories and other business concerns started the more employment will come to our labouring classes.

Mr. Albert Spence, of the Reid Nfld. Co., who took Station Master Ford's place during his well-earned holiday, left for his St. John's home yesterday. Albert's host of friends were pleased to have him with them for a few days.

A man who suddenly became so fond of his wife that he tried to eat her, was before the court a couple of days ago. He was bound to the peace.

Work on the dock is going ahead rapidly. Pile driving had to be discontinued yesterday for the very good reason that there were no piles on hand to drive. In the meantime the divers went down and cut off the piles level with the bottom. Many people watched this interesting proceeding.

In connection with this pile driving it has been suggested that the present would be a good time to have another block added to our Public Wharf. With another block the wharf would accommodate all sorts of vessels. This is merely talk, but we hope it will be considered by the Powers that be.

CORRESPONDENT.  
 Harbor Grace, Sept. 20, 1911.

LARGELY ATTENDED FUNERAL.—The funeral of Master Fred Buckingham, who died shortly after his arrival from Harbor Grace, took place yesterday afternoon. It was largely attended, all his schoolmates of St. Bonaventure's College, where the deceased studied, being present. The remains were enclosed in a handsome casket which contained several wreaths and some flowers. Interment was at Mount Carmel Cemetery.

### At Synod Hall.

Amongst those who attended the third biennial conference of the Deaneary Avalon Sunday School Board at the Synod Hall last evening were His Lordship Bishop Jones, Rev. Canon Smith, Rev. Canon Temple, Rev. J. Hewitt, Rev. E. K. H. Caldwell, Rev. C. H. Burton, Rev. J. Brinton, Rev. G. H. Hewitt, Rev. P. P. Law and the teachers from the missions of Portugal Cove, Petty Hr. Keligrews, Pouch Cove and the three parishes of the city. The meeting opened with appropriate prayer. The Rural Dean, Rev. Canon Smith, who occupied the chair, then delivered an address in which he referred to the appointment of the Board by Synod enactment. He also referred to the great benefits derived by the teachers at the conference of 1907 and 1909. Rev. Mr. Burton followed with a paper on "The relationship between the home and the Sunday School," which was highly appreciated. Miss Stirling read a helpful and analytic paper on "The teacher and the pupil." Rev. J. Bell, Hon. Sec., dilated on "What the Sunday Schools have done for the Orphanage." Mr. G. H. Malmid's paper on "The Value of Catechism in the Sunday School" showed close thinking and an intimate knowledge of the subject. Those who participated in the discussion on the papers elicited helpful information. Rev. J. Brinton, Rev. P. P. Law, Rev. Canon Temple, Mr. H. W. LeMessurier, W. H. Goodland and A. Morgan. The Lord Bishop suggested that the Deaneary put into effect the resolution passed at the 1909 conference re examination for Sunday School teachers. On motion of Rev. J. Bell a resolution was carried to affiliate the Deaneary of Avalon with the C. of E. Sunday School Institute of London. Before the meeting closed votes of thanks to the ladies of the Cathedral Parish and St. Thomas's Parish were passed for their kindness in providing refreshments for the evening. A letter was read from Rev. J. Netten, of Pouch Cove, in which he regretted being unable to attend. The conference,

### Drowned.

In the Waters of British Columbia.

On August 14th a message was received from British Columbia by Rev. Fr. Renouf, of Trepassay, stating that Joseph Halleran, son of Joseph, Daniel's Point, Trepassay, was drowned on August 4th, that his body had been recovered and laid to rest in the Roman Catholic burying ground, but no particulars were given as to how the accident occurred. The good, kind Priest broke the news to the aged father in a gentle manner. The latter bore his trouble and sorrow with perfect submission to the Will of the Most High.

On Friday, August 4th, the whaler "Vadoo" was lying at Prince Rupert Dock waiting for the fog to clear, the crew were all on board and had retired at 9 p.m. the quarter master being the only one on deck. At two o'clock in the morning he heard a splash over the ship's side. The crew were immediately called, and young Halleran was found missing. Life buoy marks were speedily thrown overboard, but the drowning youth made no motion to save himself, and did not make the slightest noise when going over save for the splash when he met the water. Every possible effort was made to rescue him while still alive, but still in vain, and after an interval of two hours his lifeless body was drawn up. A silver mounted coffin was procured for him by his comrade, R. Pennell, also a Newfoundlander, and on Sunday, August 6th, he was laid to rest. Young Pennell, who was with him, is also a native of Daniel's Point, and feels the loss of his dear friend very much, being in a foreign land among strangers with no one to comfort him makes his burden doubly hard to bear.

Halleran was a young man of 33 years of age, and had a father, 2 brothers, 3 sisters and a large circle of relatives and friends to mourn the loss of a kind, dutiful son and a loving and affectionate brother. One of his brothers left his home 17 years ago and settled down in Chicago; no doubt he will be greatly troubled over Joe's untimely end, and as he had lived with him in Chicago for 3 years, and only returned 20 months ago, remaining home for only five short months when the notion of travelling entered his mind and with his cousin, R. Pennell, made for British Columbia, in October 1910. They had been working hard and were saving the greater part of their earnings, intending to spend the coming winter among their friends in Trepassay. To his sorrowing relatives we extend our sympathy.

BROKE HER LEG.—A little girl named Nugent, 11 years of age, fell while playing near her home on Water Street last evening and broke her leg. Dr. Macpherson set the limb.

which was considered the most successful yet held, closed with Benediction given by the Lord Bishop.

### Here is a Real Dyspepsia Cure

No Indigestion, Gas, Sourness or Headache five minutes later.

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia, or out-of-order Stomach is merely a matter of how soon you begin taking some Diapepsin.

If your Stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little Diapepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel life is worth living.

### "More Work and Less Talk."

There are still many working men in Newcastle-on-Tyne who remember Mr. Arthur Henderson, M.P., who is inquiring into the railwaymen's grievances, when he worked as an iron moulder in the firm of Robert Stephenson and Co. His education was but scanty, and he was obliged to learn all he could when and how he could. But his natural ability and intelligence soon made an impression upon his fellow-workers, and before he reached his twenties the men were choosing him to lead their deputations. Mr. Henderson's motto, however, from the day when he began to think for himself has been "More work and less talk." To quote the words of a North-countryman overheard on one occasion by the writer, "Artie's a deep 'un. He don't say much, but, by gum, he can think!"

AN UNFOUNDED RUMOR.—The rumor which went the rounds about a week ago that seaman C. Pope of the Bonaventure had fallen into the hold of the ship and received dangerous injuries, was utterly false. Mr. Pope met no mishap and is enjoying the best of health.

COD OIL UP.  
 Cod oil is now selling for \$100 a ton.

## Doing Things By Clear Thinking

The thought comes first.

SAVE NINE With a Slice in Time.

The better the brain,  
 The better the thought,  
 The better the achievement.

A good working brain is built up from food which contains the things brain is made of.

## Grape-Nuts

FOOD

is skillfully and scientifically prepared from wheat and barley and contains the "vital" phosphate of potash essential in building up a well-balanced body and brain

"There's a Reason" FOR

## Grape-Nuts

Canadian Postum Cereal Co., Ltd., Windsor, Ontario, Canada.

To know of and use a food that will feed and restore brain and nerves before slight nervous troubles end in complete nervous prostration or brain-fag is wise, for unless proper food is supplied daily it is unreasonable to expect the nervous system to answer the demands made upon it.

There is a food, Grape-Nuts, for the particular purpose of restoring weakened nerves or fagged brain to health and strength.

A business man of Baltimore, who made the trial says: "Two years ago my health had become so seriously impaired it was impossible for me to attend to business. At the least exertion my nerves would give way and the condition of my system allowed me little or no rest or sleep at night. Stomach trouble soon followed and I could take no solid food. I tried the best tonics and medicines but they all failed."

Finally Grape-Nuts food was recommended and after using it for 10 days I began to feel its good results and at the end of three months I was again a well man—nerves restored to their normal condition, strength renewed, and I was able to do any amount of both mental and physical work without feeling unduly fatigued. I know Grape-Nuts built up my brain and nerves and still keep them strong and vigorous just exactly as food builds up muscles or fat, for instance, and I am glad to have learned this valuable lesson." Name given by Postum Co., Battle Creek, Mich. Trial 10 days proves things when Grape-Nuts food is used. "There's a Reason."

Look in pkgs. for the famous little book, "The Road to Wellville."
