TO COPE WITH THE LATEST CAMPAIGN.

LONDON, Feb. 14. While naval officers here express the belief that submarine operations may continue at high tension for a couple of months, they show the utmost confidence in the ability of the Navy to cope with the latest campaign which is being conducted with the utmost success as the campaign against the U-boats in 1915. An Admiralty official showed the Associated Press to-day the figures of arrivals and departures for yesterday at English ports, proving that a larger number of vessels entered and departed than on any day during the past six months. Taking a day at random during the period since the latest war zone was declared, out of 140 British arrivals and departures only four vessels were sunk. These figures, according to the official, give an excellent idea of the per cent. loss. The Admiralty says losses have been extraordinarily small at a time when more ships than usual are being routed through the Channel.

GERMANY'S VIEW OF AMERICA.

NEW YORK, Feb. 14. A News Agency despatch from Bern, published here this morning, says German authorities in Belgium have ordered Brand Whitlock, the American minister to Belgium, to lower the American flag over the Legation. Brussels has stopped all of Whitlock's attempts to communicate with Washington, and are holding all American relief workers as prisoners. Gustave Herton, special attaché in permitting U. S. ships to sail to-day and brought this word to American Ambassador Gerard. He declared Germany hopes by her actions to frighten America and force her to remain neutral. Herton said to-day he had applied for passports on Feb. 14, but was kept waiting for them until Feb 9. When he had to change trains at Mayence he was seized and locked up for most of the night. When he was released after repeated protests he was ordered to cross the boundary at 9 o'clock. This, he said, he did with the customary difficulties at the frontier.

UNRESTRICTED WARFARE.

LONDON, Feb. 14. A Berlin official statement, dated Feb. 14, referring to news from abroad to the effect that the marine barrier against Britain, maintained with submarines and mines, has been or will be weakened out of regard for the United States, or for other reasons, says prompt and clearest declaration of unrestricted warfare

ENEMY STRONG POINT CAPTURED.

LONDON, Feb. 14. Official from British headquarters to-night reads: During the day we captured an enemy strong point southeast of Grandcourt and took a few prisoners. Another very successful raid was carried out this morning northeast of Arras. We penetrated 250 yards into the enemy's trenches, and reached his third line of defences. Two machine-gun emplacements, and a number of dug-outs, which they refused to leave. We captured forty prisoners and a machine-gun. Our losses were light. We also entered German lines last night on the Somme and northeast of Ypres, inflicting considerable casualties. Hostile raid attempted east of Armentieres during the night was repulsed. Three of the enemy's ammunition dumps were exploded to-day by our artillery fire north of Ypres. We caused fire in the enemy's line. One German airplane was destroyed in an air fight yesterday on our side of the line. One of our machines was brought down.

ORDERED TO LOWER AMERICAN FLAG.

NEW YORK, Feb. 14. A News Agency despatch from Bern, published here this morning, says German authorities in Belgium have ordered Brand Whitlock, the American minister to Belgium, to lower the American flag over the Legation. Brussels has stopped all of Whitlock's attempts to communicate with Washington, and are holding all American relief workers as prisoners. Gustave Herton, special attaché in permitting U. NEW YORK'S REVIEW.

NEW YORK, Feb. 14. Carrying safe conducts from Britain and France for himself, Count Von Bernstorff, retiring German Ambassador to the United States, has started on his way for Berlin. After touching at Halifax for examination of the cargo by the British authorities, the steamer Frederick VIII, on which the Ambassador is a passenger will sail for Copenhagen, whence the party will make their way into Germany.

On the French front the British in the Ancre and other regions continue to make raids on the German positions. German trenches on the Somme and Ypres sectors have been entered by the British.

In the Roumanian theatre near Meste Ganesit, the Germans captured and held against counter attacks sev-

THE 'LIMAN M. LAW.'

BANGOR, Me., Feb. 14. The schr. Liman M. Law, reported sunk on Monday by a submarine, sailed from Penobscott Bay on January 6th with sixty thousand bundles of lemon box shooks taken on at Stockton a week earlier. There was no contraband aboard, according to the shippers of the cargo. The schr. was to go direct to Palermo without touching at any other port. The cargo, valued at \$3,120, was insured.

CUBAN SITUATION.

WASHINGTON, Feb. 14. Confronted by what appears to be a carefully prepared Liberal rebellion in Cuba, the administration has been forced to consider what steps would be taken. Intervention by the States is contemplated with reluctance, but an intimation has been conveyed to President Menocal and to the leaders of the uprising that such a step may be taken if it becomes necessary. A message to the Cuban people has been sent Minister Gon-

SALES AND ALL AMERICAN CONSULS WITH INSTRUCTIONS THAT IT BE GIVEN PUBLICLY.

President Menocal assured diplomats in his capital he has no doubt of his ability to confine the rebellion to a small area, and that it can last but a few days. He also expressed to them the conviction that the special election being held to-day in Santa Clara province will be accepted by the people as a solution of the electoral deadlock which brought about the revolt. Official news from Cuba convinces the administration that the rebellion already has assumed greater proportions than had been anticipated. Developments of the movement were reported from widely separated points and the Cuban Government's call for volunteers served to support the successes claimed by the rebels.

London.—British officials are greatly interested in the news of the outbreak in Cuba where they have reason to suspect German agents have been at work for a long time. Only a few weeks ago Capt. Hans Boehm, a German army officer, was taken from the Dutch steamer Zealandia, at Falmouth. He has in his possession a

CHART OF SANTA LUCIA BAY, CUBA, WHERE ACCORDING TO OTHER PAPERS, SEIZED AT THE SAME TIME, GERMAN AGENTS HAVE SECURED OIL CONCESSION.

It is believed here that the Santa Lucia project is being developed by means of money sent from New York to Havana. British naval authorities, while they have failed to discover any German submarine base in the West Indies, declare they have long had reason to suspect the intention of the Germans to establish one there. As a consequence they look with suspicion upon the Cuban oil project, which is possibly a blind for the establishment of a refuge from which a submarine could operate. Boehm was not the leader of these projects, but only had been carrying out orders of a superior whose name is known to the British authorities although it has not been disclosed.

TAKES POSSESSION OF COAL MINES.

LONDON, Feb. 14. The Board of Trade will take possession of the coal mines throughout the Kingdom for the duration of the war, according to news made to-day by the administration of the mines headed by Guy Calthrop, the new General Manager of the London and North-western Railway, as Controller.

WANTS FACTS.

WASHINGTON, Feb. 14. The despatch is taken to indicate the Law was sunk in the Mediterranean where Austria is also conducting submarine operations. The main points to determine is whether the ship was attacked without warning, whether she carried contraband, and whether any American lives were lost. Whether the destruction of the Law will turn out to be the "over act" of the submarine campaign will have to depend on exact facts.

LAW'S CREW LANDED.

LONDON, Feb. 14. The American schr. Liman M. Law was sunk by a submarine on Monday, according to a despatch from the Stefania Agency at Rome. The crew including eight Americans are reported to have been landed. The Liman M. Law was 1,300 tons gross, 211 feet long, and built in 1899 at Westhaven, Conn. She was formerly owned by the Benedict Manson Marine Co., of New Haven, Conn., which sold her a year ago to New York interests represented by the Maritime Transportation Co. The captain's name is S. N. McDonough, an intrepid man.

WAS NOT TORPEDOED.

WASHINGTON, Feb. 14. The United States Consul Treadway, at Rome, cabled a report to-day indicating that the American schr. Liman M. Law was not torpedoed but destroyed by a bomb placed on board by the submarine. Secretary of State Lansing, received another report which said that the ship was sunk by gun fire from a submarine. Tread-

SPAIN WILL LOOK OUT FOR AMERICA.

LONDON, Feb. 14. The Spanish Minister of Brussels has taken over American interests in Belgium, says a Copenhagen despatch to the Exchange Telegraph Co.

THE CUBAN REVOLUTION.

NEW YORK, Feb. 14. Representatives of the Cuban Liberal party, which has established headquarters here, declared that the revolution in Cuba is in full swing and that the revolutionists have won some important victories.

VOLUNTEERS CALLED UP.

HAVANA, Feb. 14. President Menocal has just issued a decree authorizing a call for volunteers between the ages of 18 and 45 years to serve for a period of ninety days. It is rumored that former President General Gomez has landed at Canaguay, and that Lieut.-Colonel Quinones, commander of the Canaguay forces, has revolted with all his men.

GERMANS GOING TO CUBA.

NEW YORK, Feb. 14. The Tribune this morning says: Co-incident with the revolt in Cuba has come an unusual emigration of Germans to that republic from this city. The Tribune learned yesterday that since the situation between the United States and Germany became critical, from roughly to one hundred Germans have left this port bound for Cuba. What makes this exodus the more mysterious is that many of those who left here first took out their papers as prospective American citizens. Why they went to that trouble was due probably to the fact that they could not obtain passports as German subjects and used instead papers showing that they had declared their intention to become American citizens. Officials at Washington have been apprised of the situation, and agents in New York are investigating the antecedents of the legion already gone. An extensive revolt in Cuba would cause the use of American troops to restore order under the terms of the Platt amendment. (See 8th page.)
