

CHILDREN'S CARNIVAL,

The Carnival advertised to take place today has been postponed until further notice

To-day's Messages.

TWO MILLION THE LIMIT.

LONDON, Feb. 6. In a speech at Paisley to-night, former Premier Asquith, who is contesting a seat in parliament for that district, said, "Speaking with a full sense of my responsibility, I am disposed to believe, after making proper allowances for what is needed to start Germany's industrial life again, that two million pounds is the outside indemnity obtainable from Germany. If I were Chancellor of the Exchequer, I would write off anything beyond this as a bad and doubtful asset." Asquith also says it would be better to forego loans to Great Britain's allies than to cripple them.

HAULED DOWN.

DUBLIN, Feb. 6. The civil flag replaced the Sinn Féin banner over the City Hall when the Municipal Council met to-day. The Council did not take up the proposal of transport workers O'Brien, that the mace and sword should be removed on the ground that they were implements of feudal authority, relics of barbarism, and perpetual symbols of servitude.

STEAMER IN DISTRESS.

BOSTON, Feb. 6. Radio message relayed from Ottercliff, Maine, station brought word to-night that the steamer Hollis was ashore on a ledge near Mosquito Island, about twenty-five miles southwest of Rockland, Maine. The message asked for immediate assistance.

SHIP ON FIRE.

HAVRE, Feb. 6. Fire is reported on board the French steamer Ville d'Alen of five thousand tons, which at last account was 100 miles off Reunion, in the Indian Ocean. Two tugs are reported to have put out the fire of the liner.

RELIEF FROM BLIZZARD.

WASHINGTON, Feb. 6. The weather bureau sees relief at least for the people of the Eastern seaboard. The storm area has sprung to the Northwest and a letup in the snow storm is expected for tomorrow, though low temperatures are predicted.

NEWS SERVICE DELAYED. HALIFAX, N.S., Feb. 6. The wires are down west of St. John, owing to the storm, and telegraph service is delayed in consequence.

Police Court.

A city house-owner was charged with having a dangerous chimney in two houses owned by him. He stated that he could not secure bricks with which to erect chimneys and the Court ordered that safe temporary ones be installed.

A young man was charged with assaulting a young man. He was fined \$5 or 10 days imprisonment.

St. John's Nail Mfg. Co., Ltd.

At the annual meeting of shareholders held, Thursday, 5th inst., a dividend of 10 per cent. was declared and the following elected: Hon. R. K. Bishop, President; F. W. Angel, Vice-President; G. W. B. Ayre, Secretary; C. P. Ayre, Hugh Baird and A. W. O'Reilly Directors.

Why Not Frozen Fish?

Refusal of a Chicago newspaper to continue with a campaign to distribute sea food because some of the fish were frozen, merely indicates how much remains to be accomplished in establishing the worth of frozen fish. It took a long time to perfect freezing and refrigerating processes and although there are many improvements possible, the trade knows that a properly frozen fish, properly thawed before cooking, cannot be identified from fresh fish after cooking.

Frozen poultry is accepted as a staple product, why not frozen fish?—N.Y. Fishing Gazette, January.

Spanish Flu.

In the event of a return of the Spanish Influenza Epidemic, it is important that every person in the City keep a copy of the following instructions for future reference:

How to Recognize the Disease.—The following signs or symptoms are usually present: Fatigue, fever, headache, especially over the eyes; feeling of cold in the head. In addition there may be sneezing, chills, aching of the joints, back or limbs; the eyes may water or become bloodshot; in some cases there may be vomiting or diarrhoea.

Treatment.—Send for a physician at once. While waiting for the doctor to come observe the following directions:

Take castor oil, citrate of magnesia or some other physic at the start of the symptoms.

Soak the feet in hot mustard water ten minutes, using one tablespoonful of mustard in two gallons of water.

Drink a large cupful of hot lemonade, then go promptly to bed. Keep well covered and stay there for at least two days after the fever, which usually subsides on the fourth or fifth day, has disappeared.

Keep the sick room well ventilated.

Avoid patent medicines.

Precautions to Prevent Spread of the Disease.—Wash the face and hands before eating. Gargle the throat with salt and water, using one-quarter of a teaspoonful of salt in a cup of water.

Do not use the same knife, spoon, fork or dish that has been used by another person unless it has been thoroughly washed in hot water.

Avoid restaurants and soda water fountains where glasses and spoons are not washed in boiling hot water.

Hold a handkerchief over the mouth while sneezing or coughing.

Do not spit on the sidewalk or floor.

Do not apply the mouth to the mouthpiece of the telephone.

Get plenty of fresh air, but avoid draughts.

The games were keenly contested, and evoked the greatest interest throughout.

On Tuesday afternoon and night the A. Macpherson Prizes, four sets of gold sleeve links (inter-division, open to all, points games) will be played. In connection with this competition the leading 32 scorers will play a series of 8 games on the knock-out system for eight regular curling caps, donated by Mr. R. C. Bonnell, the popular representative of the Eastern Hat and Cap Mfg. Co., Ltd. The terms of play will be arranged by the President, Vice-Presidents and Secretary. This competition will prove one of the most interesting for some time in view of the opportunity it affords the youngest player to take part in a series of fine matches.

Yesterday the lady curlers played for the Macpherson Cup. The teams were:—

Newfoundland.
Mrs. Rogerson,
Mrs. Frank Bradshaw,
Mrs. F. C. Alderdyce,
Mrs. Will Duder. Skip 11.

Canada.
Miss Mackay,
Mrs. Kennedy,
Mrs. Chas. Harvey,
Mrs. Gosling. Skip 8.
The former won by a score of 11 points to 5.

Our Book Column.

(S. E. GARLAND.)

"The Eleventh Hour" and other stories (Ethel M. Dell), is a book of three short stories: "The Eleventh Hour," "The Peace of Honour," and "Those Who Wait." They are written in Miss Dell's happy style and well merit more than the passing glance. "The Globe" says of Miss Dell that she can tell a story, and that is why she finds herself in the happy position that when she opens her lips an Empire is attuned to listen. The volume is a cheap pocket edition. The book is published by T. Fisher Unwin.

"Brown's Boy Scout Diary, 1920" is an ideal pocket diary, and compendium of Scouting information at a cheap price, and we would advise every Scout to purchase a copy. "The Young Visitors" (Daisy Ashford), is a truly astonishing piece of fiction of a youthful authoress. "The unaided efforts of an authoress of nine," says Sir James Barrie, who has written the preface for Miss Ashford. The book is already known by name, through the medium of reviewers by the majority of the reading public, but it should be known by all.

Famous Daisy Ashford is now a farmer's wife. She was married secretly a few days ago to a suitor whom she met while serving in the British Secret Service during the war. He is a farmer named James Devlin. It was Daisy Ashford who won world-wide fame for precocity in writing a book at the age of nine years. The story was about the visitors who came to her home. It is believed that this book is responsible for a serious epidemic of infant prodigies that is running rampant in London to-day.

We notice, in passing, a new edition of "Between Two Thieves" by Richard Dehan, published by Heinemann.

Skilled Training for Returned Men.

The Civil Re-establishment Committee has just finalized a deal with the Champion Engine Works, which offers a most excellent means of intensive training for our returned men. The Champion Machine and Motor Works on Water Street West is the organization selected, and following several conferences between the Company directorate and the Vocational Officer, it is agreed that the plant mentioned offers a great opportunity for many returned men to get a suitable course. The present arrangement calls for a thoroughly intensive course of six months, under the direction of Mr. Geo. Kirkland, the Company's foreman, who supervises the instruction and is given ample assistance for training and material for work. Each student granted the engineering course is given two weeks' probation, and at the end of that period a definite report is made on his progress, and if he is not adapted to the work, another opportunity is opened to him in another line of training. Arrangements are now made for some forty students, and fourteen are now being trained. The Vocational Officer made an inspection of the classes on Tuesday afternoon and was surprised at the progress made to date. The men are exceptionally keen and their knowledge of the work after two or three days' tuition completely upsets the old theory of apprenticeship. Students who had never done any mechanical work before were found turning out various parts of motor engines, and effecting repairs in a very skilled manner. From the admission of the student to the plant he is taken in hand by Mr. Kirkland, who is an enthusiast in his line, and who displays great personal interest in the individual qualities of each man. There is a perfect understanding between the foreman instructor and his pupils, and those who have seen the results accomplished in the first fortnight of the course believe that the practical knowledge gained in actual factory operations will be of incalculable benefit to the men.

St. John's Resident Describes His Daughter's Cure from Eczema.

"I am more than grateful since using your wonderful D.D.D. for eczema. My little girl was troubled with weeping eczema. I used everything but to no use and thought D.D.D. would be of no use either. My girl's head became so bad I had to clip her hair off and keep her from school. She got sores all over her body. I used six bottles and am proud to say she is cured. Not a pimple or rash and her skin is clear and white and all the itching gone. I will recommend D.D.D. to any one I know who is troubled with eczema. I am ever so happy and thankful for your wonderful cure."
