DECOYED—A MYSTERIOUS CASE.

Montreal, Nov. 22.—Mr. Albert Lewis, a real estate dealer of this city, was decoyed from his home by an urgent letter on Saturday evening, and up to a late hour last night the police have been unable to find him.

A DINNER PILL.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy aliment, it becomes a poison to the system. Dr. Parmentier's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine for all who are troubled with indigestion or dyspepsia.

RUSSIA AND JAPAN.
St. Petersburg, Nov. 22.—It is asserted in diplomatic circles that 80 far from there being a serious tension between Japan and Russia over Corea, the two governments have arrived at a complete understanding on the subject, and Russia is pleased with the terms of the convention.

EMPEROR WILLIAM AND THE DREYFUS AFFAIR.
London, Nov. 22.—The Paris correspondent of the Daily Chronicle says: "The name of Emperor William is now persistently connected with the Dreyfus affair. It is currently reported that at the time of the trial he wrote to M. Casimir-Perier, giving his word of honor as a man that Dreyfus had not betrayed France for the German Government, adding that if necessary he would give his word 'as an emperor with all its consequences.' The Gazette says it was in order to avert grave consequences arising from the Emperor William's having given his word of honor that the court-martial had been ordered to be held in secret, and in accordance with the request of the emperor, were not produced at the trial."

DREARY ENTERTAINMENT.
London, Nov. 22.—An episode of peculiar interest was the enactment by clergymen in Canterbury Hall of the first church play in recent years. It was entitled "The Conversion of St. Augustine," and was written by Rev. Henry Cross, with the dialogue in a stilted, heroic strain, to the accompaniment of sacred music.

SOUDANESE SOLDIERS' REVOLT.
London, Nov. 22.—Particulars have reached Zanzibar of a revolt among the Soudanese troops in Major MacDonald's expedition. The mutiny broke out south of the equatorial provinces. It appears that the expedition was advancing into the interior from the Uganda country for a long time, and information is wanting. On Oct. 19 last the mutineers, assisted by 150 Mohammedan tribesmen, attacked the expedition. The expedition was defeated, and the following Lieut. Fielding, Major Thurston, Launceston Scott, Civil Officer Wilton and other officers were killed. The wounded numbered 30, including Capt. MacPherson and Chief Civil Officer Jackson. The mutineers were finally defeated, and the expedition was reformed. Major MacDonald has been joined by the Wasoga native army, and it is hoped that he will be able to quell the mutiny in a few weeks. A detachment of Indian troops from Mombasa will start immediately to reinforce Maj. MacDonald.

THE FRENCH AGRICULTURAL CRISIS.
Paris, Nov. 22.—During the debate in the French chamber of deputies on the subject of the agricultural crisis, Premier Meunier declared the cause of the crisis was the progressive fall during the past twenty years in the price of all agricultural products, combined with the depreciation in the price of silver. France, the premier continued, was powerless to solve these questions, because they were of an international character. The agriculturists, he explained, were not only beset by foreign competition, but they had to fight the middle-men, who were far too numerous. It was the duty of the government, Mr. Meunier said, to bring the consumer nearer and nearer to the producer, and consequently the government would shortly submit a bill for the organization of an agricultural credit and for the establishment of agricultural insurance offices. These measures will have mutual treatment, as their basis will also establish an aid and pension fund. A motion to post the premier's speech in every commune throughout France was carried, amid great applause, by a vote of 23 to 6.

arsenic had been used. The law on the sale of poisonous drugs could have been brought out with effect. On account of other circumstances, suspicion against certain persons was so strong that many felt ready to raise the finger and say "That is the man." A little tact in a person who could have traveled incognito might have turned this to account. The guilty should not be allowed in any case to pass unpunished for the burden of suspicion always weighs heavily on the innocent.

INTO THE YUKON VALLEY
Easy Route by a Railroad Has Been Discovered.

San Francisco, Nov. 22.—The details have been received from the Pierre Humber Alaskan exploring expedition, which sailed from Seattle on Oct. 15. The party is located ten miles up the river from Chilkat Inlet. The course is being surveyed on both sides of the river and the explorers have already reached the range of 2,500 feet lower than either Chilkat or Chilkoot. A perfectly feasible and easy route for a railroad into the valley of the Yukon has been discovered.

Melbourne Suffers to the Extent of \$5,000,000—Blaze in Paris.
London, Nov. 22.—A great fire broke out at Melbourne at 2 o'clock this morning and in a very short space of time did enormous damage. It started at the warehouse of Mr. Craig Williamson, in Elizabeth street, in the very heart of the city. A strong wind was blowing, and the fiercely-fanned flames rapidly engulfed building after building. Despite the desperate efforts of the firemen, the entire block bounded by Elizabeth, Flinders and Swanston streets, and Flinders lane, with the exception of two buildings on the Swanston street front, were destroyed within three hours. The burned section included many of the largest business houses in Melbourne. The buildings were completely gutted. As most of them contained soft goods, the flames progressed with a rapidity which defied all checking, and in the furious wind ashes and burning debris were carried into the suburbs, a distance of two miles. The loss is placed at 400,000 francs. After six hours' battle with the fire the members of the fire brigade were utterly exhausted, and were relieved by a force of 250 soldiers who had been ordered to the scene of the conflagration.

THE GULDENSUPPE MURDER.
Trial of Prisoner Thorne Resumed Before a New Jury and Another Judge.

New York, Nov. 22.—Martin Thorne, the barber, jointly indicted with Mrs. Augusta Nack for the murder of William Guldensuppe, a bath attendant, was placed on trial for his life two weeks ago today in the criminal branch of the supreme court of Queen's county. The trial, after Mrs. Nack had given her sensational evidence on the third day, had to be abandoned on account of the serious illness of one of the jurors, Magnus Larson. The presiding judge, W. M. Smith, after hearing the argument of counsel on both sides of the case, adjourned the trial, and a new special panel of twelve men was prepared. But sickness again played a prominent part when the hour of the resumed trial reached this morning. Judge Smith, as soon as he arrived at the court house in Long Island city, sent for District Attorney Youngs, and stated that he had been ill with chills and fever, and though a great deal better this morning, was afraid that he would not be able to last through the trial, and deemed it safer for the best interests of everyone that he should not take any risk. Finally Judge Smith took his seat at 10:15, and announced that Justice Maddox would try the case. Court then adjourned until 11 o'clock.

THE GULDENSUPPE MURDER.
One of the witnesses is Mrs. Ida Zeigler, of 1671 West Farms road. Mr. Howe will endeavor to show by this evidence that the instructions from King to murder Guldensuppe as early as last March.

NO SIGN OF ANDREE.
Return of Steamer From Spitzbergen Without News.

Tromsø, Tromsø Island, Norway, Nov. 22.—The steamer Victoria, which was fitted out by the governor of Tromsø under instructions from King Arthur to search for Prof. Andree, the mis. aeronaut, and his party, and which left here on Nov. 5, has returned from Spitzbergen. She brings no news as to the whereabouts of the movements of Prof. Andree, though exploring parties landed ten times at various points on Danman's Isles.

The Victoria was provisioned for eight months and carried a crew of fifteen men. Paul Björqvist, the explorer, was one of the company. It was understood that the expedition would search Danman's Island, Advent Bay, Cape Thorsdahl, Prinz Karl Fjord and possibly Danes' Island, from which Prof. Andree's balloon, the Eagle, ascended in July last for his undertaking to cross the north pole. According to the programme then published, the Victoria on her return trip was to search the southwest coast of Danman's Island.

LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine, and less than half a bottle cured me. I certainly believed it saved my life. It was with reluctance that I consented to a third year's reduction to such a state that I doubted the power of any remedy to do me any good."

"ELITE" PENSIONERS.
Names of Those Who Draw \$50 Monthly From Uncle Sam's Purse Kept Secret.

If there is anything which stirs up the old soldiers it is the contention of the secret list of "elite pensioners," which is the title generally given to those fortunate persons who draw from a grateful country the sum of \$50 a month or upwards.

Commissioner Evans' report, just issued, shows that there were 97,014 pensioners on the rolls June 30, 1897. The appropriation for the fiscal year was \$40,000,000, but the payments exceeded this by nearly \$2,000,000.

The report shows that the average annual value of each pension was only \$133, which means that the immense appropriation, if evenly divided, would have given each pensioner between \$11 and \$12 per month.

The common soldiers have grumbled against the favorites, who, they say, generally do not need the money. It always has been charged that in the list of pensioners paying \$50 per month and over would be found the greatest frauds.

These lists have always been kept secret, and applications for their publication have invariably been refused. The facts were open to all, but the names were considered as confidential in the pension department.

The report shows that there are on the roll 3,650 pensioners who draw \$50 per month or over. They draw on the annual pension appropriation to the extent of \$3,021,648. There are 977 at \$50 monthly, 9 at \$60, 2 at \$72, 12 at \$75, 57 at \$80. There are four widows of generals who each draw \$2,000 a year, and two with an annual pension of \$5,000.

The pension office still maintains that the names are confidential.—Chicago Tribune.

NEW CASES OF YELLOW FEVER.
New Orleans, Nov. 22.—There were eight new cases of yellow fever and three deaths yesterday. William Dempsey, Natalie Vincent and William Jackson were the victims.

THEOSOPHISTS INTERESTED IN DURRANT.
San Francisco, Nov. 22.—The Theosophists of San Francisco are taking a very active interest in the fate of Murderer Durrant. It is a tenet of their faith that capital punishment is wrong, and they are setting up a petition praying Gov. Budd to stay the execution and to commute his sentence to life imprisonment. The petition was prepared by Dr. E. J. Durrant, president of the San Francisco Theosophical Society.

The great lung healer is found in that excellent remedy sold at Biggle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, pain, or soreness of the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

The True Remedy.
Wm. Duggan, St. Albans street, Toronto, says: "We won't keep house without Ransom's Hye Syrup and Tolu for consumption, coughs, colds, croup or bronchial troubles. Experimented with many others, but never got the true remedy until we used Ransom's Hye Syrup and Tolu. No other remedy can take its place in our home, as in it we have a certain and sure cure for coughs, colds, croup, whooping cough, etc. We would not be without it in the house."

It is idle to experiment with other remedies, even if they are urged on you as "just as good" as "Ransom's Hye Syrup and Tolu." They are not as good, because this remedy has a record of cures, and, besides, is guaranteed. It never fails to satisfy. 25 cents.
