ALERTS DEFEAT THE STARS.

The baseball season was opened Saturday at Kensinton Park by a match between London's crack teams, the Alerts and the Stars. The attendance was fair and the crowd noted with satisfaction the improvement made on the diamond. The new grand stand is convenient and commodious.

The game itself was too one-sided to arouse much enthusiasm. The Alerts had it all their own way, and the Starsshone very little. The latter appeared to lack training; their outfield was very "rocky," and as Tierney's delivery was a "mark" for the Alert hard-hitters, the comparatively good work of the infield of the Stars was of no avail. Tiernoy evidently has not yet got down to work. His delivery is rapid enough, but very erratic. It took "Bull" Thompson a couple of innings to limber up, but when he got down to it his good work saved many of Tierney's wild throws. "Bull's" cold stand-by is the willow, and, judging from the applause that greeted him when in the third unning he walked up to the home plate, but in hand, the crowd evidently wanted to see him do something. A base hit let him to the first bag, and clever base stealing brought him around to third. There were two men out, however, and his chance of scoring was spoiled by Dunn going out at first. The Alerts put up a good game all the way through. They hit the ball in all directions, run well and can give professionals points on base stealing even if they have to spoil their jackets sliding. The infield work was perfect, and the outfield did well also. Sim Collins pitched an excellent game until the first of the fifth, when his arm gave out and Hiscott was put into the box. He was hit freely for three innings and then gave way to Sheere, who was in good form and kept down the score. A change has been made in the Alerts infield. Hynd goes to the outfield and the reliable Johnson will in future hold down second bag, with Burton af first, Player at third and Hiscott at short. They make a great combination. Johnson's initial work at second on Saturday was splen

Great mental agony is endured.

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. A friendly game of cricket was played between teams from No. 1 Company, C. R. I., and the London Cricket Club, on the grounds of the latter Saturday afternoon. DEMOCRACY IN GERMANY.

Wilhelm Liebknecht, high priest of German social democracy, is scattering the propaganda in South Germany in anticipa-German social democracy, is scattering the propaganda in South Germany in anticipation of a general election. He attracts large crowds and thinks he is preparing the way for a great socialistic triumph at the polls. He compares the social condition of the German masses with those of the English, Swiss and American working people, and denounces the military despotism and the favoritism shown the titled classes. With forcible expressions, which several times have evoked the interference of the police, he exhorts his hearers to choose parliamentary representatives who will fight militarism and class privileges and compel the Government to abate them. Other social democratic speakers are imitating the boldness of Liebknecht's utterances. Years have passed since such violent speeches were heard from the campaign platform. The universal aggressiveness is due to the sense of growing power felt by the social democratic leaders, as well as to the policy of the Government in allowing greater latitude to the Socialists generally, aithough still keeping them all under the observation of the official spies.

WOULD NOT CHANGE THE FOOD !

Sent to Toronto for the Right Kind!

A mother living outside of Torono wrote a few weeks ago to the manufacturers of Lactated Food, assuring them that the great food had saved her baby's life. She stated that her faith was so firmly fixed in the wonderful virtues of this nourishing article of diet that she cannot be induced to use any other. She mentions the fact that when her stock of Lactated Food was exhausted one day, she sent to her local dealer for more, but was informed that he was just out of it. In order to make a sale he recommended another make of artificial food, which was promptly refused, and the lady sent at once to Toronto for a supply. This rule is closely followed by every mother who knows what Lactated Food can do for her baby. Once tried it is always the favorite in the home. Lactated Food is truly the baby's benefactor and preserver. Try it once, mother, if your baby is not doing well with other foods; the results will astonish you. A football match in the second round of the intermediate series was played at Elmyra on Saturday between Preston and Elmyra, resulted in favor of Elmyra by 3 to 0.

New York, May 21.—Lord and Lady Aberdeen arrived here Friday evening en route from Chicago and the World's Fair to England. They sailed yesterday morning in the steamer Aurania. Lord Aberdeen spoke of the successful establishment of the Irish village, in which Lady Aberdeen is so deeply interested. "We are proud of our Irish village, "said he, "and believe it will work a great benefit to clever-fingered girls of Ireland. Lady Aberdeen wishes simply to bring the remarkably clever handiwork of the Irish girls before the people so as to establish a market for their laces." Lord Aberdeen will spend the summer in England, and afterwards will sail for Quebec as Governor-General of Canada. England.
