STOCK MARKETS.

H. C. Beecher, broker, Bank of Commerce building, received the following by wire from Bartlett, Frazier & Carrington today:

New York, March 15.—The market has been quiet and steady during the forenoon session, and is now steady, with a firm undertone, and the active stocks generally showing a tendency to open higher.

The opening market reflected the strength of London, but during the first hour there was some irregularity in movement.

Actual support has been in evidence throughout the trading, and there has been a fair volume of foreign business.

Liquidation was not in evidence at any point. A good deal of the buying can be traced to important banking houses.

London was a buyer of Atchafon, Union Pacific and Southern Pacific. There was early strength in Brooklyn, Rapid Transit, but it has not been fully maintained.

Among the active stocks were Pennsylvania, Steel, preferred, Metropolitan and St. Paul. The Metropolitan stocks showed better strength today than for some time.

The Steel stocks have been strong on better trade advices. There were periods during the morning session when the market became heavy, but usually it rallied quickly and became strong.

Attention has been attracted by the short interest in play with the present. Iron has been heavy. Nothing new in Northern Securities affairs. Mr. Hill advises that the Northern Securities Company of Canada will be used to continue the control of the Northwestern roads.

Sales to noon were 18,000 shares.
