WELSHMEN GUARD KING IN PALACE

New Corps On Duty For First Time On St. David's Day.

[Canadian Press.] London, March 2.—The celebration of St. David's Day yesterday was marked by features distinctly expressive of what may be termed the new Welsh nationalsm. The newly-formed Welsh Guards mounted guard for the first time over King George at Buckingham Palace. David Lloyd George, chancellor of the exchequer, was present at a parade of the North Wales Brigade at Llandudno, and an address was presented to him at an eisteddfod in the evening. Flags were sold in Wales and London in behalf of the national fund for the Welsh troops raised to fight against Germany.

Chicago, March 2.—Wheat prices developed comparative strength today, after showing much nervousness at the start. The fact that Liverpool quotations did not fully respond to yesterday's severe breaks on this side of the Atlantic, had a good deal to do with restoring some measure of confidence to the bulls. Decreasing stocks in the Northwest counted also against the bears. The opening which varied from 1%c off to 1%c up, was followed by a material advance all around. Galveston, Texas, March 2.—A total of 40,959,731 bushels of wheat has been exported from here since July 1 last, according to figures made public at the customs house here today. Shipments in February were 3,552,306 bushels, as against 295,000 bushels during February, 1914.
