LONDON CAT TRAVELS OVER 4,000 MILES; IS STILL 18TH BATTALION'S MASCOT

Stray Tabby From Queen's Park Now in England.

IS AT SANDLING CAMP

Successfully Smuggled Aboard Troop Ship Under Owner's Great Coat.

[By Pte. W. J. Bartlett.]

There are cats and cats, but there is one cat at Sandling Camp, Kent, that is petted by all the officers and men of the 18th Battalion. It is a black cat with a remarkable history, which should prove interest-

history, which should prove interesting reading to Advertiser readers. The cat is owned by Scotty Kane of C Company, and it was at Queen's Park, London, where the proud possessor picked it up.

It happened in this way. Pussy quietly walked into the barracks one quietly walked over the soldiers' evening and looked over the soldiers' cots. Pte. Kane's eagle eyes spotted the visitor, and at once took a fancy to it. He decided there and then to keep the cat, and placed it in a small box at the side of his cot, and there the cat slept soundly every night.

The boys christened pussy "Bum," but the name does not imply in any way that the cat was guilty of bumming, for it is too well fed for that. It was just a name let idly drop, which has stuck to it.

"Bum" at once proved itself a faithful creature to his soldier friend, and would follow him around park as faithfully as any dog. All Pte. Kane had to do was to whistle certain notes and the cat would quickly come.

Its owner decided to take the cat

with him across the broad Atlantic, and he successfully got it on the train when the 18th left London. Pussy made itself quite at home in its new quarters, and would parade up and down the coaches as if it had been there all its life. The officers did not object to the cat, and would frequently stop to smooth its glossy

Smuggled on Board.

To get the cat on the SS Gram pian, however, was no easy task. Kane had his full pack on, and carried also his two kit bags. He, however, slipped it into his haversack, underneath his grey coat, and pussy rendered any solos. Thus, never rendered any solos. Thus, while many animals which the boys have liked to take to England with them were turned down by the officials, "Bum" was safely taken on

Bradley, Herman J. Record for Recruiting So Far.

[Special to The Advertiser.] GALT, July 4.-Through its splendid recruiting record for the first, second and third contingents, Galt has again been asked to recruit men for the 34th Battalion to bring it up to full strength. Orders were received yesstrength. Orders were received yesterday morning by Major Clarke, officer commanding the 29th Regiment, and in the afternoon the recruiting office was opened, and will be kept open for a week. It is expected this city will contribute a number of men.

The 29th Regiment has also been asked to state how many men it can provide for a permanent guard for the mobilization camp at London. Applications are being received, and it is exions are being received, and it is expected that this city will give for this

purpose about 25 men. STRATFORD SIGNS TWENTY-FOUR. STRATFORD, July 4.—Twenty-four recruits were accepted for overseas service on Friday, and ten of them left recruits were accepted to them left vice on Friday, and ten of them left Saturday morning for London to immediately undergo training. These latter were: Ptes. Thomas, Flannigan, Mantle, Hubbard, Clark, White, Romey. Whitehead and Chillingworth.

When James S. Smith enlisted, all records of enlistment from any individual house were broken. Six volunteers have been accepted from his home since recruiting first commenced last August, and two of these, members of the first contingent, have appeared in the casualty lists, one wounded and the other missing.

Sergt. Potts is one of the finest speci-mens of physical manhood the 34th can show, if not the finest. When a lad of 14 the doctors told him he could rot live. His lungs were said to be affected with culosis, and that it was only a question of a short time when he would be under the sod. But young Potts thought otherwise. He began to study the body and to daily exercise it. Today he has a physique few men in the Dominion can show, and he looks about as much like a consumptive as a young colt. He swings the clubs, axes, a lighted torch and swords, and does the solo work while the remaining members of his squad go through the regular motions. Some sir-cus stunts will also be given, and three of the 34th boys have all the costumes and cosmetics, etc., ready to put on to do their turns.
