

MADERO FACES SERIOUS CRISIS

Revolution Headed by Zapata
Apparently Grown to For-
midable Proportions—Now
Covers Wide Area

MEXICO CITY, Feb. 1.—It is the general belief here that the Madero government faces a crisis.

The President and members of his cabinet now admit that the revolution headed by Emiliano Zapata has grown to such proportions as to make it the most formidable yet faced by the present government. The conduct of the campaign against the Zapatistas, now operating over a wide area, and the uprising at Juarez last night were discussed in a cabinet meeting this afternoon. President Madero was not willing to admit that the mutiny of troops at Juarez was directly connected with Zapatista rebellion, and it was agreed that Pascual Orozco and four hundred men whom he had been ordered to take from Chihuahua to Juarez would be sufficient to restore order at that point.

The immediate cause of the mutiny was a misunderstanding of orders, according to Abraham Gonzalez, minister of the interior. The minister said Orozco had been instructed to discharge 200 rurales, but to do so gradually. Instead of this they were mustered out at one time. Minister Gonzalez believes the post commander misinterpreted orders.

Reports today from Chihuahua and Torreon are that there has been no dissatisfaction among the troops there, but a consular report to the American embassy states that the action of the bandits in the vicinity of Torreon had greatly alarmed the people of that city. Acting upon the consul's advice, Ambassador Wilson protested to the foreign office against the removal of the garrison.

Proclamation of Rebels
EL PASO, Texas, Feb. 1.—Emilio Vasquez, general proconsul of the Mexican republic, and Francis I. Madero is criticized in bitter terms in a proclamation secretly circulated today among the revolting Juarez garrison and members of the so-called revolutionary junta in El Paso. The proclamation is dated, "Revolutionary camp, in Chihuahua, Feb. 1, 1912," and bears the signatures of Luis Fernandez and Colonel L. Salazar, "Chiefs of the North."

The proclamation is taken here as another indication of the possible connection between the revolt at Juarez and the plan to carry on the Zapata movement in southern Mexico. It is addressed to the "valiant sons of Chihuahua," and recites how they were among the first to second the Madero revolution of November 20, 1910, to "overthrow the tyranny which for more than twenty years joked with our rights." President Madero is criticized for "installing in office Vice-President Pino Suarez."

The proclamation pledges adherence to the plan of Tacubaya, and declares the election of the fifth and fifteenth of October null and void, the congress dissolved and its acts void. The motive of its adherents are declared to be the election to the presidency of Emilio Vasquez Gomez, "who guarantees us, the country and all men that he will comply with the ideals of the glorious revolution." In conclusion the proclamation declares it is not intended to oppose any governors recently elected and accepted by the government, but to oppose "Madero and accomplices, who installed the vice-president," and "the congress which sanctioned the imposition."

Indicates General Upriset
WASHINGTON, Feb. 1.—The revolt of the Mexican troops at Juarez, while not regarded as important in itself, is considered here as indicative of a general revival, outside of the Mexican capital, of the feeling of unrest that existed before the fall of the Diaz administration.

The state department and the department of justice were advised today that the trouble at Juarez grew out of a refusal of some of the garrison to submit to discharge from the military service, which would involve their return to paths of peace. Consul Edwards at Juarez reported that the occurrences were not marked by anti-American sentiment. Beyond an admonition to the American consuls along the border to look after the safety of Americans, there is nothing for the state department to do at this juncture but to await developments. No doubt is entertained that President Madero will maintain a strong force of regular troops to Juarez to restore order and protect American residents there.

Factions in Alliance
NEW ORLEANS, La., Feb. 1.—An alliance has been effected between Emiliano Zapata, leader of the rebellion in southern Mexico, and the leaders of last year's insurrectionary movement in Lower California, according to reliable information obtained here by secret service agents.

NO STREET SALES
VANCOUVER NEWS-ADVERTISER ANNOUNCES
Change of Policy in Connection
with Its Sunday Issue

VANCOUVER, Feb. 1.—The News-Advertiser will say tomorrow: "Hereafter the News-Advertiser will not be issued to newsboys or agents for street sale on Sundays. Before the recent purchase of the paper by the present owner it had long been published and sold on the streets on Sunday, but not on Monday, and the system has so far been continued. It is still proposed to publish on the same day

and to deliver the paper to subscribers at their homes. This involves the least amount of Sunday labor, as most of the work on Monday morning issues is performed on Sunday, while the Sunday edition is almost wholly prepared on week days.

"But the sale of newspapers in the streets on Sunday is found to be open to grave objections, even when all possible efforts have been made by the publishers in the way of regulations and restraint. After careful consideration of the matter by the proprietor, manager and editor, it has been decided that Sunday street sales shall be discontinued altogether, though the change involves a considerable financial sacrifice."

"The News-Advertiser is one of several papers regularly sold on the streets of Vancouver on Sunday. It devotes upon others to bring the whole traffic to an end, if that is desired. So far as the management of this journal controls the situation the street sale of newspapers on Sundays will stop at once, and any public action to make the prohibition general will have our support."

COMMITTED FOR TRIAL

Action of Magistrate Shaw of Vancouver in Case of Socialists Charged With Unlawful Assembly

VANCOUVER, Feb. 1.—R. Perm Pettipiece and nineteen other Socialists were committed for trial by Magistrate Shaw this morning on charges of taking part in an unlawful assembly. The action in the Pettipiece case was all taken yesterday, but his case was called this morning until 11.30 o'clock at which time Magistrate Shaw formally committed him for trial in a higher court. He may take speedy trial or may choose trial at the next assize by a jury.

The evidence against the other men was all in by 12.30 today, and without exception the defendants were committed for trial.

This practically disposes of the batch of prisoners brought in by the police last Sunday.

FIRE THREE SHOTS IN TROUNCE ALLEY

Sando Simone Makes S. Ciammitti His Target But Shows Poor Marksmanship

Firing three shots from an automatic revolver, Sando Simone attempted to take the life of S. Ciammitti, yesterday afternoon at 1.30 o'clock in Trounce Alley. His poor aim saved the life of the man at whom he shot, but it was almost a miracle that some passers-by were not injured. Just what was the cause of the trouble between the two is a mystery. Ciammitti claims he never saw the other before, while Simone pleads ignorance of English and will not talk.

Ciammitti stated that he was walking up Trounce Alley towards Government street when he heard shots fired behind him. He turned in time to see Simone firing the last shot at him. The bullets flew wide, one afterwards being secured by the police in the sash of one of the offices on the alley. Simone was afterwards arrested by Detectives Handley and Fry, who had been sent from headquarters when the report of the shooting had been telephoned.

Simone quietly walked down Government street and was caught with the revolver in his pocket, the three empty shells indicating his effort to shoot his fellow countryman. Ciammitti was also taken in charge, but was later allowed to go free. The two Italians held a short conversation at the police station, but neither would consent to state what it was about. The police are convinced that some trouble between the two led to the shooting, though neither one will say what the trouble is.

Simone will be arraigned in the police court this morning on a charge of shooting with intent to kill.

Flynn-Johnson Match
SALT LAKE CITY, Feb. 1.—With the location of a battleground for Jim Flynn and Jack Johnson still undetermined, Jack Curley, the promoter of the match, will leave tomorrow for San Francisco. Mr. Curley is in touch with officers of the Western Pacific railroad, and admits that it is his purpose to arrange for the fight somewhere along that line, probably just over the border of Utah in Nevada, but he says it may be several weeks before he can tell the fight fans where to go to.

Nothing For Bondholders
SEATTLE, Feb. 1.—A receiver was appointed today in the Superior court for the Washington Orchard Irrigation & Fruit Co., which is an adjunct of the Columbia River Orchard Company. The receiver issued \$50,000 of bonds, and sold them all over the United States. The Washington Orchard Company guaranteed payment of the bonds, and the Oregon-Washington Trust Company, of Portland, Ore., which is alleged to be a dummy corporation, was named as trustee for the bondholders. W. E. Delam, president of the insolvent company, the receiver, H. E. Wilson, of Seattle, will have no assets to handle, according to counsel for the defendant company, who told newspaper reporters cheerfully that there would be nothing for the bondholders. Both the orchard companies operated from Portland, Oregon.

NEW YORK, Feb. 1.—The Republican county committee adopted the resolution of the executive committee, adopted a few days ago, endorsing the renomination of President Taft, after overwhelmingly voting down a motion introduced by Frederick T. Tanner to postpone action on the resolution.

MANITOBA SOON TO BE EXTENDED

Definite Announcement of the
Terms Arranged Between
Two Governments Expected
at Ottawa in Few Days

OTTAWA, Feb. 1.—Definite announcement of the terms upon which the boundaries of Manitoba are to be extended may be expected within the next two or three days. In the meantime the conferences which have been taking place between representatives of the several governments interested have been practically concluded and an agreement reached satisfactory to everybody concerned.

The obstacles which were great enough to prevent the settlement during the years of negotiations between the province of Manitoba and the Laurier government have been removed in short order by the Borden ministry and Manitoba will soon cease to be a "postage stamp province."

Widely guessed as to the terms upon which the provincial territory is to be enlarged have been plentiful lately. One of the statements most persistently repeated has been that difficulty has arisen in regard to the separate schools in the territory to be annexed, and that upon this rock the negotiations had fair to split. In reality there is no such difficulty. In the arrangements now being concluded, there is no condition, good, bad or indifferent in regard to separate schools. The question of separate schools will be left entirely to the government and the province of Manitoba, with the probability that the people in the new territory will be placed in the same position in regard to their educational rights as are the people in the present province of Manitoba. It is understood that the bill which will be brought down will give Ontario access to Hudson's Bay at Port Nelson.

Coal Troubles
A number of deputations descended upon the government today and talked about railways and coal.

The towns of Southampton, Kincardine, Owen Sound, Meaford, Collingwood and Orillia were represented in a deputation which asked federal aid toward the construction of a cross-country railway connecting these towns.

An Ontario deputation saw the minister of finance with a view to removing a curious anomaly in regard to the soft coal duties. They explained that the vessels of the inland waters on the Canadian side, when not touching international waters, must pay duty of 58 cents on their coal, whereas the same coal is free in the case of boats touching at international points. They asked that the duty be taken off in regard to coal used by vessels not touching international waters. Mr. White displayed much interest in the situation and promised to look into it.

Important tariff changes were asked for by a deputation of coal men from Winnipeg and other western cities. This deputation saw Hon. J. D. Reid, minister of customs, and represented that hundreds of thousands of tons of coal went into the west via Minneapolis. It was screened in Minneapolis and thence sent across the border under the ten per cent duties applied to screened coal. Western coal men asked that they be allowed to screen their coal at the head of the lakes and obtain the advantage of the lower duty under item 537 of the tariff, that is, 14 cents a ton, instead of having to pay the full duty of 56 cents per ton for round and run of mine coal. It was explained to the deputation that this request could not be granted without tariff legislation. The question will probably be made the subject of investigation by the tariff commission.

Methods Adopted by Supporters of Dynasty in Manchuria—Thirty-Seven Killed at Mukden

their leaders as rapidly as they can be identified.

Attacked by Miners
MADRID, Feb. 1.—A sensation was caused by a debate in the chamber of deputies today when Antonio Maura, former premier and leader of the Conservative party, attacked the Liberals on the ground that they were sanctioning the acts of the revolutionists, which he declared, indicated the approaching fall of the monarchy. Premier Canalejas defended the Liberals as better qualified to govern Spain. Their view policies would be continued, he added, in spite of the attacks of the Conservatives.

SEA TRAGEDIES
Body of Japanese Found Floating Off Galiano Island—Drifting Boat Is Picked Up
NANAIMO, Feb. 1.—The body of a Japanese was discovered floating off Galiano Island on Tuesday by the Sila brothers, who informed the provincial police. The body was recovered yesterday by Constable Cassidy. It was fully dressed and bore evidence of having been in the water for a considerable period. It is now at a local undertaker's awaiting identification.

A boat has been picked up off Valdez Island bearing the initials "J. W." thereon, and it is believed some mystery underlies the circumstances, from the fact that close by and just above the high water mark clothing has been found. On the latter being examined there was found a union certificate on which it was only possible to decipher the word "Anderson." The owner may be connected with the mystery of the boat, which is now in the possession of Mr. Barsite, Valdez.

POSTAL AFFAIRS ARE DISCUSSED

Postmaster-General Agrees
that Extension of Parcels
Post and Rural Free Deliv-
ery is Desirable

OTTAWA, Feb. 1.—Late this evening Hon. Mr. Pelletier made an interesting statement with regard to parcels post and to cable rates. He foreshadowed a measure of extension of the parcels post, while careful to say that the extension can hardly be as extensive as that asked for by numerous members of parliament. He was careful also to say that the extension of rural free delivery must go on, and that of the two reforms he prefers the rural free delivery. With regard to cable rates, he was more emphatic. He agreed that recent reductions in cable rates had been absolutely inadequate. The government, he said, should not be content to sit quiet and wait. The cable companies must understand that Canada intends to trade with Great Britain and one way of procuring trade communication is by procuring cheap cable rates. Canada is a self-governing colony, but it is also part of a great empire and must share cheap communication with the rest of the countries. He referred to charges that the cable companies are monopolies and are subject to American capitalists. It was the duty of the country to do something with regard to this state of affairs. "We are not satisfied with the present rates, and expect better."

Mr. Pelletier's statement was elicited by a motion by W. F. Maclean on going into supply declaring that the parcels post must be expanded.

Mr. Maclean's principal argument was that if parcels post was extended the express companies would be forced to cut their rates in half.

Mr. Lemieux advocated the nationalization of the telegraphs and telephones, state-owned cables across the Atlantic and extended parcels post. After speeches by Messrs. McCraney and Emmerson, Hon. Mr. Pelletier spoke. He favored the principle of parcels post, but pointed out that there are great difficulties. Apart from such questions as enormous size, great distances and the sparse population of Canada, there were numerous technical difficulties, such as the increased number of mail cars which would be needed, the rates which the railways might charge, alterations in size of the mail bags and fittings, etc. He believed, however, in making improvements, and suggested that he might find means to make the express companies reduce their rates. His statement on the cable rates followed.

The earlier portion of the day was spent on the grain bill.

The South Renfrew bye-election will take place on Feb. 22nd, nominations to be held on February 15.

George Black of Vancouver has been appointed governor of the Yukon. The former governor, Alex. Henderson, having resigned.
