

## PEPPERGRAMS

We doubt, however, whether a radio-phone will ever be as interesting as a party line.

The modern young man may have music in his soul, but most of it seems to be in his sole.

One of the saddest sights of nature is a smart aleck of 18 trying to give the impression that he is a hard boiled egg.

Mr. Edison has invented some more questions. The market was flooded already. What the world needs is answers.

It's rather dangerous these days to make a speech praising "the laws of the land." People may suspect that you are a bootlegger.

The printers of Germany's paper marks threaten to strike. Proving that some men will strike no matter how much money they're making.

Advice to young men. If the color of her eyes and the number on her auto license tag start sticking in your memory, it's time to watch your step.

Modern Romance. They became engaged. Later they decided to break it off. Their tastes were not congenial. They smoked different brands of cigarettes.

If the truth were known some men likely are so conceited that they write letters to themselves starting with "Dearest," and ending with "Lovingly Yours."

The Mayor of Hamilton is reported to have said, after looking over the estimates of the Dominion government: "Just think, not a smell of anything for Hamilton." What does he want, a civic abattoir or a glue factory?—London Advertiser.

## OF PASSING INTEREST

Only four passengers were killed on the Canadian railways last year, out of a total of fifty one millions carried.

During the last four months that the agricultural development board has been functioning, the province has lent to farmers in long term loans more than half a million dollars—to be exact \$571,579, in addition it has advanced \$25,000 in short term loans.

The importation into Canada from Europe of bees, used or second-hand hives, or raw hive goods or products, excepting honey, is prohibited on and after the first of May, 1922, according to an order issued by the Federal minister of agriculture. The order, a statement issued by the department of agriculture says, is necessary owing to the danger of introducing a contagious disease of bees known as the "Isle of Wight Disease."

The farmer is now starting on his annual gamble with nature. He has the promise that "as long as the world lasts, seed time and harvest will not fail," but between seed time and harvest there are many anxious hours for the man who must depend on sunshine and moisture, who must contend with insect pests and other unfavorable factors. Farmers deserve credit for being courageous and optimistic.

## COUNTRY FAIRS NEED HELP

John Farrell, president of the Ontario Rural Fairs Association, will ask the Government to increase the grants to the county fairs this year by \$50,000. "At the present time," said Mr. Farrell, "the Government is making a grant of \$70,000. I am going to ask them to raise this to \$125,000 and if they will do this it will mean much to the small fairs all through the province. An increased grant would enable the fair boards to increase their prize lists and make them worth while. There was a time when a prize of \$5 or so would bring out some of the best stock in the countryside. Now, however, the farmers in general are not interested. They can make more by staying at home and working. The rural fairs are an important matter and should be encouraged in every way possible."

## IN MEMORIAM

In ever loving memory of Mrs. Richard Higgins, who departed this life one year ago, May 7th, 1922. Oh, dear Mother, how we miss you. In the year that has gone by, You have left us, sad and lonely, For a home up in the sky. Heaven now contains our treasure, Earth the lonely casket keeps; But oft we linger, midst tears and flowers, Where our darling loved one sleeps. —Sadly missed by her husband and children.
