—Mrs. Hugh McDonald, Fraser's Mill, Antigonish, died on Saturday last at the extraordinary age of 103 years. The *Aurora* says: "At the age of 100 she was able to walk six miles, visiting her neighbors, and to thread a needle without any spectacles."

DECLINE IN DEALS.—The falling off in the English deal market amounts to fully ten shillings per standard. This has a very material effect upon freights at this port. The only charter recorded this week is the steamer Melrose Abby, which is now loading at Reed's Point. Her rate is 63s. 9d. to the United Kingdom. The shipping season has entirely closed at the North Shore. —*St. John News.*

SUGAR GROWING IN CANADA.—James Allen, a farmer of Dereham township, four miles from Tilsonburg, made 1,800 gallons of sorghum syrup this season, and will make 750 more. He charges farmers who grow and bring cane twenty cents a gallon, it be seen that will respectable profits are made by those who grow it. The industry is spreading in western Ontario.—*World.*

Mr and Mrs. Moody, in their invitations, particularly requested guests to bring no presents for themselves, but that those disposed should bring instead contributions to the Algoma Indian Mission of the Church of England. A silver receiver was placed on the table in the hall, and when the funds were counted it was found to contain over $70.

— By a blunder of the printers in the famous "first column" of the London Times—which has been irreverently described as the "Hatch, Match and Dispatch column"—the headings over the lists of births and deaths in the issue of November 3 were transposed, and everyone can picture to himself the melancholy record of female mortality which resulted. Probably the person most annoyed, leaving the editor out of the question, was the husband who found the announcement of his wife's death "of a son," accompanied by the cheerful statement of, "All well."

— It has been officially reported to the Government that widespread distress is feared in Ireland this winter. The districts most seriously affected through want of employment on farms and failure of potato crop, are Sligo, Ballina, Swinford, and the greater portion of Galway. There is much destitution in West Clare and Connaught owing to continuously heavy drawing upon Irishmen in America to support the Land League. There has been a considerable decrease in remittances to struggling natives in Ireland. This has reduced many natives to the condition of being unable to purchase new seed.

TEMPERANCE RALLY.—Mr. Joseph Burrel, the G. W. P. of Nova Scotia, and Mr. T. M. Lewis, Agent and Lecturer of the Grand Division, S of T., are making a tour through the Western counties. On Monday evening last, in accordance with the ritual, the G. W. P. dedicated a new hall at Stony Beach Lower Granville, erected by "New Caledonia" Division, which numbers 112 active members. Mr. L. addressed the assemblage, and also lectured at Granville Ferry the next evening. On Wednesday evening a new Division was organized at the Ferry, with 26 members. A league has lately been formed in Annapolis county for the purpose of pushing the Scott Act with vigor.

— "No prospect of War" says the New York "Herald;" and continues:

As we supposed, the rumor of an Austro-Russian war is denied; Herr Plener, the excitable member of the Hungarian Reichstag, is disowned; and M. de Giers, the Russian Foreign Minister, will therefore be able to go on in peace to drink beer and talk politics with Prince Bismark at Varzin; and Francis Joseph, the Emperor, will have leisure to accept the King of Italy's invitation to Florence, where he may study the pictures in the Pitti Palace, or go hunting with the hounds of San Rossore, or whisper soft nothings in the ear of the fair Queen Margaret. Meanwhile the Ministers of the Czar will be devising new measures against the Nihilists, and the Ministers of the Emperor will be seeking to pacify the excited populace of Vienna, whom, a few days ago the Uhlans were spearing with their lances and the mounted police were cutting down with their broadswords.

— On Tuesday afternoon last week, Mrs. W. L. Pettit, wife of the teller of the First National Bank of Fort Wayne, apparently died, and the undertaker took charge of the body. Arrangements were making for the funeral, and watchers sitting with the supposed corpse. At 10 o'clock at night a faint sigh was heard coming from the body. The watchers started to their feet with alarm, stepped to her side, found her eyes wide open, while in a voice that was scarcely an audible whisper she recognized them and asked for her husband. For a moment the attendants were speechless with wonder at this resurrection of the dead; then, with the revulsion of feeling, they almost screamed with excitement. The husband came in haste, and with joy unspeakable clasped again his living wife in his arms. The doctor was sent for, and he was as much astonished as the rest of the household at beholding living what in his exact medical science he had declared dead. He administered the proper restoratives, and the patient rapidly recovered.

A NEW ENTERPRISE.—Some capitalists in this city are about organizing a company for the exportation of fresh fish of all kinds for the European and American markets, a process having been invented by a German residing in Bremen, Germany, whereby fresh fish and meat may be kept perfectly sweet and good in the warmest summer weather for from four to eight weeks. Lobsters, boiled or not boiled, can be shipped to England in the shell in perfect condition. Any person having doubts as to the reliability of the foregoing can have their faith strengthened by examining at C. & W. Anderson's a small case of German haddocks put up in Hamburgh some weeks ago and received by the last Allan steamer from Liverpool. These haddocks are as sound and sweet to all appearance as when they first came from the water. The parties refered to we are informed, have secured the patent right for the Dominion.—*Herald.*

Washington Letter.

(Regular Correspondence.)

WASHINGTON, D. C., Nov. 29th, 1882.

In two weeks from to-day, the Thirty-Seventh Congress will assemble for its final session. A large number of senators and faces, absent during the vacation, have been again seen on the streets and about the lobbies of the hotels. The session will be short, for the term of the present Congress will expire on the 4th of March, and, if the usual holiday adjournment is taken, there will be scarcely more than two months for legislative work.

The message of the President is understood to be nearly ready for presentation to Congress, and it is rumored that it will urge the adoption of radical civil service reform measures, the almost total abolition of the present internal revenue system, and a reduction of tariff duties. It is not believed, however, by those who know the temper of Congress, that any important changes in the tariff will be made this session.

The first business that will come before the House of Representatives will be relative to nearly two hundred bills passed by the Senate, and now awaiting the action of the House. These bill are simple in their character, and many of them have already been favorably reported upon by House committees. It is thought that the larger number will be passed without debate.

The Secretary of war will recommend that no river and harbor bill be passed this session, there being an unexpended surplus of $9,000,000 from the appropriation of last session. General Sherman, in his report, has urged an unexpended surplus in his report, and urged an increase of the army, but it is not probable that Congress will see a necessity for such increase. No important legislation, it is thought, will prevail in relation to either the army or the navy. Appropriations will be passed maintaining the military and naval establishments at about their present status. There is much talk in both the army and the navy departments of a more rigid enforcement of real servic upon a large number of gilded shirks from West Point and from the Naval Academy, who manage to remain at Washington, New York, Fortress Monroe, Philadelphia, and Boston, or who get off to Europe, on full pay, thus securing the delights of society and travel at the expense of the tax-payer, and unfitting themselves for the work they were educated at public expense to reform. It is doubtful, however, if legislation can effect this much needed reform. Army and naval officers are so entrenched by relationship and marriage connection with influential senators and members that nothing short of heroism that plucks out the offending right eye will eradicate this evil.

It is expected that the coming fashionable season will be brief, busy and brilliant. I am told by real estate agents that the demand for houses is greater than it has ever been before, and hotel keepers say that this promises to be the most prosperous season they have known. The Garfield Memorial fair will bring a large number of visitors to the city, and many more are expected to come with the beginning of the Congressional Session. A large number will doubtless remain until the adjournment of Congress.

Those who are familiar with the Capital will not fail to observe improvements of both a public and private character. The work of demolishing and rebuilding has been going on all summer. Many elegant private residences have been built, and many streets have been paved and otherwise improved. A new sidewalk has been laid on the north side of Pennsylvania avenue the entire distance from the Capital to the Treasury Department, and this National promenade will doubtless again attract the distinguished and fashionable throng that had almost deserted it.

Wonderful Trotting.

The recent performance of the chestnut mare Yellow Dock, with running mate at Providence, R. I., when she trotted a mile in 2.11, has caused considerable interest in this way of going. Turfmen in the States think that this mare can trot in 2.08, while Johnny Murphy, her driver, claims that she can trot to the half at a 2-minute gait. Several other good performances have also been made during the past 10 days. At the Kenoza Driving Park, Haverhill, Mass., the black stallion, Onawa, with mate, in an attempt to beat 2 12¼, trotted in 2.18½, thereby securing the best time on record over a half-mile, in this kind of rig. Not to be outdone, Robert Bonner had his black mare Manetta hitched with a running mate, and, on Nov. 11, had her driven to road wagon, over his own three-quarter mile track, two miles in 4.27¼. The first mile was made in 2.14½ and the second in 2.12¾. Competent timers were in attendance, but as the test was not for a prize of any kind, the performance does not constitute a record. —*St. John News.*

TELEGRAPH NOTES FOR THE WEEK

San Francisco, Nov. 16.—Capt. Logan, of the whaler "Rainbow," and his mate, Patrick Comgon, have been bailed in $1,500 each for abandoning a sailor on an ice floe in the Arctic. The crew allege that while chasing a whale the second mate's boat ran upon a floe and stove a hole in the bow. The gun used for shooting whales went off and Edward Lee was shot. Instead of helping the man; who, they believe, was alive, the men under the second mate's order left him on the floe. When the boat returned to the ship the third officer volunteered to go for Lee, but was not allowed to.

London, Nov. 21.—The Queen, referring the decorations at Windsor, said: "I have called you here to-day to express my best thanks for the gallantry and devotion you displayed in the short but decisive campaign in Egypt, to say how proud I am of my soldiers and sailors, who have added fresh laurels to those already obtained in previous campaigns, and of their devotion to their Queen and country." At the close of the Queen's address three lines of men retired, leaving the Queen facing the Commander of the expedition and Naval Brigade. The conferring of the decoration then commenced.

London, Nov. 21.—Admiral Seymour and General Wolseley have been gazetted Peers.

Liverpool, Nov. 23.—There is some prospect of a settlement between the Crofters, on the Isle of Skye, and their landlords. The latter agree to submit the dispute to arbitration. The country police have received a promise of a reinforcement of eighty constables. Many of the Crofters are acquainted with the details of the Irish agitation. The authorities are of the opionion that only soldiers can arrest the offenders.

Trenton, N. J., Nov. 16.—A subterranean fire is eating its way through several acres of land and threatening to undermine several large buildings of the New Jersey Steel and Iron Company. It smokes like a volcano. An iron bar thrust down in several places to a depth of twelve feet was pulled out red hot each time. At night long stretches of the river are aglow with its fire. Many years ago the company began to dump furnace refuse on the bank and covered six or seven acres. Cinders were often dumped while red hot. There is enough coal in the refuse to afford food for a slow fire. Indications of fire four months ago were not heeded. Workmen are digging trenches into which water will be poured between the buildings and heated ground.

Glasgow, Nov. 21.—The final meeting of the shareholders of the City of Glasgow Bank was held to-day. Liquidation will be finished, all the depositors having been paid twenty shillings in the pound.

Ottawa, Nov. 21.—There were no Nova Scotians before the board of Examiners for commissions as Dominion Land Surveyors. All who passed are from Ontario and Quebec.

British American Book and Tract Society.

(*To the Editor of the Monitor.*)

SIR,—Having just returned from a tour in the interest of the Colportage work of the above society, I beg leave through your columns to return sincere thanks to the 650 friends that contributed to that object, and to numerous others who spoke kindly of our work, and bade us God speed in all our efforts to reach the poor and the despised in our land. Acknowledgement in detail will be made in our Annual Report. In a summary form the collections in P. E. Island are as follows:—Charlottetown, $178,49; Summerside, $43 09; Alberton and Montrose, $34 65; Bedeque, $39, Montague Bridge, $20.50; Souris, $16.10; Mount Stewart, $12.02; Georgetown and West River, $13.81, making in all $348.56, in addition to unpaid subscriptions $41.75. Places visited and donations received in New Brunswick as follows:—Shediac, $19.86; Moncton, $60.30; Kingston, $26.80; Richibucto, $24.66; Chatham, $53.82; Douglastown, $24.21; Newcastle, $35 50; Bathurst, $58.70; Dalhousie, $21.40 and Campbellton, $42 50, making a total for New Brunswick including unpaid subscriptions of $366.75. This shows an increase of $340 over donations received from those places in 1881, for which we are grateful to Him who has moved his people to liberally sustain a work pre-eminently designed to contribute to His glory.

There are now 10 men employed in Nova Scotia; 6 in New Brunswick; 2 in P. E. Island; 2 in Cape Breton and 2 in Newfoundland. Arrangements are being made for work among the lumbermen of New Brunswick during the winter. It is probable that more than 10,000 men spend the winter in the woods. The long week evening and the Sabbaths may be made pleasant to them by the perusal of good books and the evangelistic work of our Colporteurs. Who will give special donations in aid of this much needed work?

Report from our Colporteurs are on the whole most encouraging. Many places are being visited that have not hitherto been supplied with books. I give a brief extract from the last quarterly report of the Colporteur laboring in Lunenburg County:—"I have been for the last fortnight in some dark places, where there are no school houses. In one section they were obliged to select a man outside their bounds as secretary since no person in the district could fill the position. Not a single member of some families in these sections can read a word. Many are most indifferent to education and openly hostile to any tax for its support. A few, principally women, deplore this state of things. A mother told me that her little girl 8 years of age had no one at home to tell her a word in her school book. She would spell out the words but neither father nor mother could tell the poor child what the letters meant. In such sections there is great destitution of books and that, too, when the people say that they have 'lots of books of all kinds.' Some seem to think that one or two books will suffice and find it difficult to understand that all books are not alike. In September I visited a home in which a poor consumptive girl was fast sinking, and one which death has frequently visited during the past few years. I talked, read a portion of Scripture and prayed with her, and hope she is resting upon Christ the sure foundation. I left one or two small books with her and bade her good-bye, while tears of gratitude ran down her cheeks. On talking with her parents I found that they had only a portion of a small print Bible, which to their eyes dimmed with age, and was of no service. I gave them a Bible in good type. The father burst into tears, thanked me earnestly for the gift, promised to have a portion of it read every day to the sick girl and after her death to continue the practice in the family."

With many thanks to the press for the substantial aid given in keeping this work prominently before the public. I remain,

Yours respectfully,
A. N. ARCHIBALD,
Sup't. of Colportage

The Independent

THE "Independent" needs only to be better known to add to its already large list of friends. It has been published for thirty-five years and has acquired a world-wide reputation as the best religious and literary newspaper.

The "Independent" is not denominational. Its creed and field are broader than any sect. As a Christian journal, its aim is to strengthen and extend Evangelical religion and to defend it against the attacks of Materialism, Atheism and unbelief. It is free to approve or criticize in any of the denominations whatever it believes is designed to advance or hinder the progress of the Gospel of Christ.

In civil and political affairs the "Independent" will contend for sound ideas and principles. It fought against slavery and the iniquitous system of the Oneida Community. It is now fighting against Mormonism. It believes in the reform of the civil service and tariff, in the purification of politics and in cheaper postage, and will maintain those principles which the highest ethics and best intelligence requires.

The "Independent" is designed to suit all tastes and wants. We provide weekly stories by the best magazine writers, poems by the leading poets of America and England (we first published in America Tennyson's last poem), and for others, who look especially for instruction, whether in religious, literary, educational, philosophical, or scientific articles, we furnish what no other periodical does or can. We pay large prices to obtain the most eminent writers. Besides the editorials there are twenty-two distinct departments, edited by twenty-two specialists, which include Biblical Research, Sanitary, Legal Fine Arts, Music, Science, Pebbles, Personalities, Ministerial Register, Hymn Notes, School and College, Literature, Religious Intelligence, Missions, Sunday School, News of the Week, Finance, Commerce, Insurance, Stories, Puzzles, Selections, and Agriculture. 32 Pages in all.

We will report in full Rev. Joseph Cook's celebrated Boston Monday Lectures, which will begin in January. Mr. Cook has just returned from a two years' trip around the world, and his lectures this winter will attract greater attention than ever.

OUR NEW TERMS FOR 1883.
One subscription one year $3.00
For 6 mos. $1.50: for 3 mos 0.75
One subscription two years $5 00
One subscription five years 10.00

These reduced prices ($2 per annum in clubs of five or more) are very much *lower* than any of the standard religious weeklies.

"TRIAL TRIP."
In order that one may read a few consecutive numbers of the "Independent," and thus learn its value, we offer a month's subscription as a "Trial Trip," for 30 cents, which can be remitted by postage stamps. Payment of $2.70 in addition will secure the balance of a year's subscription.
