The Wilfley Ore Concentrator Syndicate, Limited.

32 OLD JEWRY, E. C. LONDON.

Agents for the U.S.A. Mine and Smelter Supply Co., DENVER COLORADO.

WE CLAIM THE FOLLOWING FOR THE WILFLEY TABLE:

- 1st. It will successfully handle three or four times more material than any belt concentrator made, without any exceptions.
- 2nd. It will save more concentrates in proportion while so doing and will catch any fine gold, amalgam or quicksilver which may escape from the mortars or plates.
- 3rd. It will make cleaner and more valuable concentrates, thus saving needless expense for transportation of valueless material, and also reducing the smelting charges.
- 4th. It requires little or no attention when once adjusted, and no expert is required either to adjust or run the machine.
- 5th. It will save much expense in power and room as compared with mills using other concentrators.
- 6th. It has no expensive belts to crack and wear out and no complicated machinery to keep in repair.
- 7th. It is the only sensible plan of concentration, as it successfully treats any kind of materials, which is not true of any style of belt machine.

—CATALOGUE POST FREE—

These tables are displacing belt tables of every make, as shown by numerous letters in our possession.

PRICE, - £93. WEIGHT, - 2,450 lbs.

The Wilfley Table is fully covered by Patents in all Countries.
