as a honey district. We would advise you to put on a third story, but use a queen excluding honey board when the colonies get very strong. We had some such colonies last season, though it took much more honey to winter them. Like you we were astonished at their strength and condition this spring. No doubt you will have to use a third or perhaps a fourth story on some of them in the height of the season, should the honey flow be good.

Editor and President.

Asst. Editor and Business Manager.

BEETON, ONTARIO, JUNE 6, 1888.

BUSINESS DEPARTMENT.

We call the attention of our readers to the advertisement of the "Perfect Fruit Preservative," appearing in our advertising columns. This preparation when used according to directions does away with the old time drudgery of roasting over a fire during preserving time, the fruits remain perfectly fresh, and makes preserving a sure thing. Fruit juices, wines, cider, etc., retain their flavor and are kept free from alcohol, fermentation being entirely prevented. grocers or supplied by us.

In ordering nails we must request our customers to add 10 per cent. to the prices as found in our catalogue, to meet the increase which has been made by manufacturers. In another column will be found the revised price list of wire nails and cut nails. This advance is the result of another of the combines which are at the present time agitating the members of Parliament now assembled at Ottawa. A bill is to be introduced which will do away with such combinations, so that it is possible before long we may be able to quote nails at our former prices.

PRICES CURRENT

Me pay 35c in trade tor good pure Beeswax, delivered at Beeton, at this date, sediment, (if any), deducted. American customers must remember that there is a duty of 25 per cent. on Wax coming into Canada.

1-LB. GLASS JARS. SCREW TOP.

We are just advised of shipment from the factory of the first instalment of 50 gross of the above. They are put up in barrels and hogsheads, (the latter for our own local use), and to save breaking bulk when shipping, we append below a table, of the qualities of which the shipment consists,

together with the prices per barrel. In estimating the price, we have calculated the same as for full gross lots, an allow-
