## MEDICINAL FLUID - EXTRACTS.

Our list of FLUID EXTRACTS embraces not only those official in our Pharmacopœia, but also those whose therapeutical value has induced their use among Physicians.

Our many years experience as practical pharmacutists, thorough knowledge of the character and properties of each drug, together with appliances for manufacturing (which for completeness and economy of working, cannot be excelled), enable us to produce a line of Fluid Extracts of unsurpassed purity, activity and reliability. We ask for them the most careful and critical examination and comparison, claiming, as we do, their superiority over almost all other similar preparations in the market. We feel confident our claims will be sustained by any unprejudiced and experienced druggist.

Every detail of their manufacture, from the crude drug to the completion of the operation, is based upon the most extended and intelligent knowledge of the characteristics of each drug.

## SOLUBLE COMPRESSED HYPODERMIC TABLETS.

We claim for our Hypodermic Tablets : Absolute accuracy of dose ; Ready and entire solubility ; Perfect preservation of the drug. Their convenience and utility will at once be apparent on examination.

NOTE.—For convenience in ordering, it will only be necessary to specify the Numbers on our price list.

They are put up in cylindrical tubes, convenient for carrying in hypodermic or pocket cases, each tube containing twenty tablets, ten tubes, or two hundred tablets, in a case.

We also furnish neat leather pocket cases holding 10 tubes, with space for Hypodermic Syringe and Needles. These can be filled with any kinds on the list that may be required (price \$1.00 for the empty case), with name and address printed on case in gold letters, and the list price added for the tubes ordered to fill case. They will be sent by mail, postage paid, on receipt of price, by addressing the

## NOTICES OF MEDICAL JOURNALS :

*From the Lancet Analytical Records.*—"Fellows' Syrup contains the hypophosphites of iron, quinine, strychnia, manganese, lime and potash—the strychnia amounting in a dose of one drachm to one sixty-fourth of a grain. The preparation therefore includes a number of powerful nervine tonics. The reaction of the preparation is practically neutral—an advantage in many cases where the acid solutions of quinine and iron are objectionable or inadmissible. The compound is skilfully prepared, and the difficulties of keeping the remedies which it contains in solution, and in a form in which they are not liable to change, have been very successfully overcome."
