FROM WINTRY NORTHERN BLASTS TO SUNNY SOUTHERN CLIMES

Farming, Stock Raising and Fruit Growing are highly profitable in

Virginia and North Carolina

Because of mild winters, long growing seasons, good markets and high prices for farm produce. \$15.00 an acre and up buys improved farms and old plantations near railroad stations on the

Norfolk & Western Railway

Abundant rainfall, modern schools, good roads, low priced lands and best social conditions, make the New South very attractive. Write for our beautifully illustrated magazine, maps, excursion rates, timetables and other literature.
