Products/Services

Peritoneal dialysis cyler • Tubing sets • Heaters

Current Export Markets

U.S.A., Asia

Company Summary

Medionics International Inc. is a leader in the design and manufacture of peritoneal dialysis equipment. Established in 1976, the company has more than 1,200 units installed in major hospitals worldwide and holds several North American patents for its products. Electronic and mechanical improvements in peritoneal dialysis therapy originated by Medionics' extensive research facility have been adapted by leading dialysis manufacturers. In addition, the company has developed a new line of disposables and connections, and is currently applying its expertise to other areas of medical disposables.

Company Summary

Meditron Corp. was established in 1973, originally to distribute medical products. Over the years, the company developed and then manufactured its own line of products, which are marketed under the brand name, Meditron. The company has two manufacturing facilities with space totalling 13,500 square metres (150,000 square feet), five distribution outlets across Canada and employs about 200 people. Private labelling is offered and all products are available for export to markets worldwide. Meditron is a subsidiary of Mavtech Holdings Inc. of Montreal, Quebec, Canada.

U.S.A.

Company Summary

Med*Ex Diagnostics of Canada Inc. was established in 1981 to research, develop and manufacture fitness, health and medical equipment. The company's physiotherapy rehabilitation equipment and neonatal care centre are manufactured in a modern fully-integrated 1,800-square-metre (20,000-square-foot) manufacturing facility that employs 50 people. The company exports more than 90 per cent of its products. Med*Ex's innovative engineering department is continually evaluating new products and ideas for future development and manufacture.

*Med*Ex's Dynatrac provides complete extremity testing, concentric and eccentric loading, and computerized printouts.*
