

- 3.3.4.3. For all other design changes the approval of the Exporting Party constitutes a valid approval of the Importing Party without additional action.
- 3.3.5. Changes to the design of a Civil Aeronautical Product for which the importing Party has issued a supplemental type certificate shall be approved as follows:
- 3.3.5.1. The Exporting Party shall classify the design changes in two categories in accordance with the working procedures determined by the Joint Sectorial Committee on Certification.
- 3.3.5.2. For the category of design changes that require the involvement of the Importing Party, the Importing Party shall approve the design changes following receipt of a written statement by the Exporting Party that the design changes comply with the certification basis as set out in Paragraph 3.2. In order to fulfil its obligations under this subparagraph, the Exporting Party may provide individual statements for each design change or collective statements for lists of approved design changes.
- 3.3.5.3. For all other design changes, the approval of the Exporting Party constitutes a valid approval of the Importing Party without additional action.
- 3.3.6. Repair designs of Civil Aeronautical Products for which the Importing Party has issued a Type Certificate shall be approved as follows:
- 3.3.6.1. The Exporting Party shall classify the repair designs in two categories in accordance with the working procedures determined by the Joint Sectorial Committee on Certification.
- 3.3.6.2. For the category of repair designs that require the involvement of the Importing Party, the Importing Party shall approve the designs following receipt of a written statement by the Exporting Party that the repair designs comply with the certification basis as set out in Paragraph 3.2. In order to fulfil its obligations under this subparagraph, the Exporting Party may provide individual statements for each major repair design or collective statements for lists of approved repair designs.
