

Stock and Seed Judging

Many farmers and stockmen are anxious to extend their knowledge and to improve their condition, but they cannot afford the time for a Regular College Course. To assist such men, young and old, the Ontario Agricultural College offers a Short Course in Stock and Seed Judging. This Course will commence on the 14th of January next, and last for two weeks.

Admission

No tuition fee will be charged, no entrance examination required.

Any farmer or farmer's son may enter for this Course, the only condition being that he reach the College on the 13th of January, so as to be in his place at 8.30 a.m. on the 14th, and that he attends regularly and punctually at all lectures and demonstrations throughout the Course.

Board and lodging can be had in the vicinity of the College and in the City of Guelph at \$3.00 to \$4.00 per week.
