MILLINERY
We felt confident we were right in our judgment of what would be wanted in Autumn Millinery, and we have received overwhelming endorsement of our opinion. Everyone is agreed that this has been the finest showing we have ever made, and orders are being shown on us. Don't put off until it becomes impossible to promise deliveries, BUT ORDER TO-DAY.

LADIES' SUITS
The perfection reached by us this season in Ladies' Ready Wear Suits has established many. Everyone may be suited in this department with the advantage of not having to wait for tailor's fittings, appointments, etc.

LADIES' COATS
For our stock of these also we have received many compliments, none more convincing, however, than the heavy sales—which have resulted since the new stock was opened up. Those who come early have, of course, the best range of choice, so don't put off until it becomes impossible to promise deliveries, BUT ORDER TO-DAY.

COSTUME CLOTHS
We are showing everything in demand for Ladies' Costumes, of which a mere list in print conveys a poor idea. These should be seen by all careful and appreciative dressers, before making selection for Suit or Gown.

MAKING TO ORDER
Our exceptional facilities for successful making-to-order of Ladies' apparel have been added to and strengthened for this season. Those who have tried us before require no invitation; to those who have not, we say, begin this season.

LAP RUGS
For motoring and other travel, comprising hunting expeditions, etc., etc. Warm and comfortable, pure wool, in great variety of patterns, including splendid range of Scottish clan and family tartans at \$2, \$4, \$5, \$7 to \$10 each.

SEASONABLE UNDERWEAR
New line stock of Ladies' and Children's Vests, Drawers and Combination Dresses in White Scotch Merino make—all pure wool—guaranteed unshrinkable, non-irritating finish, all sizes, cost somewhat more than Canadian makes, but wear much better and don't irritate the skin.

DRIVE IN FANCY LINENS
When last in Ireland our buyer secured a large lot of manufacturers' odds and ends in fancy linens. These goods are of the highest order, all hand-scraped and embroidered, and every thread linen, round and oval.

The lot comprises several thousand pieces, including Finger Boxes and Plate Doilies, Tea Cloths, Tray Cloths, Centre Pieces, Sideboard, Buffet and Dinner Wagon Covers, Bureau and Washstand Drapes, etc., etc., ranging from 4-12 inch pieces at 15 cents to 24 inch sizes at \$12 and all 25 per cent. to 35 per cent. below regular marks.

Realty and Building
Speculation is rife as to the identity of the purchaser of the block from Buchanan-street to College-street, on Yonge. It is known that the entire property has recently been sold to one party, some of the lots bringing as much as \$6000 a foot. On the other hand, leases have been given of some of the stores in the block on terms which do not allow of their cancellation within three years. It has been suggested that the purchaser is an astute speculator who is aware of the owner of the Yonge and Carlton block, and who, consequently, considers that his investment will prove very profitable within a few years. That the Murray-Kay Company is the purchaser seems very unlikely, in view of the three-year leases granted to the present occupants, and the direct statement of that company that they intend to enlarge the present King-street premises.

J. L. Burnand of Burnand & Spain, real estate brokers, Victoria-street, reports the following important sales: Northwest corner of Parliament-street and Wilton-avenue, the vendor being J. Albert Thompson, and the purchaser is believed to be one of the most prominent banks in the city, which is contemplating opening a branch. The property has a frontage of 37 feet on Parliament-street and 122 feet on Wilton-avenue. The price paid was about \$35,000.

158 Crescent-road, Rosedale, for the estate of the late James Murray, to Frank Wood of Ballie, Wood & Croft, \$40,000; 46 Nanton-avenue, \$15,500; 57 Prince Arthur, \$10,500; 123 Admiral-road, \$3500; 79 Holland-avenue, \$6500; 123 Dupont-street, \$2500; 40 Brunswick-avenue, \$2500; 683 Gladstone-avenue, \$2800; 50 feet of vacant land, Admiral-road, at \$105 per foot; 40 feet on Spring-burst-avenue, at \$35; and 167 feet on Royce-avenue, at \$15.

PANTHEISM IN INDIA

THE EVIL THAT DOES

Profound Address Given Last Night by Rev. Henry Haigh at Victoria Theological Conference.

"Pantheism as a Philosophy, a Religion and a Life," was the subject of a scholarly address by Rev. Henry Haigh at the second evening meeting of the Theological Alumni Conference at Victoria University last evening. Rev. Mr. Haigh spoke from his knowledge of Pantheism (a theory of the universe which identifies God with the sum of finite existence, or regards God as the single principle of which these are the manifestations) as it is developed in India, although he had studied it in Germany and was familiar with the Pantheism of Spinoza and Emerson. In India, he said, you see Pantheism in its most perfect development. There it has been worked out fundamentally and rigorously to the furthest inevitable issue. What Pantheism is in India, it would become everywhere in the proportion that its adherents were thro and consistent. The forest sages of India, continued the speaker, were men who took time to enquire into mystery of life. These masters would vocalize their musings, not dogmatically, but tentatively, and pursued objections to a finality for the sheer love of refuting them. The topics were few in number, but great in contents. They considered such subjects as the gods of sacrifice as being the sheer love of refuting them. The topics were few in number, but great in contents. They considered such subjects as the gods of sacrifice as being the sheer love of refuting them.

Our present human life, according to the Hindu, had, at least, three parts: (1) Transience, (2) suffering, eternal. The first represents the haunting sense of insecurity, the second suffering and misery in this life, and the third the confusion of error. It was under the inspiration of thoughts like these that the forest sages of India set upon their quest. To these men science was everything, embodiment was nothing. According to the Hindu the highest expression of Pantheism is that God and the soul are one.

"I am Brahma and Brahma is God; but now and eternally. That is the eternal truth and its realization is the Pantheist's heaven," said Dr. Haigh. "The idea of an absolute principle of unity, which combines all thinking things, all objects of all thought, is the ultimate essential principle of our consciousness. This unity is the Pantheist's heaven, and the eternal god of every conceivable quality and when they have stripped the entity bare, and not a single ray of identification is left, they cry: 'Behold the One.'"

The Hindu deny the theory of creation, because they say if there was creation there must have been a motive, and if a motive you give to the soul entity a quality and thus destroy it. According to the Hindu there are three kinds of existence, that which is true, that which is real (Brahma), and the absolutely false. Behind the phenomenal, that which we mistakenly suppose to be the real, there is a reality. This doctrine the Pantheist preaches with untiring persistence and an infinite variety of illustration, and in the final analysis declares that all things are illusory.

Continuing, Rev. Mr. Haigh pointed out that this conception led to idolatry, because of every thing worshipped was in fact illusory, and was really an eternal entity. No Pantheist, he asserted, could ever have written the 13th Psalm. A lie was as good as the truth if it served the purpose, and truth did not avail if it resulted in failure. It was a commonplace observation that every course of conduct, whatsoever its essential quality, was justified by its success.

"Pantheism destroys all sense of moral responsibility. I am only a photograph of God. I am only registering and repeating the utterances of another," said Mr. Haigh, and in conclusion drew pictures from his own experience where a prisoner convicted of a crime had declared that God had done it, and by God he would be punished. This vicious conception led to thousands of murders every year in India, thru the institution of child marriage. So great was its power that during famine times Hindus refused to accept food from Englishmen for fear of losing caste, and thus suffer at the hands of the community.

"Religion is education, and education is one aspect of religion," said Rev. Charles A. Sykes, D.D., in an address given at the morning session. The teacher is a laborer for God and a co-worker with the eternal.

MELBA'S SUPERB VOICE

DRAWN RECORD AUDIENCE

Massey Hall Never Held a More Valuable "House"—Splendid Program by Prima Donna.

Toronto's musical season opened last night in Massey Hall with an unprecedentedly successful concert. The audience, the performers and the program were on a par with the very best that may be expected during the approaching winter, and it will be a wonderful occasion which exceeds the Massé opening in interest. Every part of the house was packed, the platform being filled up with rush seats, and all available seats, even behind the organ pipes, were occupied. Upwards of 1000 people were turned away. The receipts exceeded \$5400, which is an actual record. The audience was highly fashionable and appreciative beyond the wont of fashion.

The most wonderful item on the card was Madame Melba's rendering of "Tosca's 'Goodbye'." Melba has nothing to acquire in musical art and her voice continues as clear and as true as a silver bell. In the rivalry of matchless voice and mellow flute, which distinguished the company, has not yet chosen a chairman, but it is understood that Judge McGibbon will be elected to this office also.

N. S. Dunlop, head of the C. P. R. fiscal department at Montreal, has organized a competition for station best kept gardens and also for the best photographs of gardens. It is, perhaps, unnecessary to add that the Toronto Union Station has not entered the competition.

The new C. N. O. Lake Superior line, now in course of construction between Sibley and Port Arthur, has no gradient higher than one-half of one per cent. As this is much better than the grades on the C.P.R. between the same points, it is possible that the latter may be largely superseded by an agreement with the former, whereby the C. P. R. thru express trains may be run over the C. N. O. line. As yet, no proposition has been submitted by either company.

The superannuated employees of the C. P. R. are the latest to have a grudge against the company. They have been receiving from \$30 to \$100 a month, according to their previous salary, and they intend to send a deputation to Montreal to ask Vice-President McNeil for a ten per cent. increase all around. In view of the company's largely increased earnings, they are confident of gaining their demand.

It is understood that the Niagara, St. Catharines and Toronto Railway Co. have placed an order with the Colingwood Shipbuilding Co. for a new steamer, 210 feet in length, and cost \$150,000. The new steamer, which will probably come out in the spring, will be very substantially built, so as to be particularly adapted for the early and late seasons. It will run between Toronto and Port Dalhousie, in conjunction with the Lakeside and Garden City.

Last night's Winnipeg train was one of the biggest of the season. It consisted of the four-car, and so reached from one end of platform 6 to the other. The make-up was as follows: Two engines, one box car, four baggage and express cars, two colonettes, one first-class, one tourist, one diner, four sleepers, all bound solid for the west.

NO BIDS FOR BREWERY
Auction Sale of Port Hope Plant Was Not Attended.
Who wants to buy a brewery? Yesterday afternoon, at Suckling & Co.'s auction rooms, on the order of E. R. C. Clarkson & Sons, the property and business of the Port Hope Brewing Co., Limited, lately gone bust, was offered for sale to the highest bidder.
All due ritual and ceremony were observed with regard to the function, but on rather significant detail was lacking: there wasn't anyone on hand with a bid. After waiting for a proper interval, the auctioneer adjourned, and now things are no farther forward than they were when he started.
It was stated last night, that in view of the lack of interest in the auction, the property will probably be disposed of privately.

C. M. A. ADOPTS A POLICY OF CALLENCE

The building of a C. P. R. spur line from West Toronto to Oakville should not be taken as a positive indication that the company will cease to use the Union Station or the Grand Trunk lines from the west. It is known that the C. P. R., on account of the T. H. and E., will pay a share of the expenses of separating the Grand Trunk grades at Sunnyside.

Following the withdrawal of the summer train service by the Grand Trunk Railway, the T. and N. O. connection at North Bay, 11.30, for Cochrane, with the Grand Trunk steamboat express leaving Toronto at 2.05 a.m., will be discontinued to-day, and the corresponding train leaving Cochrane to connect with the night train from Muskoka Wharf will also be canceled.

The appointment of Judge McGibbon of Brampton as chairman of the board of conciliation to investigate the demands of maintenance-of-way men on the C. P. R. lines of the G.T.R. has been approved by the government. The other members of the board: J. W. Dawsey, representing the railway, and W. J. L. Wilson, representing the men. The board to investigate conditions on the C.P.R. and C.N.R., composed of Mr. Lee, for the men, and F. H. McGuigan, for the railway, has not yet chosen a chairman, but it is understood that Judge McGibbon will be elected to this office also.

The new C. N. O. Lake Superior line, now in course of construction between Sibley and Port Arthur, has no gradient higher than one-half of one per cent. A CLOSE VOTE
Official Count Will Decide Whether It Is Roosevelt or Sherman.
NEW YORK, Sept. 21.—It will require the count of the delegates to determine if Vice-President James S. Sherman or Col. Theodore Roosevelt will be the temporary chairman of the Republican state convention, which meets in Saratoga on Tuesday noon. This was made certain to-day when a compilation of the list of delegates was possible following the final up-state primaries of yesterday.
There is unlikely to be a majority of more than 10 or 15 either way, despite the confident claims made by both managers to-day.
Vice-President Sherman was defeated in his own election district, his own ward and his own assembly district by the Progressive Republicans at the primaries in Utica, but carried the city by gaining delegates in a scant majority of the wards.

OTTAWA SUFFRAGIST DEAD.
OTTAWA, Sept. 21.—(Special.)—Mrs. H. Brown, who was the leading spirit in the women's suffrage movement in Ottawa, died this afternoon. She was a daughter of Mrs. Dr. Youmans of Winnipeg. One of the deceased lady's sons is a reporter on The Montreal Witness, and another is one The Ottawa Free Press.

FRENCH DICTATORSHIP

ME AGE TO COUNTRY

Kingston Standard Says English Speaking People Must Assert Themselves.

KINGSTON, Sept. 21.—In a leading editorial under the heading "French and Irish Roman Catholics," The Daily Standard comes out strongly in disapproval of the attack by French-Canadian newspapers upon Archbishop Gauthier of this city. The Standard says in the expressed objection to Archbishop Gauthier, because he is an English-speaking prelate, not only a concerted movement on the part of the French Catholics against the English-speaking Catholics, but also a revolt against the expressed will of the authorities of Rome.

But of greater significance still, the Standard declares, is the unmistakable fact that "The Ottawa French-Canadian Catholics are in this matter putting their race before their religion." "The Roman Catholic," the Standard says, "in effect say that the church shall consider a man's race before his religion, and as it is with them in this church matter, so it seems to us has it lately been in the affairs of state, that they have themselves with the French-Canadian afterwards and that as French-Canadians they must be judged and recognized."

The Standard sees in this condition of affairs a menace to Canada, her people and her best interests, and declares "The English-speaking people must assert themselves without prejudice or passion, but firmly and courageously, nevertheless. It will not do to let the French minority longer delude themselves with the belief that they can control this country, or assume the position of dictators."

The Standard also warmly defends Bishop Fallon of London for his order interdicting the teaching of French in the schools of his diocese, and points out that the attack by the French press upon him as an "Irish Bishop," is absurd, inasmuch as the church "knows no race," as Bishop Fallon, a native-born Canadian, is Bishop, not of the Irish Church, but of the Roman Catholic Church.

The Standard believes that there is a danger that as the French Revolution altogether rejected Christianity, in any event, inasmuch as the spirit of infidelity. It believes that Bishop Fallon recognizes this, and in any event, inasmuch as the spirit of infidelity, it believes that Bishop Fallon, a native-born Canadian, is Bishop, not of the Irish Church, but of the Roman Catholic Church.

MITE-BOX RECEIPTS
Contributions of Small Coins to Sanitarium.
It was the late H. C. Hammond, ever to be remembered as a friend of the poor, who inaugurated the mite-box system of raising funds in aid of the Toronto Free Hospital for Consumptives.
The secretary of the Free Hospital Board has been busy in the past few weeks making collections of mites contributed in the boxes left in various places of business, and sums were gathered up as follows:

Members of the Free Consumptive Hospital Board are contemplating a considerable extension of the work of securing support for the free hospital, and thus giving opportunity to all passer-by to help in this most commendable work.

BIG FUR MERGER
Holt, Renfrew & Co. Absorb the Dunlop, Coppe Co. of Montreal.
MONTREAL, Sept. 21.—Two of the leading Canadian fur houses with branches and warehouses in leading Canadian cities have completed a merger. They are Holt, Renfrew & Co. of Quebec, and the Dunlop, Cooke Co. of Montreal. The merger will result in the output of the two firms being \$2,000,000 annually. The Winnipeg business of W. J. Hammond is also absorbed.
The new company will be known as the Holt, Renfrew Co., Limited. The negotiations for the merger have been in progress for some months, and the new Holt, Renfrew store in Toronto was erected with a view to their completion. The business, as before, will be managed from Quebec. A new building is in course of construction in Montreal, and another will likely be built in Winnipeg soon.
