JOHN CATTO & SON
TORONTOG.N.W. EMPLOYEES
TO STRIKE TODAY

Operators and Linemen May
Be Followed by C.P.R.
Men Shortly.

PRESS MAY SUFFER

Two Hundred Men in To-
ronto Are Affected by
Today's Order.

The employees of the G. N. W. Tele-
graph Co. throughout Canada, and in-
cluding a thousand operators and another
thousand linemen, go out on strike at
ten o'clock this morning. This was
the information given out late last
night by C. E. Hill, deputy president
of the Commercial Telegraphers' Union
in Canada. Mr. Hill stated that the
C. P. R. and Canadian Press opera-
tors and linemen, numbering 6000
men, might follow up the lead of the
G. N. W. men, and declare a sympathetic
strike in a few days if the govern-
ment failed to bring about a settle-
ment of the differences between the
G. N. W. employees and the company.
S. L. Konecny, president of the
union, was to have visited
Toronto, but was held back in Chi-
cago on account of the L. J. Breslin
case of the Western Union Telegraph
Company, who were summarily locked out
by the former owners of that system,
and who have not yet been reinstated
by the United States Government.

How Trouble Started.

The present strike is said to have
resulted directly from the refusal of
Z. A. Lash, president of the G. N. W.
Company, to reinstate two employees,
Thomas Taylor and George Thomp-
son, recently acquitted in a court of
justice of the charge of illegally using
the wires of the company to procure
racing information. The C. P. R. men
had small differences of their own,
but these were being adjusted by a
board of arbitration under the Indus-
trial Disputes Act in Montreal, and
were deciding to strike only in sym-
pathy with the G. N. W. men. This
board of arbitration considering the
case of the C. P. R. employees in Mon-
treal, was, Mr. Hill said, in agree-
ment with a principle the G. N. W. Co.
was bound to follow under an agree-
ment entered into with the government,
and which this company had so far
refused to consider. Had the com-
pany done so there would have been
no criminal proceedings in a court of
justice, and perhaps, therefore, no call
for the present strike.

ALCOHOLIC POISONING
IS JURY'S VERDICT

"We find that Joseph Millville, 117
Centre avenue, came to his death from
the effects of alcoholic poisoning, self-admin-
istered." Such was the verdict
of the jury at the morgue last night
who were empaneled to inquire into the
death of Millville.
Evidence given in a former sitting
brought out the facts that the man had
been a heavy drinker of almost every-
thing that had a trace of alcohol in it.
"Dandruff Cure," and many other patent
preparations, it is said, were used
by him. Coroner L. J. Breslin
conducted the inquiry.

CHAUFFEUR IS ACCUSED.

Charged with the theft of a motor car
from Martin Merry's West King street,
by whom he was employed as a chauff-
eur, Clarence J. Rose, who gives his ad-
dress as 2255 West Dundas street, was
arrested by Detective Walter McConnell
of Court street station last night. Rose
is alleged to have taken the car out on
Saturday at noon and not to have re-
turned it until Sunday night.

JAPANESE ACTOR

IN "THE BRAVEST WAY"

"The Bravest Way," the Paramount
picture, with Sessue Hayakawa, the
renowned Japanese actor, as the star,
was the feature at the Strand Theatre
last night. The story is one of pro-
found, of poignant and pathetic ad-
venture, and yet it is a simple one. The
here is an ambitious Japanese gardener,
who sacrifices his love out of loyalty
to a murdered friend. He marries the
latter's widow in order to provide for
her and her children, who he loves
another devotedly.

He succeeds in saving his former
sweetheart from the advances of a
scoundrel, and later when his wife is
on her deathbed, he brings her his first
love. The dying wife tells the girl of
what sacrifices the man has made for
her and the children, and after her
death the lovers are reunited.

As will be seen from the above
short description of the film play there
is ample opportunity for the display
of deep emotional acting, and as in
Japan friendship is really a religion,
Hayakawa is seen at his very best in
this picture.

The film is an admirable example
of the art of the cinema photographer.
The staging is remarkably fine, and
the acting of all those who take part
in the picture of the very best. "The
Bravest Way" which will be repeated
today and tomorrow should attract
crowds of houses in the popular film
theatre.

The offering for the last three days
of the week in "The Rejuvenation,"
with Pauline Frederick in the leading
role.

lington street, corner Bay, Adelaide

CHILD STRUCK BY MOTOR.

Was Crossing Street When She Ran in-
to Automobile.
Bessie Steine, aged 4, 316 West Rich-
mond street, was removed to the Gen-
eral Hospital yesterday evening in a
police ambulance suffering from slight
cuts about the head which she received
when she was struck by a motor car
driven by Fleetman Burton, 456 Rox-
ton road.

According to the police the child was

crossing the street and was wearing the
opposite curb when the motor struck
her. The driver made a report of the
accident to the police of Ossington av-
enue station, but was not detained.

NON-SUPPORT CHARGED.

Charged with the non-support of his
wife James Ferrar, who gives his ad-
dress as 24 Atkinson avenue, was ar-
rested yesterday by Detective Levitt.
Ferrar is alleged to have married the
woman in Ottawa and then to have put
her on a boat for England. It is stated
that he failed to send her any money,
and she returned and laid the charge
against him.

TORONTO HAS RECEIVED
HALF ITS COAL SUPPLY

But as Yet the Average Householder Cannot
Get Even the Promise That He Will Get
His Share for Coming Winter.

Coal shipped to Toronto for the first can
make more money doing any
other kind of work than they can
hauling coal.
The different coal offices of the
city were besieged with inquiries for
coal yesterday. Orders placed last
March, April and May have not been
filled yet. This is admitted by the
dealers themselves, but they have a
hard time explaining to their cus-
tomers why this is so. "They can't
make deliveries now with the coal
coming in freely, what will they do
when the cold weather comes and
coal is scarce?" asked one anxious
customer. However, there is this to
be said: the householder who has had
lost to know what he can get in the
but the man who is now seeking to
place one has every reason to be
worried as to whether he will get it
or not.

One-Half Delivered.
It is pointed out that: United States
Fuel Controller Garfield has fixed the
amount of coal to be exported to Can-
ada, and of this nearly one-half has
already been delivered to the port of
Toronto and still there are thousands
in the city who have not a pound in
their cellars and no immediate pros-
pect of getting any.

The following official statement
was issued yesterday by R. C. Harris,
fuel controller for Ontario, and the
householder can take whatever com-
fort he can get out of it:
Mr. Harris' Statement.

"At the present time there is no
justified cause for alarm. The state
Toronto householders face a serious
coal famine. The fuel administra-
tors of the United States and Canada
are co-operating, and the coal de-
liveries are being made as fast as
the supply of coal. We are entirely de-
pendent on the United States in cen-
tral Canada, and a large portion of
eastern Canada, and the fuel admin-
istration of the United States is treat-
ing Canada as if it were a state of
the union, and giving us every con-
sideration with their own people. We
owe a lasting debt to the United
States fuel administration, who ap-
preciate the rigorous Canadian climate
and the difficulties of winter trans-
portation and all the obstacles which
the Canadian administration has to
confront, and with this view they are
co-operating to the utmost to in-
sure the people of Canada receiving
fuel treatment with the people of the
United States."

On April 19, after my return from
Ottawa, I issued a public statement
thru the press to the people of
Ontario pointing out the coal prob-
lem. Mr. Nease, representing the
United States administration, ad-
vising of the necessity of fuel con-
servations, and giving us coal for
year. I stated that people should
not expect to heat their houses to
a comfortable degree, but should be
able to get coal for the winter only.
Mr. William Hearst also urged the
people of the province to observe
economy in coal consumption, and
to conserve fuel by every effort to
provide a substitute for coal. To
this end the government had advised
the municipalities of Ontario that they
may cut down in Algonquin Park
against next winter's needs. A com-
paratively few municipalities have
done this, and the fuel administra-
tion of Canada is alive to the situation in a greater de-
gree than anyone else in the Domi-
on. We will pay every effort to
cope with the situation."

PLAYS, PICTURES AND MUSIC

"THE OLD HOMESTEAD"
REVIVED AT ROYAL

Everybody may have seen "The Old
Homestead," but everybody has not
seen Thomas A. Wise as Joshua Wil-
son, the hero of "The Old Homestead."
These are reasons enough to pay
another visit to the classic old comedy
of New England life which the Robins
players revived last night at the Royal
Alexandra before a most amused and
enthusiastic audience. It is not to be
supposed that the play is a mere re-
production of the old play, but it is
taken as a whole, it is as complete a
picture of the life of the old New En-
gland as any of the ancient pieces.
It has the vitality of the old play,
it could not have survived. Mr. Wise's
presentation of the kindhearted, sim-
ple-minded, but shrewd old farmer
is the kind of thing that a devotee of
the theatre who has seen Denham
Thompson will be glad to have in his
recollection. There are not a few who
give the palm to Mr. Wise's interpreta-
tion. It is at any rate worthy of a
companion frame with that of the
creator of the part, Mr. Robbins gives
one of his very best little studies in
the character of Happy Jack. It might
perhaps be objected that no trace of
Happy Jack is left in Jack Hazard,
but the Alfred Jingle phase is happily
done. Jack Amory and John Maurice
Sullivan positively revel in the scenes
between Prime and Seth Perkins. Vello
Webb is the Hoboken Terror of the
third act and Miss Helen Travers is
Aunt Matilda. Besides these famous
characters, a host of other characters en-
gaging the full strength of the company
and filling the stage in a final country
dance to the tune of "Turkey on the
Loose." The scenery is one of the features
of the production, particularly the farm
yard set of the first act with its real
cows, the Grace church and the third
act, with the Salvation Army band,
maintains all the traditions of realism.
Joshua's final words to fathers and
children before the dance are worth a
lot of hearing and the good old
drama will no doubt create a new
series of pleasant memories.

Guillotine revived
in Hippodrome Play
Theda Bara as Countess Du Barry,
the captivating court beauty of Louis
XIV, gives a most interesting and
realistic portrayal of this famous
character that was so instrumental in
bringing on the revolution in France.
The production of this play, from
an educational viewpoint it is a pic-
ture that deserves much praise, as the
mob scenes, especially the one in
which the guillotine is used, are re-
markably well shown. The play
shows very marked the spirit of the
French revolutionists. Miss Bara,
scored by the court, loved by King
Louis XV and won by De Brasse, dis-
plays her remarkable histrionic ability
in this high class film.

The Jazzland Folies, a group of
musicians, dancers and acrobats, have
an excellent turn. Gilmour and Le-
moine are well received in a comedy
sketch, and George Rowe, the black
face, has some new and funny
songs and monolog, and Ward
Brothers, a pair of clever acrobats,
fill to fill out a good bill.

GOOD VAUDEVILLE BILL
AND PICTURES AT LOEW'S

"Hit-the-Trail-Holiday," this week's
feature film at Loew's Yonge Street
Theatre and Winter Garden, stars
George M. Cohan. "The Yankee Doodle
Boy," who appears as Billy Holliday,
a bartender, who is reformed, and
thru love for a girl becomes a strong
prohibitionist. This character is the
protagonist of Billy Sunday's famous
evangelist, and in its portrayal Mr.
Cohan exhibits all the quaint man-
nerisms and methods that have made
the evangelist a success as a pulpit or-
ator.

The vaudeville is headed by Jimmie
O'Neill and Frank Walmesley, the cele-
brated duo, who introduce "Comicalities of Life," which makes
many laughs. Another outstanding
feature is Henry Horton and Company
presenting "The Komic on the
Kable," which shows great skill. Other
features are Loew's Pictorial Weekly
pictures and "Mutt and Jeff" animated
cartoons.
