LIVE STOCK MARKET

Trading at the Union Stock Yards yesterday

for all classes of cattle indicated

a very steady to strong demand for practically

all grades, and, with moderately

heavy receipts---old head, all told---there

was a good clean-up. There were some

what there were, sold up 20c above average

day's market. There was a good demand

for other steers and heifers, as

well as for good, fat cows, but the

market was not so active, and probably

a shade off. Taken all round, a

moderately satisfactory market, considering

the general quality of the cattle.

The lamb trade is very strong, with

the sheep holding steady, but the feature

on the exchange yesterday was the big

market in calves.

Not in many a long day has the calf

market been so active and high, a good

\$1 to \$1.50 over last week, with light

receipts, and the demand far from satis-

fied. With choice calves selling up to

as high as 15c and 16c a lb., and lower

grades in proportion, choice calves are

at a glance just how strong the calf mar-

ket is.

A run of 2450 hogs and a good

deal of uncertainty as to the fed and

waited figures, but the market was

learned, is from 15c to 18c a lb., fed

and watered, the bulk at the latter price,

and 17c to 18c a lb. for the

Personal Market Note.

Fred Maybee, one of the best known of

the younger stock raisers, has returned

exchange, and associated with the H. P.

Kennedy, Ltd., has been promoted to the

position of manager of the company, with

department of the company. With

Fred's unfailing courtesy and well-known

ability, the appointment is a

good stroke of business for the H. P.

Kennedy, Ltd.

NO ARGENTINE CORN FOR UNITED STATES

Denials That Imports Will Be Permitted Cause Prices to Rise.

Chicago, Jan. 8.—Fresh advances in

the corn market took place today owing

to explicit denials that imports of corn

from Argentina would be authorized. The

market closed unsettled, 1/4 to 1/2 net

higher with January 1.48 to 1.48 1/2, and

May 1.41 to 1.41 1/2. Oats finished half

off to a like advance, and provisions

varying from 30 cents decline to a rise

of 7 cents.

As soon as trading began corn immedi-

ately went to the highest prices yet

seen for a year, and the market was

dominated by a bearish reaction, espe-

cially as a result of the Argentine corn

denials, and the market was
