

# T. EATON CO. "Canada's Greatest Store"

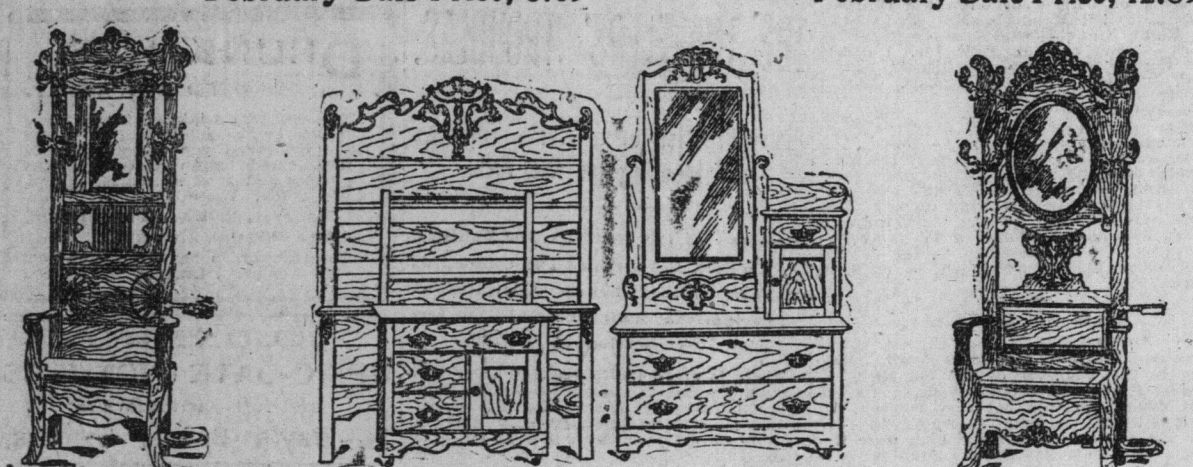

## February Furniture Sale.

One of the most important events of the year—our February Furniture Sale. Important because of its magnitude and its remarkable values. Thirty-seven carloads of perfectly new Furniture gathered together from reliable manufacturers at prices that cannot be duplicated outside this store. Months ago we began preparations by placing large orders for cash with manufacturers during their quiet seasons. For weeks a steady stream of Furniture has been pouring into this place only to find a brief resting place. Commencing on Tuesday this store will be the source of a second stream diverging into hundreds of homes all over this city and country. The merest suggestion of our February prices is possible to-day; the rest is left for your personal visit to the department on the Second Floor.

No. 55—Bedroom Suite, Hardwood, Antique Finish, neatly hand carved. Bedstead 4 feet 2 inches wide; Bureau 3 feet 6 inches wide, with 20x24 inch bevel plate mirror; Washstand 30 inches wide. Regular price \$11.  
February Sale Price, 8.69

No. 67—Bedroom Suite, Hardwood, Antique Oak Finish, hand carved, new pattern. Bedstead 77 inches high, 50 inches wide; Bureau 72 inches high, 41 inches wide, fitted with 22x28 inch bevelled British plate mirror; Washstand, with large size Washstand. Regular price \$10.75.  
February Sale Price, 12.89

No. 161—Hall Rack, Hardwood, antique oak finish, box seat 6 ft. 4 in. high, 2 ft. 10 in. wide, 12x20 in. bevel plate mirror. Reg. \$3.75.  
Feb. Price, 4.63

No. 340—Bedroom Suite, Solid Oak, with heavy carvings, strongly made, polish finish. Bedstead 6 feet 4 inches high, 4 feet 3 inches wide; Bureau 3 feet 3 inches high, 18x36 inch bevel plate mirror; Combination Washstand, 2 feet 10 inches wide. Regular price \$24.  
February Sale Price, 16.93

No. 163—Hall Rack, solid quarter cut oak, polished, 6 ft. 9 in. high, 2 ft. 10 in. wide, 12x20 in. bevel plate mirror, heavy double has and coat hooks, with box seat and umbrella stand. Reg. \$13.75.  
Feb. Price, 9.35

No. 48—Sideboard, Hardwood, Antique finish, neatly hand-carved and well finished. 85 inches high, 48 inches wide, 15x25 inch bevel plate mirror. Regular price \$11.  
February Sale Price, 8.38

No. 16—Sideboard, Solid Oak throughout, 50 inches high, 79 inches wide, 15x26 inch bevel plate mirror. Regular price \$10.75.  
February Sale Price, 10.79

No. 7—Sideboard, Solid Oak, heavily hand-carved, strongly made, well finished. 7 feet high, 4 feet 3 inches wide, 18x36 inch bevel plate mirror, with shaped top. Regular price \$20.

Buffalo—P. F. Sherman & Co., Main St.  
Montreal—St. Lawrence Hall Hotel News Stand.

The World is delivered by our own carrier boys at 25¢ per copy per week, per month. Leave your order at office, or telephone 1734.

## FIGHT THE DEAL.

The Yukon Railway deal must be fought. The Rainy River deal must be fought. They must be fought in the Ontario elections and in Parliament. They must be fought in public meetings.

We believe the Liberal party has signed its death warrant in its Crow's Nest Pass deal, Yukon deal and Drummond County deal. The Globe endorses them all.

Public opinion can be roused on these transactions to such an extent that power. It can be done in one session if the people are in earnest.

## PARALLEL CASES.

The Yukon deal was carried out on exactly the same lines as the arrangement made by Dan Rose for the publication of Mr. Ogilvie's report. In each transaction it was represented that the work was urgent and had to be done on the rush. In each case valuable concessions were parted with without regard to their value in the open market. Tenders were not asked for in either transaction. Nothing was known about the intention of the Government to create a monopoly of Ogilvie's report or of railway transportation to the Yukon. The two deals were analogous in every particular. The only difference between them was in the relative money value of the Toronto deal. The Yukon monopolists will make a million for every \$10,000 made by Dan Rose. It is said a quarter of million copies of the report will be sold in the United States alone, so that there appears to be big money in the Ogilvie monopoly. The Government will find it impossible to successfully defend either of these barefaced swindles on the public.

## WHY THE HAND BEGINS TO TRAY.

The completion of the Yukon Railway deal has had a wonderful effect in clearing up several other matters that have been hanging fire lately. It is a curious coincidence that the negotiations between Mr. Heine and the C.P.R. should reach a happy settlement on the day that the Yukon Railway was signed. For months back the Minister of Railways has been back the Minister of Railways has been getting into Rossland. It was a question with the C.P.R. whether it should buy Heine's railway into Rossland or build a line of its own. The Minister of Railways was particularly anxious that the C.P.R. should buy the Heine line. His refusal to sanction the C.P.R.'s plans for an independent line was consistent with his determination that the C.P.R. should accept Mr. Heine's proposition. It was consistent with rumors that were afloat concerning Mr. Heine's part in the personal welfare of Mr. Heine.

The acceptance of the Heine proposition was undoubtedly a condition precedent to the granting of the Yukon Railway monopoly to Sir William Van Home's attorney, William McKenzie. Sir William Van Home received valuable concessions from the Ontario Government during the past session. We assume, of course, that Mr. McKenzie was as much the C.P.R.'s agent in dealing with Mr. Hardy as he was when negotiating with Mr. Blair. Mr. Hardy's service to C.P.R. interests consisted in his crippling a rival project, the Nipissing and James Bay Railway, and in subsidizing the C.P.R.'s proposed line between Toronto and Sudbury. When the Conservative party was in power the C.P.R. used to acknowledge the favors it received from the Government by handsome subscriptions to the Conservative election funds. At least, this is what the Globe has taught the people of Canada to believe. We have no doubt the C.P.R. continues to fulfill its obligations in the same way. Immediately after the Yukon Railway deal was closed Mr. Hardy announces the date of the general elections. If the Conservatives were in power at Ottawa and Toronto the Globe would say that the meaning of this was that the C.P.R. had squared itself with the party by contributing the amount agreed upon to the campaign funds. At any rate, we know that the Yukon deal has been ratified by the Government, and Mr. Hardy announces his readiness to face the electors.

## THE ELECTRIC MONOPOLY.

We are glad to notice that the agitation carried on by The World for securing cheaper electric power for Toronto has had some effect at least. The Electric Light Company announces that it will henceforth supply current in quantities of 10 horse power and upwards at 2 cents per horse-power per hour. This is a reduction of 50 per cent, and to that extent it will afford relief to those who have been paying the exorbitant rates that have heretofore prevailed. But the schedule of prices in force is still arbitrary and exorbitant. Electricity is a commodity that can be measured as easily as gas. The purchaser of electricity should pay for the exact quantity consumed, no matter how much he uses or for what purpose the current is needed. This is the principle which applies in the distribution and sale of gas. Ninety cents per thousand feet is the price charged everyone, whether the gas is used for light, heat or power. The Electric Light Company has a schedule of prices that is based on the principle of charging the consumer the highest rate that the conditions surrounding each particular case will permit of. There is one rate when the current is used for lighting stores and offices; another when it is employed to furnish light in private houses. It is against the rules of the company to run a small motor from a light wire, although the motor may use exactly the same amount of current as the light, and although the current is all measured in the meter. Still more objectionable is the sliding scale for current when used for driving motors. If the motor is less than one horse-power, the charge is at the rate of 12 cents per horse-power per hour. From 1 to 10 horse-power the rate is 8 cents. Above that the charge was 4 cents, until the other day, when it was reduced to 2 cents.

We have in Toronto a gas monopoly and an electric monopoly. The former, unfair as it is to the people, is still a reasonable monopoly compared with the latter. The charter of the company that controls the gas supply is sold shall be the same for all consumers, and under certain conditions the latter are entitled to reductions in the rate. The electric monopoly is under no obligation to charge uniform rates, and there is nothing in its charter similar to that of the Gas Company, compelling it to sell the current at a fixed rate. The rate for current when used for driving motors is less than one horse-power, the charge is at the rate of 12 cents per horse-power per hour. From 1 to 10 horse-power the rate is 8 cents. Above that the charge was 4 cents, until the other day, when it was reduced to 2 cents.

## Save Your Neck

—The Swiss—  
"Canada's Greatest Laundry"

Lose your neck—and what have you left? You often feel that your neck is coming off the way some laundered collars chafe and saw it. What a contrast to the way collars and cuffs are laundered here! With special and improved machinery we mould the edges of collars and cuffs, making them perfectly smooth and comfortable to the touch. Someone has said of the machine that does this work: "It is the slickest thing in the laundry business."

Only a trial order is needed to convince. We ask no more. Phone 1260 or 1150 and wagon will call.

## SWISS STEAM LAUNDRY,

Allen Manufacturing Company, Proprietors,  
108, 106, 107 SIMCOE STREET.

## THE MONSTER SHOE HOUSE

210 YONGE 510 QUEEN W.

## THE ADAMS SHOE CO.'S

STOCK, WHOLESALE BANKRUPT STOCK,  
AMOUNTING IN ALL TO  
NEARLY

**\$40,000.00**

If you do not secure a pair of shoes at about half the wholesale cost, it is your fault.

Here're a few of the cheaper grades—judge these values:

Felt House Slippers, fur bound . . . 50c  
Felt Congress, elastic sides . . . 35c  
Felt Lace Boots . . . 40c

Shoes at your own price.

How long will it last? Two weeks—the balance of stock will then be sold at SUCKLING & CO.'S Auction Rooms.

Toronto retail shoe stores will be offering some of these shoes to you at about 50 per cent. advance on our present prices.

**W. J. GUINANE, 210 YONGE ST. 510 QUEEN W.**

those of Providence. There is no reason why manufacturers here should pay more for electric current than those of Providence.

assuring them that no corporation shall have power to rob them as the settlers in Manitoba were robbed. Messrs. McKenzie and Mann are to receive, proportionately to the mileage, more acres of mineral lands than the C.P.R. receives of agricultural lands. The Government has placed no restrictions on Mr. McKenzie in selling these lands to miners or settlers. He can sweat them as outrageously as he pleases. He has to pay the Government only 1 per cent. royalty, while the Government gives him power to charge the miner or settler 20 or 50 per cent. Still it is a good bargain, according to The Globe, because no extortion is possible in the disposal of agricultural lands. The Klondike farmers will not be made to sweat. Certainly not, this would be impossible in a country where there is never less than 20 feet of frost in the soil.

The Globe is stupid as well as insincere and dishonest.

## HERCULES BEDS

The famous Hercules wire beds are guaranteed absolutely not to sag; are the most comfortable and durable spring made on account of the way the fabric is woven. (It is patented.) No other make bed can be made as good even at double the price. Hercules beds are as cheap as the common kind. For sale by most dealers.
