THE TORONTO WORLD

ONE CENT MORNING PAPER.

No. 55 YONGE STREET, Toronto.

THE HARDY OUTRAGE.

Mr. Hardy has decided to retain his crippled Government in power by changing the law under which the election petitions were to be tried. We are glad to be able to state that no such violent interference with vested rights and the law of the land as Mr. Hardy proposes has ever before disgraced the statutes of this or any other province of Canada. The Government, with all its quibbling, cannot get over this fact, that the law under which the elections were held has been changed, after the elections were held, for the express purpose of enabling the Government to keep itself in office. We have heard a great deal about the injustice of depriving the constables of their right to exercise the franchise. The constables would have been deprived of no vested right if the election cases had been left entirely to the courts for decision. Mr. Hardy's bill, however, is a direct and positive assault upon the vested rights of a dozen of the candidates in the recent elections. Mr. Hardy proposes to deprive these men of their vested rights for what purpose? Merely to retain himself and his crippled Government in power. His action is a disgrace to British institutions, to British fair play, to all our ideas of right and justice. Mr. Hardy has sworn to British fair play, to all our ideas of right and justice. Mr. Hardy has sworn to British fair play, to all our ideas of right and justice. Mr. Hardy has sworn to British fair play, to all our ideas of right and justice.

THE ATTORNEY AND THE MAGISTRATE.

In justice to Mr. Curry, County Crown Attorney, The World should state that that gentleman wished to say a second charge in the Sargent case when it was found that the evidence would not warrant a conviction under the criminal code. Magistrate Denison, however, demurred to his doing so on the ground that the spirit of the law did not favor subjecting a prisoner to a second trial for the same offence, and also because the defendant had, in his opinion, already suffered infinitely greater punishment by the scandal becoming public than he possibly could suffer through a fire. This advised Mr. Curry did not press the second charge. Subsequently, however, he applied to the magistrate again to proceed under the bylaw for disorderly conduct, and on this occasion the magistrate took his view of the case and an information was laid and summonses issued against the two parties concerned in the offence. It is understood the case will come before Mr. Kingsford, Col. Denison preferring that another magistrate should try the second case, he having already decided the first. Col. Denison assumes full responsibility for advising, in the first instance, that the second charge should not be proceeded with.

IMPERIALISM, Y. FEDERATION AND ANGLO-SAXON UNITY.

Last year it was Imperial Federation. This year it is Anglo-Saxon Unity. The question is, Can John Bull ride these two horses at the same time? We are by no means certain that he can. We are just a little afraid that in attempting to do this feat he may get thrown. Imperialism and Americanism are not, by any means, parallel forces. The two steeds seem to be heading at the present moment in the same direction, but it would not surprise many of us if one of the animals made a break and went off at a right angle, or even switched right around in an entirely opposite direction. It looks very much, however, as if John Bull were going to straddle the team.

No objection can be raised to the cultivation of a friendly relationship with the United States, but if it is proposed that Imperial interests will be sacrificed to establish that relationship, then Canada at least will be heard from in opposition to the idea. No alliance with the United States should be entertained that involves interference in any shape or form with Imperial unity and Imperial development. The United States need not dream of modifying its domestic policy to wheedle Great Britain into forming a closer alliance with the Republic. If the understanding between the two countries involves further sacrifices on the part of Great Britain, the sooner this thing is called off the better. We are in favor of establishing as friendly relations as possible with the United States, but we strenuously oppose the idea of coining the United States into making the alliance. If the alliance cannot be secured except by purchase, as it were, then we are better without it. As a matter of fact, we can never secure a satisfactory understanding on any such basis.

A POPULAR PRIEST.

Father Kiernan is Presented With a Gold Watch and a Purse by His Host of Friends.

Toronto Gore was all en fête yesterday over the celebration of the 25th anniversary of the priesthood of Rev. P. J. Kiernan. About 50 priests were present, and a great crowd of the admirers of the popular priest. Father Kiernan, who is now in his 60th year, delivered a sermon, to which Father Kiernan made a suitable reply, and then followed the presentation of a gold watch and a purse of money and two illuminated addresses. The festivities were brought to a close with a banquet, catered to by Albert Williams of Toronto.

LIGHTED OUT WITH \$20.

Shortly before 6 o'clock last evening P. G. Gail found a horse and rig belonging to Forster & Co., 62 Colborne-street, which had been left standing for some time on Victoria-street. The officer led the horse to the Russell House stables, where it was claimed later by the owner. It appeared to have been left in the day with a load of tomatoes and potatoes, which he was to sell out the city. He did this, and after selling out it is thought that he took the proceeds, amounting to about \$20, and left the city.

After Sanitation Sermons.

Dr. P. H. Brock, Medical Health Officer, has returned from a trip to Woodstock, Berlin, Parkhill and Stratford, after telling the residents of these towns how they should conduct their municipal affairs in a sanitary way.

For Disorderly Conduct.

Thomas Sargent, 41 Avenue-road, has been summoned to appear at the Police Court to-day, to answer to a charge of disorderly conduct in Riverdale Park on Aug. 6.

THE STORM'S DIRE EFFECTS

Persons Stunned by Lightning and One Girl Killed.

Other Members of the Family More or Less Affected—Barns and Stock Burned—Woman Lifted and Carried by the Wind—Much Damage to Property.

Colborne, Aug. 16.—During the lightning storm this morning, C. T. Head of this place received such a shock as rendered him unconscious for a considerable time. No serious damage, however, was sustained. Thomas McEwen's barn at Lakeport was destroyed, together with the contents.

Damage at Ayr.

Ayr, Ont., Aug. 16.—During a severe electric storm, which passed over the village this morning, at 5 o'clock, the lightning struck the G.N.W. Telegraph Office and Postoffice, and did some damage to instruments and papers of the G.N.W. station. The storm was quite severe all over this section, but no other serious results are reported.

Bella Baker Was Killed.

Tweed, Aug. 16.—Bella Baker, the 14-year-old daughter of Mr. W. S. Baker of Huntingdon township, was struck by lightning last evening, and instantly killed. She was sitting at the table when the lightning came in. None of the rest of the family were seriously injured, although all were more or less stunned. The storm was quite severe all over this section, but no other serious results are reported.

Cobourg Had a Visitation.

Cobourg, Aug. 16.—A very heavy and severe thunder and lightning storm passed over here about 6 o'clock this morning. Several large trees were blown down. The lightning struck the town clock tower, setting fire to it. The firemen had considerable difficulty in fighting the flames. Loss about \$300. Two fishermen, who had gone out earlier in the morning, had to be rescued by the life-boat crew.

Much Damage Near Thamesville.

Thamesville, Aug. 16.—A heavy electric storm did much damage in this vicinity last night. A house in this village was struck by lightning, but little damage done. A barn on 1st concession, Zone, owned by Mr. Michael Farrell, was struck and burned with all its hay, implements and a number of hogs.

Boy Killed by a Barn Door.

Berlin, Aug. 16.—A sad fatality occurred yesterday afternoon two miles from here on the farm of Oliver Betner, Breslau-road. His little boy, about 8 years old, was in the barnyard, near a large barn door, which was left open. The door, which was closed by a spring, broke loose from its moorings, owing to the high wind prevailing, and with great force caught the little fellow, who was pinned between it and the ground, killing him almost instantly.

A Cyclone in Rawdon.

Marmora, Ont., Aug. 16.—About six miles south of Marmora village, in the township of Rawdon, a cyclone came down last evening, between six and seven, and caught John Livingston's barn and completely demolished it, taking it about twenty feet from its original place. The wind was a gale, and both ends of the drive house.

Mrs. Livingston, who was down cellar at the time, ran up and out toward the brook, where she was taken up with the wind for thirty or forty feet. Close by the lightning struck a cow belonging to John Birlow. The cyclone took the cow and threw it twenty feet high, whirling her around and when she fell to the ground she was found to be dead. The Livingston family had a very narrow escape.

DOWN AT THE DEPOT.

Excursions Come and Go—Musikoka a Great Country.

Superintendent Williams of the C. P. R. arrived yesterday afternoon from London. District Passenger Agent Dickson returned from Woodstock yesterday.

The C. P. R. will build a new station at Guelph, to cost \$18,000.

Mrs. T. L. Cochrane has been appointed travelling freight agent for Canada by the Western Railway.

The Sons of Scotland and 30th Batt. Band of Orangeville will picnic at Owen Sound to-day, going by way of the C. P. R.

Another large party of children, reaping the benefit of the Fresh Air Fund Association, were taken out into the country yesterday.

Mr. A. C. Davis arrived in the city yesterday from Muskoka en route to New York. He is delighted with the district and the season, when he suffered an apple pie attack. After being removed to the Daily House he soon recovered.

A man by the name of John King of Bridgewater, Ont., was about to board a train yesterday, when he suffered an apple pie attack. After being removed to the Daily House he soon recovered.

The station was crowded yesterday with would-be farmers, all going to the North-west to make their fortunes in gathering the Manitoba crop. Nearly 3000 took advantage of the train, a fact that necessitated the running of six special trains. All manner of baggage, from the winter overcoat to the print dress, was being packed. Some of the party went to Owen Sound to take the C. P. R., but the majority went by way of Smith's Falls. On Thursday another excursion will leave to take in all points east of Toronto.

THEIR GRACEFUL HOSPITALITY.

A Noticeable Trait in English Households.

One of the first things that Americans admitted into the family life of the English country notice is the graceful and simple interchange of hospitality, with no sign of "fuss," nor yet of "feathers." Nearly all English women ride the wheel, not so much for the mere pleasure of riding, as for the convenience. Country houses are far apart, but distances do not seem to count and every pleasant afternoon one is sure to see a party of ladies on their way to call on some friends. A light tea, consisting of sandwiches and tea cake, is served each afternoon with the "cup that cheers" on the lawn or in the house, and every woman, and every country house has a retinue of servants thoroughly trained, the hostess has not the slightest anxiety lest her guests be neglected. A maid is always ready to do what she may for the comfort of the guests. Three men serve at dinner for 12, and two are at hand to meet guests at the door, one to open the door and the other to make the announcement in the drawing-room. Cards are not used unless the hostess is not at home.

They Fit All Kinds of Feet

It costs a man no more to buy shoes in a store with a stock of 5000 pairs of men's shoes than it does in a store where only one thousand pairs are kept.

—And he has the advantage of a larger choice of styles and an absolute surety of fit.

A different shape, size, width and kind of leather could be sold to 9240 different men without duplicating a single pair of "Slater Shoes."

—And our sole control contract says we must keep a full representation of all the "Slater Shoes" in stock.
