Christmas MYSTERIOUS ASSASSIN

An Extraordinary Engineering Project Aiming to Close the Belle Isle Strait.

GREAT GOOD WOULD BE THE RESULT.

vinces Would Become Veri-

Chicago, Dec. 18.-Writing from St. John's Nfld., to The Record-Herald, P. T McGrath says: One of the most extraordinary engineering projects yet proposed to the scientific world is that for closing the Belle-Isle Strait, between Newfoundland and Labrador, by building a break water across it at the narrowest part, where the channel is but ten miles wide and 180 feet deep. The benefits to be de shores of Quebec, Anticosti, Cape Breton, Nova Scotia and Prince Edward Island would become veritable gardens, in which semi-tropical fruits and vegetables would flourish, and that the portion of Labrador west of the causeway would have a cli mate as salubrious as that of France, be And all the numerous delicacies ing in about the same latitude. The the that are required for the Christmas ory underlying this remarkable proposi-tion has the weight of practical experience cheer. largely on its side.

Channel for Icebergs. The argument is that Belie-Isle Strait is is overflowing with beautiful the channel or doorway from the North, by which icebergs, floes and the frigid waters from Greenland and the Arctic Ocean find their way into the Gulf of St. Lawrence, chilling its area, causing fogs, cold, damp and late springs, and generaspect. As conditions now are, with this seaway open, the ice begins to drift in toward the end of November, and the navigation of the Gulf is then impossible until the following May.

If this channel were closed, it is maintained by the promoters of the new wheme little to the conditions are sufficiently as a series of the new channel little to the conditions.

If this channel were closed, it is maintained by the promoters of the new scheme, little ice would be formed in the gulf during the winter, for then the frozen plains and chilly waters from the North would be forced out into the Atlantac Ocean and along the east coast of Newfoundland. The Gulf of St. Lawrence has an area larger than the State of Illinois, and such a body of ice pours into it that it forms huge crystal prairies, thirty feet thick, and, with a superficial area of many miles, driven this way and that by the changing winds.

Canadian side nearer than Quebec, 1000 miles away, and, on the Newfoundland side, the Island Railway is not within 250 miles of the strait. The intervening regions produce nothing which would warrant the construction of a line of such length, and the money for that phase of the project would be much better spent in adding to the strength of the dam.

TORONTO FIRM LOSES.

The lowering of temperature caused by this immense body of ice most certain, y helps to create the present tempestuous conditions incident to winter in the St. Lawrence region, and there is little doubt that, if the flow of this frigid current, with its load of ice masses, should be diverted in some other direction a very marked to swould ensue. Indeed, it is by no means improbable that the outcome would be that the damming of the strait would so alter the meteorological outlook that the Gulf and River St. Lawrence might be made navigable all winter, certainly as far as Quebec, and, possibly, inland to Montreal.

Judgment on Canadian Cases Before the Privy Council London, Dec. 18.—(Telegram Cable.)—The London, Dec. 18.—(Telegram Cable.)—The been seen or heard of Hay until to-day, when his body was found. The money was gone, and in the back of Hay's head was a great jagged wound.

MUNICIPAL LODGING HOUSE.

Ones Who Need a Bed.

Chicago, Dec. 18.—Chicago will open a municipal lodging house at 12-14 Jeffersonger Saturday and the strait of the money to Manager G. E. Romney of the Lumber Company. Since that time nothing has been seen or heard of Hay until to-day, was gone, and in the back of Hay's head was a great jagged wound.

MUNICIPAL LODGING HOUSE.

Chicago, Dec. 18.—Chicago will open a municipal lodging house at 12-14 Jeffersonger Saturday and the latter's house with the remark that he was going to take the money to Manager G. E. Romney of the Lumber Company. Since that time nothing has been seen or heard of Hay until to-day, when his body was gone, and in the back of Hay's head was great jagged wound.

MUNICIPAL LODGING HOUSE.

Chicago, Dec. 18.—Chicago will open a municipal lodging house at 12-14 Jeffersonger Saturday and the statement of the Lumber of the Lumb

Success Not Certain.

be to raise by many degrees the tempera-ture of the region, it by no means follows that it would accomplish all that is claim-ed for it. The Gulf Stream, for instance, makes its way north to our very doors, and the ice floes drift south and meet it there, but tho the warmer current con-quers, it does not give us the benefit of a perennial spring, for we are annually treated to as convincing evidences of the undiminished power of the Ice King as even the most skeptical could or should require.

Material is Handy.

It simply means starting a dump and carrying it across the strait, with a convex curve, toward the Atlantic, so as to better resist the chaing and pressure from the floes and bergs. The causeway would have to be built of rock, as earth would have to be built of rock, as earth would have to be built of rock, as earth would have to be found in rock. Hills, mountain ranges and boulders innumerable are to be found in abundance, and it would be simply a case of blowing down the hills and carting the debris to the dam and dumping it in.

The structure should be wide and highwide to prevent the waves forcing thru

MURDER FOR RUBBERY. Victim Buried in a Trench in Salt

Salt Lake, Utah, Dec. 18.-The body of James H. Hav. secretary of the Pacific Lumber Company, was to-day found buried in a shallow trench alongside the Rlo Grande tracks, near Sixth and Thirteenth South streets. Monday night Hay called tractor living at 2210 Walnut-avenue, and collected \$3800, which Mortensen owed the Pacific Lumber Company, and which late in the afternoon Hay had refused to accept, not caring to leave that amount in the office safe at night. He gave a receipt to Mortensen for the money, and left the latter's house with the remark that he was going to take the money to

the remarks made by Crown Attorney CurHowever, the project is worthy of the most serious consideration of Canadian statesmen and legislators. It is estimated that the work would cost \$30,000.000. This is a formidable sum; but, in view of the demands just now that Canada spend \$5. Output, the larger sum seems less appalling. Nor is the undertaking so formidable are might appear from a superficial view. It presents no engin lering difficulties such as have beset many projects already carried to a successful issue.

New York, Dec. 18.—A despatch to The New York, Dec. 18.—A despatch to The Provincian Superior Colon, Colombia, says: A woment think that staying at home and atthe draft the work would cost \$30,000.000. This with public affairs, as advised by Mr. Curry, is not consistent with the principles of democracy. A resolution of protest was might appear from a superficial view. It presents no engin lering difficulties such as have beset many projects already carried to a successful issue.
