Alexieff's Passing Marks Final Rout of War Party

Czar Has Washed His Hands of Manchuria and Appears Really Anxious to Conclude Peace.

St. Petersburg, June 23.—The victory of the far east, having been established by the imperial ukaz of June 21, Admiral Alexieff has been appointed a member of the council of the empire, and will continue to hold his position as aide de camp general to the emperor.

The announcement of Admiral Alexieff's retirement was not accompanied by the usual recital of praise, and it bears all the earmarks of imperial disfavor. The retirement of Grand Duke Alexis as high admiral and of Alexieff as viceroy of the far east, and the suppression of the far eastern command in quick succession is the best evidence that Japan could have that the emperor has washed his hands of the whole Manchurian adventure.

The Liberal press greets the demise of the far eastern command with a howl of exultation as being the final blow to the policy which led to the present war. The Liberal organ, the "Morning Post," traces the origin of the war to the late Interior Minister, Von Plehve, and concludes: "The war which preceded the bloody pages of the book of our far eastern affairs has at last been torn out by the emperor and all Russia will rejoice."

The downfall of Admiral Alexieff and the suppression of the far eastern command materially increases the likelihood that M. Witte will also represent Russia, since he is an inveterate enemy of the "war cabal," which now seems definitely to have fallen under the influence of the emperor on Tuesday.

A prominent Russian statesman, who is convinced that peace will be the result of the war, is quoted as saying: "Japan surely can no longer doubt the sincerity of the emperor's desire to conclude peace. Admiral Alexieff's retirement marks the final rout of the war party. Should Japan refuse an armistice, it would make her responsible for the wanton sacrifice of thousands of lives."

SOME MATTERS TO BE SETTLED FIRST
Washington, June 23.—Mr. Takahira, the Japanese minister, called at the White House to-night and conferred with the president for three-quarters of an hour. When he left, he was asked regarding any developments regarding an armistice between the armies of Japan and Russia. Mr. Takahira would not discuss the question, but suggested that there were "some matters" to be settled first.

JUDGE BLAMES PARENTS FOR GIRLS WHO GO WILD
Says Ephraim Kelson's Nine Months Imprisonment is Due to Daughter's Folly.

Kingston, June 23.—Ephraim Kelson was today sent to jail for nine months for wounding a young man who had been out driving until early morning with his daughter. Judge Price said that the young man's conduct was the cause of her father's imprisonment, and he regretted having to impose it, but the public must be protected from menacing knives.

TURNED IN FALSE ALARMS.
It Seemingly Has Become a Habit With Clarke.

For some time past the east end firemen have repeatedly been called upon to answer to false alarms. For the last two nights watches have been called to attend different boxes in the district.

Everybody Goes Bass Fishing.
All the sportsmen are now getting out after the bass and the muskellunge, which is here given that when you arrive at your hotel or farmer's house a good plan is to borrow an old sack, place a lump of ice in it with a few bottles of Radnor Water. When you catch a fish, celebrate with a little Radnor and eye, after which you can place the fish under the ice.

HUNDREDS SHOT DOWN IN THE STREETS OF LODZ

50 Are Killed and Over 200 Wounded—Troops Storm Barricades Erected by Strikers.

Lodz, Russian Poland, June 23.—Troops have stormed barricades which have been erected at many points in the streets by the strikers.

Fifty persons have been killed and over 200 wounded. Martial law will be declared here, but not yet been considered.

Since early this morning this city has been in a state of panic.

The Liberal press greets the demise of the far eastern command with a howl of exultation as being the final blow to the policy which led to the present war.

NEGLECTED LIVING OR DEAD? ETERNITY DOES NOT SOCIAL
No Medical Attention During His Illness and No Doctor to View the Body.

Enclosed in a rough deal coffin at the King-street mission lay all day yesterday the body of James Kelly, an old soldier, 70 years of age. He was an unhappy son of the Green Isle and with a curious coincidence the plain box that held this last remains was painted a decided shade of green.

MUCH ANXIETY IN PARIS BERLIN IS DISAPPOINTED

French Note on Conference Leaves Situation Unchanged and the Bourgeois is Panicky.

Berlin, June 23.—The French note on the subject of the proposed Moroccan conference was handed to the foreign office this morning. Owing to its great length the note had to be sent by mail to Berlin instead of by telegraph. The foreign office, while declining to discuss the points of the note in detail, admits that it leaves the situation unchanged.

Paris, June 23.—In spite of the reassuring tone of the official communication issued after the cabinet council public uneasiness has accentuated. This produced a panic sentiment on the bourse, where heavy offers of rentes sent down prices to the unusual figure of 100.

ONIOUS SIGNS.
Parliamentary circles also continued to show a certain amount of apprehension. This was increased by the publication in the sensational press of public opinion and the dispositions of the French and German military forces along the frontier.

BERLIN DISAPPOINTED.
Berlin, June 23.—The evening papers frankly express their disappointment with the French note. Much has been stated upon the subject of the French note, but the Vossische Zeitung, discussing the note, says that Rouvier is continuing Delors' policy without M. Delcasse.

MANTLE OF RAINVILLE DESCENDS ON PAYETTE

How Deals of Montreal Light, Heat and Power Company Have Been Engineered Thru City Council—Big Contracts for Payette.

Montreal, June 23.—(Staff Special.)—The City of Montreal, having for the present disposed of the gas problem, has now on its hands the affairs of the Montreal Street Railway. Before entering into any discussion of the "pros and cons" of the proposed extension of franchise, it might be of interest to look into the "personnel" of the two companies now looking for similar favors at the hands of the city council.

The Gas Company—of the title—of the Montreal Light, Heat and Power Company—also desires extension privileges.

HISTORY OF THE BIG DEALS.
To speak of the connection between the city council of Montreal and the Montreal Light, Heat and Power Company is to trace the history of the big deals done to date. Some years ago, before the Montreal Light, Heat and Power Company and the Montreal Street Railway attained their present status in the world of monopoly, there was a member of the local cabinet who was known as Rainville.

RAINVILLE'S SUCCESSOR.
Alderman Rainville having cast away the burden of municipal affairs it was necessary to find a successor. Alderman Payette then stepped forward and took up the mantle of Rainville.
