UNEMPLOYED VETERANS TO HOLD MASS MEETING

Will Ask City Council to Provide Them

With Work. A meeting of all the returned men who are out of employment will be held in the Y. M. C. A. on Thursday evening, at which some plans will be suggested to the city council for the commencement of city work.

An ex-soldier, asked what conclusion he thought the meeting would arrive at as to suggestions for the bringing of some kind of employment, said he thought the city would be asked to commence work on the overhauling or paving of roads.

"If something of this nature could not be brought to a head," he said, "I think that the city council will be asked to lay-off the foreigners who are now engaged in digging severs and laying water mains. HAVING HARD TIME TO

Hopkins Has Been the Round of Civic Offices and No Satisfaction Yet.

"Finding a home for a flock of taxis is worse than renting a house when you have a large family," C. Hopkins, proprietor of the Hop Taxi Company declared today. He was making his tenth trip to the city offices in an effort to secure permission to erect a garage on Elmwood avenue.

He purchased a house over there re-

cently and as he is required to give up his present garage in a short time he thought it would be a good idea to house four cars behind his own residence. Other residents of the street objected. They thought he would conduct his whole taxi business from that point and that they would be disturbed day and night by the honking of horns, the purr of engines and other noises resulting form the operation of cars. Mr. Hopkins went ahead, however, and applied for a building permit. A. M. Piper, building inspector, refused it, because he agreed with the conention of other property-owners there, and also because the garage and house

would occupy more than 90 per cent of the lot, which is contrary to a city bylaw.

An appeal was made to No. 2 committee. The members of that body were grieved to see a citizen (and voter) in such circumstances, and voted to give happy, until the following Mondowhen the council refused to indorse committee's action and sent it back

ready making preparations for the joyous event.

The officers in charge of the program have not forgotten the 85 children belonging to the soldiers who are quartered in Tecumseh Barracks. A large Christmas tree will be erected and numberless mysterious packages will greet the children on Christmas morning.

This is the first time in the history of Wolesley Barracks that so many children have been accommodated. It is where there are nearly 200 men quartered. The regiment has been long established. It left London in 1914 for overseas, and just returned to the city a few weeks ago.
