Break in Russian Exchange Remains Unexplicable to Dealers.

New York, June 11.—Last week's severe drain on local bank resources and the resultant rise in call money to 5 per cent, were the restraining influences of loay's irregular and more narrow market. The shorts availed themselves of these developments to engage in a series of attacks, which culminated with general heaviness in the later dealings.

Another break in Russian exchange to the new minimum of 24% and a further absence of demand for Russian Government bonds were inexplicable to dealers in exchange in view of the improved conditions reported from Petrograd.

Trading was very active during the first and last hours, but tapered off to minor proportions during the intermediate period. Selling was most often in excess of demand, and dealings as a whole were highly speculative.

Almost the only stocks to show a degree of strength were the new and old bethelem Steel issues, both of which registered new maximums. The newshares made an extreme gain of 5½ points to 156. Only part of these advances were retained in the free offerings of the final hour.

For want of some more definite reason, the heaviness of United States Steel was escribed to last Saturday's tonnage statement, which reported a moderate decrease in unfiffed orders for May from the high record set in the previous month. Sterl's best quotation of the day was 122, made at the opening, from which it is lit to 129%, closing at a slight fraction over its minimum and malsing a net loss of 2 points

Motors and the metals also surrendered

An early rise in industrial bonds, which
was later effaced, was the only feature

narrow and uninteresting session in the local stock market yesterday. The trend of prices in most cases where any could be detected was downwards in sympathy with the weaker tone to the New York market.

Further liquidation in Brazilian carried this issue down five-eighths from the opening at 38%.

The steel issues were dealt in to a meagre extent with both Steel of Canada and Dominion Steel ending the day lower. The former lost one-quarter from 59%, while the latter went back to 60% and recovered slightly to 61, a net loss of one-half point. Nova Scotia, on the other hand, met a fairly good demand and advanced from the opening at 93% to 94%. Smelters opened over a point down at 25, from Saturday's close and rallied one-eighth later.

The war loans were fairly active. The 1937 bonds were sold after a gain to 94% had been recorded, accounting for a reaction to 94%.

WINNIPEG GRAIN MARKET. Winnipeg, June 11—With the best weather map, not only in western Canada, but in the western States, that has been shown since the new crop was put in, prices went soaring today. Winnipeg October, which has been dead for days, showing quite a little trade, and closed 5c up on a fluctuation of 6½c. July cats were up ½c in spite of an increase of stocks in terminals, October oats were up ½c: July flax was down 7½c, and October, 7c.

The cash market showed a good demand from millers, which was sufficient to keep prices of all grades, except No. 1 northern, at a premium of 1c over the price supposed to be paid after June 10. There were heavy deliveries Saturday to take advantage of the premium for the first 10 days in June, as agreed upon between the principal longs and shorts, the mills and the agent of the allied governments.

Foe's Counter-Offensive on Carso Comes to Abrupt End.

Washington, June 11.-The Austrian counter-offensive on the Carso has een broken, according to official adices received here today from a

wices received here today from a member of the Italian cabinet:

"The furious attacks against our defences at Faite and Jamiano have been repulsed with heavy losses and the advance of the enemy was stopped at the banks of the Timavo River," the despatch reads.

"The brave defenders of our brilliantly won advanced positions were held with the utmost tenacity despite the fact that on the Carso front alone the Austrians hurled 150,000 troops and the concentrated fire from 2,000 big guns against us. The counter offensive was directed by the Austrian General Boroevic.

"The Austrian counter offensive on the middle Isonzo and the Carso, al-

sector the Austrians failed to reaculate their objective."

The Italians have adopted a new system of machine gun warfare that was used to great advantage in the recent fighting, the despatches say. The machine guns have been detached from infantry regiments and organized as independent commands, giving them a mobility in mountainous country heretofore impossible.

FOE SURPRISE ATTACK **NEAR COUCY REPULSED** 

French Report Intermittent Cannonading Over Greater Part of Front.

Paris June 11.—The official communication issued by the war office tonight reads:

"Two enemy surprise attacks on our small positions near Coucy met with no success. There was intermittent cannonading over the greater part of the front, but in the region of Mont Carnillet, both artilleries were very active.

"Beigian communication—There was lively artillery action last night in the direction of Hetsas, and today near Ramscapello and Hetsas."

EACH PAY HALF.

Special to The Toronto World.

Brantford, June 11.—The effort of the Grand Trunk Raftway to force the city to pay for the two watchmen maintained by the raitway to guard their crossing on Colborne street, and to assume all responsibility in case of accident, has failed. Mayor Bowiby received an order of the Dominion Raitway Board confirming the arrangement by which the city and the railway pay half the cost of the interlocking device.

AEROPLANE CAUSES RUNAWAY

Special to The Toronto World. Belleville, June 11.—John Stapley was seniously, injured in a runaway caused by a team of horses belonging to W. Tufts, a butcher, becoming frightened at an acroplane from the Mohawk aviation catop, flying over the city. The animals in their mad career collided with a delivery wagon in which Stapley was a delivery wagon in which comprises about two hundred acres will in time become the centre of the community and a town will develop there. Houses, stores, shops, halls, a schoolhouse and churches will be constructed and will serve not only as a shippink point but as a place of business and enter-tainment.

**VETERANS' FARM DRAFT** COMPLETED BY BOARD

Thirty Men Will Go to Monteith Tomorrow to Take Course in Agriculture.

The land settlement board for returned soldiers and sailors met at the parliament buildings yesterday and selected eight returned men to complete the draft of thirty, which will proceed to Monteith tomorrow for the purpose of taking a course in agricultural training before settling on the land provided in the Townships of Owens and O'Brien. The men will leave here under the charge of Major Kennedy of Dixie. They will spend several hours in New Liskeard where the board of trade will provide entertainment and a lunch. They will be taken out by motor to see the farms of the community and thus obtain a slight insight into farming as carried on there.

The majority of men who have been

slight insight into farming as carried on there.

The majority of men who have been selected have had experience in agriculture, but it is felt that since conditions in the north differ widely from those in the south where they were all engaged before the war, a course of training would be necessary in order to fit the men to successfully cope with the difficulties of pioneer farming.

The course at Monteith will last from six to eight weeks, at the end of which time those who have proven that they will become capable farmers will be taken to the colony farm situated near McPherson, 60 miles west of Cochrane on the National Transcontinental Railroad. Here dormitories, buildings for live stock, stores and machinery have been provided and another course of training will be held, duri--- which the men will look over the land allotted by the government for their use and choose a suitable tract for their farms. A house and other buildings will be erected on the land selected and as soon as completed provision will be made to send the wife and family north.
