THE ANGLER. BY CHARLOTTE ELIZABETH.

saw the angler bait his hook, He dress'd it with a silken fly; saw the heedless fish he took, Dragg'd struggling out to bleed and die.

THE OCEAN.—The Great Pacific Ocean, has a larger area than all the dry land on the globe. It covers 50,000,000 of guare miles, and 70,000,000 it cluding the Indian Ocean. From Peru to Africa it is 16,000 miles wide. It is generally unfathour able between the tropics, where its depth is so great, that a line five miles long has in many in-stances not reached the bottom. The Atlantic Ocean, apparently stretching from pole to pole, is 5000 miles wide, and covers 25,000,000 square miles. Astonishing Efficacy

CURE OF A DESPERATE CASE OF ERUSTPELAS. opy of a Letter from Mr. Joseph Gildon, Jun, a Parmer, East Kent, near Spilsby, Lincolushire, 8th April, 1846. TO PROFESSOR HOLLOWAY. Sin,—I have the gratification to announce to you a most wonderful cure wrought upon myself, by the use of your Ointment and Pills. I had a severe attack of Erysipclas in my right foot, which extended along my ancle, and was attended with swelling and inflammation to an alarming degree, insonuch that I was unable to move without the use of crudeks. I consulted a very eminent Phy-psican, besides other Medical men, but to no pur-pose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation subsided to such a de-gree that I was enabled to pursue my daily avo-cation, to the utter suprise and annaement of these who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my fahrer holds his farm under the Rev. J. Spence, Rector of our Parish. JOREPHI GILDON.
